<i>Preface</i> .....	(vii)
<i>About the author</i> .....	(xi)

## CHAPTER 1

### Environmental Policies

1.1	Key Policy Initiatives .....	2
1.2	Terminology .....	6
1.3	The Environment Protection Act.....	7
1.3.1	Provisions of the Act.....	9
1.3.2	Rules to Regulate Environmental Pollution.....	10
1.3.3	Powers of Entry and Inspection .....	11
1.3.4	Power to take Sample.....	12
1.3.5	Environmental Laboratories.....	12
1.4	Air (Prevention and Control of Pollution) Act .....	12
1.5	Water (Prevention and Control of Pollution) Act .....	14
1.5.1	Functions of the CPCB.....	15
1.5.2	Functions of the SPCB.....	15
1.6	Wild Life Protection Act .....	16
1.7	Forest (Conservation) Act.....	16
1.8	Municipal Solid Wastes (Management and Handling) Rules.....	19
1.8.1	Collection of Municipal Solid Wastes.....	20
1.8.2	Segregation of Municipal Solid Wastes .....	20
1.8.3	Storage of Municipal Solid Wastes.....	21
1.8.4	Transportation of Municipal Solid Wastes.....	21
1.8.5	Processing of Municipal Solid Wastes.....	21

---

1.8.6	Disposal of Municipal Solid Wastes .....	22
1.8.7	Specifications for Landfill Sites .....	22
1.8.8	Pollution Prevention .....	24
1.8.9	Water Quality Monitoring .....	24
1.8.10	Ambient Air Quality Monitoring .....	25
1.8.11	Plantation at Landfill Site .....	26
1.8.12	Closure of Landfill Site .....	26
1.8.13	Special Provisions for Hilly Areas .....	27
1.8.14	Standards for Composting, Treated Leachates and Incineration .....	27
1.9	Biomedical Waste Management and Handling Rules .....	30
1.9.1	Treatment and Disposal .....	31
1.9.2	Segregation, Packaging, Transportation and Storage .....	31
1.9.3	Prescribed Authority .....	31
1.10	Hazardous Waste Management and Handling Rules.....	35
1.11	EIA Notification .....	36
1.12	Biodiversity Act .....	37
1.12.1	The Convention on Biological Diversity.....	37
1.12.2	Biodiversity Authority.....	38
1.12.3	Biological Diversity Act.....	38
1.12.4	Biodiversity Loss in Tamil Nadu .....	40
1.12.5	Major threats to Biodiversity.....	40
1.12.6	Protected Areas and Biosphere reserves .....	41
1.12.7	Pressures on biodiversity conservation .....	42
1.12.8	Conservation of biodiversity .....	44
1.13	Coastal Regulation Zone Rules .....	45
1.13.1	Prohibited Activities .....	46
1.13.2	Permissible Activities .....	49
1.13.3	Procedure for clearance of permissible activities.....	51
1.13.4	Preparation of Coastal Zone Management Plans .....	52
1.13.5	Enforcement of the CRZ, Rules .....	53
1.13.6	Classification of the CRZ.....	54
1.13.7	Norms for regulation of activities .....	55

**CHAPTER 2****Conceptual Facets of EIA**

2.1	Definition of EIA.....	60
2.1.1	Environmental Concerns.....	61
2.1.2	Environmental Indicators.....	62
2.2	Types of EIA.....	70
2.2.1	Strategic EIA (SEIA).....	70
2.2.2	Regional EIA.....	71
2.2.3	Sectoral EIA.....	71
2.2.4	Project Level EIA.....	71
2.2.5	Life Cycle Assessment (LCA).....	71
2.3	Grouping of Environmental Impacts.....	72
2.3.1	Direct Impacts.....	72
2.3.2	Indirect Impacts.....	73
2.3.3	Cumulative Impacts.....	74
2.3.4	Induced Impacts.....	74
2.4	EIA Principles and Process.....	74
2.4.1	EIA Principles.....	75
2.4.2	EIA Process.....	76
2.4.3	EIA Benefits and Flaws.....	78
2.5	Environmental Impact Statement (EIS).....	79
2.5.1	Draft EIS.....	81
2.5.2	Final EIS.....	81
2.5.3	Supplemental EIS.....	81
2.6	Environmental due Diligence (EDD) Process.....	82
2.6.1	Procedure to EDD.....	83
2.7	Objectives of EIA.....	84
2.8	Environmental Impacts Analysis.....	85
2.8.1	Significant Environmental Impacts.....	88
2.8.2	The Stages of Environmental Impact Analysis.....	90
2.8.3	Stages of Development.....	91

