

The historical milestones of various pharma-events and salient features of different Acts and Rules pertaining to profession are integral component of the text. The students of pharmacy, we are sure, will find contents of the book interesting and educative.

We thank management of PharmaMed Press, especially, Mr. Anil Shah for his efforts in publishing this book.

Preface to Second Edition

After several reprints to First Edition, this Second Edition of our book is being brought out covering added features of pharmaceutical ethics, legislation and profession. This revised edition has eleven more chapter included along with updated information on events of today and Annexures. The text of the book is student-centric. It is explained in lucid manner, which is understandable by an average under-graduate student of pharmacy and allied sciences.

We wish to thank Prof. Ganachari, Dr. Pramod and Mr. Vijay (PA to Prof. Kokate) for their assistance.

We also thank the management of Pharma Med Press for publishing the revised edition of the book.