<i>Contents</i>	<i>(xvi)</i>
2.9 Environmental Sustainability.....	92
2.9.1 Guiding Principles.....	93
2.9.2 The Three Pillars of Sustainability.....	94
2.10 Climate change and EIA .....	96

## **CHAPTER 3**

### **EIA Study Planning and Management**

3.1 Key Issues.....	99
3.2 Conceptual Approach .....	99
3.2.1 Project Description and Need (PDN).....	102
3.2.2 Pertinent Institutional Information (PII).....	107
3.2.3 Identification of Potential Impacts (IPI).....	108
3.2.4 Description of Affected Environment (DAE) .....	111
3.2.5 Impact prediction (IP) .....	112
3.2.6 Impact Assessment (IA).....	114
3.2.7 Impact Mitigation (IM) .....	115
3.2.8 Selecting the Proposed Action (SPA) .....	116
3.2.9 Preparing Written Documentation (PWD).....	117
3.2.10 Environmental Monitoring (EM) .....	118
3.3 Proposal Development.....	118
3.4 EIA Team .....	119
3.4.1 Interdisciplinary Approach.....	122
3.4.2 Factors of Selection of Team .....	123
3.4.3 Attributes of EIA Team.....	123
3.5 Team Leader Selection and Duties .....	124
3.6 General Study Management .....	125
3.7 Fiscal Control .....	126
3.7.1 EIA Project Budgeting .....	126
3.7.2 Critics of EIA Report .....	128

---

3.8	EIA Project Management .....	129
3.8.1	Project Manager .....	129
3.8.2	Role of EIA Project Manager .....	130
3.8.3	Control Mechanism of Project Management.....	131

## CHAPTER 4

### Baseline Data and Environmental Setting

4.1	Creation of EIA Data Base .....	135
4.1.1	Satellite Data and Topomaps .....	136
4.1.2	Data Analysis Methods .....	136
4.1.3	Data Type and Source .....	137
4.1.4	Data Compilation .....	139
4.2	EIA Data Products .....	139
4.2.1	Thematic Data Products .....	140
4.2.2	Topographic Data Products .....	140
4.2.3	Field Data .....	141
4.2.4	Collateral Data.....	141
4.3	Environmental Setting .....	141
4.3.1	Conceptual Framework .....	142
4.3.2	Monitoring Stations.....	143
4.3.3	Environmental Inventory.....	144
4.4	Environmental Baseline Monitoring (EBM).....	149
4.4.1	Types of EIA Monitoring.....	150
4.4.2	Requirements for EBM .....	150
4.4.3	Planning of EBM.....	151
4.5	Initial Environmental Evaluation.....	153
4.6	Baseline Data Generation .....	154
4.6.1	Environmental Attributes .....	169
4.6.2	Meteorological Data.....	171
4.6.3	Ambient Air Quality Data.....	174
4.6.4	Noise Quality Data.....	176
4.6.5	Water Quality Data.....	179

---

4.6.6	Geology and Hydro-geological Aspects.....	185
4.6.7	Soil quality data.....	186
4.6.8	Flora and fauna studies.....	189
4.6.9	Socio-Economics Aspects.....	190
4.7	Land Use Studies.....	191
4.7.1	Land Use/Land Cover Classification System.....	193
4.7.2	Criteria for Land use/Land cover classification.....	197
4.7.3	Characteristics of a good classification.....	198
4.7.4	Land use/Land cover Mapping Method.....	198
4.8	Drainage Network.....	199
4.9	Hydro Geomorphological Studies.....	202
4.10	Hydro Geological Studies.....	202

## **CHAPTER 5**

### **Impact Identification Methods**

5.1	Impact Identification (II) Methodologies.....	210
5.2	Uses of Impact Identification (II) Methods.....	211
5.3	Interaction-Matrix Methods.....	213
5.3.1	Simple Matrices.....	213
5.3.2	Stepped Matrices.....	224
5.3.3	Development of a Simple Matrix.....	225
5.3.4	Other Types of Matrices.....	225
5.4	Checklist Methodologies.....	227
5.4.1	Simple Checklists.....	228
5.4.2	Descriptive Checklists.....	229
5.4.3	Threshold of concern checklists.....	229
5.4.4	Scaling checklists.....	230
5.4.5	Scaling-weighting checklists.....	230
5.4.6	Uses of Checklists.....	232
5.5	Network Methods.....	233

5.6	Overlays and Geographic Information Systems (GIS) .....	235
5.6.1	Expert Systems .....	235
5.6.2	Advantages and Disadvantages of Impact Identification Methods ..	236
5.7	Significance of Identified Impacts .....	237
5.7.1	Impact Prediction Tools .....	238
5.7.2	Models for Predicting Impacts .....	250
5.7.3	Mathematical Models .....	251
5.7.4	Assessment Criteria .....	252

**CHAPTER 6**

**Impacts on Air Environment**

6.1	Air Pollution .....	256
6.1.1	Sources of Air Pollutants .....	257
6.1.2	Effects of Air Pollutants .....	257
6.1.3	Automobile Pollution .....	257
6.1.4	Industrial Pollution .....	258
6.1.5	Ambient Air Quality Standards .....	259
6.1.6	Emissions of Pollutants .....	261
6.2	Approach for Air Environment Impacts .....	263
6.2.1	Air Pollutants and their Impacts .....	264
6.2.2	Air Environmental Setting .....	267
6.2.3	Emission Inventory .....	268
6.2.4	Meteorological Data .....	269
6.2.5	Ambient Air Quality Monitoring .....	272
6.2.6	Air Quality Standards and Regulations .....	278
6.3	Prediction of Air Impacts .....	278
6.3.1	Mass Balance Approach .....	280
6.3.2	Box-Model Approaches .....	287
6.3.3	Air-Quality Dispersion-Modeling Approaches .....	289
6.3.4	Fugitive-Dust Model .....	291
6.3.5	Utilization of Dispersion Models .....	291
6.3.6	Impact Prediction Tools .....	292

---

6.4	Impact Assessment (IA) .....	292
6.4.1	Significance of the Impacts .....	294
6.4.2	Assessment of Impact Significance.....	304
6.5	Impact Mitigation Measures .....	305

## CHAPTER 7

### Impacts on Water Environment

7.1	Point and Non Point Source Pollution .....	307
7.1.1	Major Water Pollutants .....	308
7.1.2	Water Quality for Different Uses .....	309
7.2	Impact Concerns .....	316
7.3	Surface-water Quantity and Quality .....	317
7.3.1	Surface Water Quantity .....	317
7.3.2	Surface-water Quality Parameters.....	317
7.3.3	Surface Water Contaminant and their Impacts.....	321
7.4	Groundwater Quantity and Quality .....	323
7.5	Impacts Study Approach.....	328
7.5.1	Identification of Water Quantity/Quality Impacts.....	328
7.5.2	Description of Existing Water Environment.....	330
7.5.3	Water Quantity-Quality Standards .....	331
7.5.4	Impact Prediction .....	332
7.5.5	Assessment of Impacts.....	333
7.5.6	Impacts Mitigation Measures .....	333
7.6	Wastewater Management.....	334
7.6.1	Advantages of CETP.....	334
7.6.2	Liquid Effluents .....	335
7.6.3	Wastewater Collection .....	336
7.6.4	Wastewater Treatment.....	337
7.7	Common Effluent Treatment Plant – Case Study.....	338
7.7.1	The Treatment Plant.....	339
7.7.2	Cost of CETP and Subsidy.....	341

**CHAPTER 8****Impacts on Soils and Land Environment**

8.1	Soil System .....	344
8.2	Classification of Soils .....	346
8.2.1	Soils Based on Chemical Composition .....	346
8.2.2	Soils Based on Texture.....	346
8.2.3	Soils Based on Physical Properties .....	347
8.2.4	Soils Based on Climate and Geology .....	347
8.2.5	Soils Based on Land Use .....	348
8.3	Types of Soils in India .....	349
8.3.1	Alluvial Soil .....	349
8.3.2	Red Soil.....	350
8.3.3	Regur Soil.....	350
8.3.4	Laterite Soil.....	350
8.3.5	Desert Soil.....	351
8.3.6	Mountain soil .....	351
8.4	Causes of Land Degradation.....	352
8.4.1	Soil erosion.....	353
8.4.2	Desertification .....	353
8.4.3	Salinisation .....	354
8.4.4	Acidification.....	355
8.4.5	Land Filling of Waste.....	356
8.5	Environmental Soil Erosion .....	357
8.5.1	Erosion Processes .....	357
8.5.2	Erosion and Productivity .....	358
8.5.3	Erosion Effects on Crop Productivity .....	360
8.5.4	Soil Erosion Costs .....	361
8.5.5	Erosion Control Technologies .....	362
8.6	Environmental Impacts on Soils and Land.....	363
8.7	Conceptual Approach .....	365
8.7.1	Identification of Soil Quantity-Quality Impacts.....	365

---

8.7.2	Description of Existing Soil Resources.....	370
8.7.3	Soil Quality Standards.....	372
8.7.4	Predicting Soil Impacts .....	373
8.7.5	Assessment of Impact Significance.....	375
8.7.6	Identification and Incorporation of Mitigation Measures .....	377
8.8	Soil Reclamation and Remediation .....	380
8.8.1	Physical Methods .....	380
8.8.2	Chemical Methods.....	385
8.8.3	Biological Methods .....	389
8.8.4	Other Innovative Methods and Technologies .....	396

## **CHAPTER 9**

### **Impacts on the Noise Environment**

9.1	Basics of Noise Pollution.....	399
9.1.1	Noise Exposure Forecast (NEF).....	401
9.1.2	Noise Levels and Land Use.....	401
9.1.3	Noise Level Survey .....	402
9.2	Standards and Guidelines .....	403
9.2.1	Public Address System.....	404
9.2.2	Aircraft Operations.....	405
9.2.3	Construction Activities.....	405
9.2.4	Burning of Crackers .....	405
9.2.5	Traffic Noise .....	406
9.2.6	Noise Impacts on Wildlife.....	407
9.3	Conceptual Study .....	407
9.3.1	Identification of Noise Impacts .....	408
9.3.2	Description of Existing Noise-Environment Conditions.....	410
9.3.3	Procurement of Relevant Noise Standards and/or Guidelines .....	413
9.3.4	Impact Prediction .....	413
9.3.5	Assessment of Impact Significance.....	414
9.3.6	Identification and Incorporation of Mitigation Measures .....	415
9.4	Traffic Noise Model .....	419

**CHAPTER 10****Impacts on the Biological Environment**

10.1	Biological Environment .....	421
10.1.1	Ecosystem .....	422
10.1.2	Biological Diversity .....	423
10.1.3	Biogeochemical Cycles .....	426
10.1.4	Carrying Capacity .....	428
10.2	Wetland Ecosystem .....	429
10.2.1	Distribution of Wetlands in India .....	429
10.2.2	Uses of Wetlands .....	431
10.2.3	Threat to Wetlands .....	432
10.2.4	Acute Wetland Losses .....	433
10.2.5	Chronic Wetland Losses .....	434
10.3	Wetlands Inventory and Assessment .....	435
10.3.1	Classification System .....	435
10.3.2	Wetlands Database .....	436
10.3.3	Wealth of Wetlands .....	439
10.3.4	Policy and Legislative Measures .....	442
10.4	Biological Impact Assessment (BIA) System .....	443
10.4.1	Importance of B.I.A .....	444
10.5	Conceptual Study Approach .....	445
10.5.1	Identification of Biological Impacts .....	445
10.5.2	Existing Biological Environment .....	446
10.5.3	Relevant Legislation and Regulations .....	448
10.5.4	Impact Prediction .....	450
10.5.5	Assessment of Impact Significance .....	452
10.5.6	Impact Mitigation Measures .....	453
10.6	Conservation of Flora and Fauna .....	456
10.6.1	Flora of India .....	457
10.6.2	Fauna of India .....	458
10.6.3	Conservation .....	458

**CHAPTER 11****Impacts on the Socioeconomic Environment**

11.1	Valued Socioeconomic Components .....	461
11.2	Considerations of SEIA.....	463
11.2.1	Three levels of SEIA .....	464
11.2.2	The General SEIA Process .....	465
11.3	Socioeconomic Factors .....	466
11.3.1	Information Flow.....	468
11.3.2	Advantages of SEIA .....	469
11.4	Model for SEIA .....	469
11.4.1	Social Indicators.....	470
11.4.2	Synergy of Effects.....	472
11.4.3	Community Consultation .....	473
11.5	The Six Steps of SEIA .....	474
11.5.1	Identification of Socioeconomic Impacts.....	475
11.5.2	Baseline Socioeconomic Conditions .....	476
11.5.3	Prediction of Socioeconomic Impacts.....	476
11.5.4	Assessment of Socioeconomic Impacts .....	478
11.6	Traffic and Transportation Impacts.....	478
11.7	Health Impacts Assessment (HIA).....	482
11.8	Aesthetics and Livability.....	488
11.8.1	Assessment Techniques.....	489
11.8.2	Identifying Aesthetic Resources and Detractors .....	490
11.8.3	Mitigation and Problem Solving .....	497
11.8.4	Strategies for Addressing Adverse Aesthetic Impacts .....	498

**CHAPTER 12****Mitigation and Impact Management**

12.1	EIA Process and Mitigation .....	500
12.1.1	Considerations for Mitigation .....	502

---

12.2	Elements of Mitigation.....	502
12.2.1	Impact Avoidance .....	504
12.2.2	Impact Minimisation .....	504
12.2.3	Impact Compensation.....	504
12.3	Approaches to Mitigation.....	504
12.3.1	Developing Better Alternatives .....	505
12.3.2	Carrying Out Impacts Monitoring and Management .....	506
12.3.3	Compensating for Impacts .....	507
12.3.4	Mitigation Strategy.....	508
12.3.5	Specific Mitigation Measures: Pharma Plants.....	508
12.4	Typical Mitigation Measures .....	510
12.5	Environmental Management Plan (EMP) .....	514
12.5.1	Benefits of EMP .....	516
12.5.2	EMP Indicators.....	517
12.6	EMP: Case Study .....	517
12.6.1	EMP during Construction Phase .....	518
12.6.2	EMP during Operation Phase .....	519
12.6.3	Waste Minimisation .....	532
12.6.4	Greenbelt Development.....	534
12.6.5	Socio-Economic Development.....	535
12.6.6	Compliance with Corporate Responsibility .....	537
12.6.7	Environment Management System .....	539
12.6.8	Budgetary Allocation for Environment Protection .....	542

## **CHAPTER 13**

### **Technology in EIA**

13.1	Water use and Consumption .....	543
13.1.1	Consumption of Water for various Uses .....	544
13.1.2	Factors affecting Water Demand.....	546
13.1.3	Fluctuations in Rate of Demand.....	547
13.2	Wastewater Treatment Methods.....	548
13.2.1	Physical Treatment Methods.....	550
13.2.2	Biological Treatment Methods.....	551

---

13.2.3	Methods of Waste Water Treatment .....	552
13.2.4	Advanced Wastewater Treatment .....	555
13.2.5	Advantages and Disadvantages .....	558
13.2.6	Case study of Aerobic Biological Fluidized Bed Technology .....	559
13.3	Sewage Treatment Plant (STP) .....	563
13.3.1	Sulabh Effluent Treatment System .....	565
13.3.2	Zero Liquid Discharge System .....	567
13.3.3	Sewage Treatment Plant Case Study .....	577
13.3.4	Anaerobic Treatment Systems .....	583
13.3.5	Up flow-Anaerobic Sludge Blanket Reactor (UASB) .....	587
13.4	Root Zone Treatment System .....	591
13.4.1	Salient Features of RZT Systems .....	593
13.4.2	Design Criteria for RZT System .....	594
13.4.3	Application of Root Zone System .....	594
13.5	Air Pollution Control Technologies .....	595
13.6	Technology for Soil Pollution Control .....	597
13.6.1	Control of Soil Pollution .....	597
13.6.2	Solid Waste Treatment .....	598
13.7	Phytoremediation Technologies .....	599
13.7.1	Phytoextraction .....	599
13.7.2	Phytostabilization .....	599
13.7.3	Phytostimulation .....	600
13.7.4	Phytotransformation .....	601
13.7.5	Rhizofiltration .....	601
13.7.6	Constructed Wetlands .....	602
13.8	Bioremediation Technologies .....	603
13.8.1	Bioaugmentation .....	603
13.8.2	Biostimulation .....	603
13.8.3	Bioreactors .....	603
13.8.4	Land-Based Treatments .....	603
13.8.5	Fungal Remediation .....	604
13.9	Hazardous Waste Treatment (HWT) .....	604
13.9.1	HWT Technologies .....	605

13.9.2	Physical Treatment Methods .....	605
13.9.3	Chemical Treatment Methods .....	609
13.9.4	Stabilization and Fixation Systems .....	610
13.10	Methods of Noise Control .....	611
13.11	Greenbelt Development.....	612
13.11.1	Advantage of Green Belt Development .....	612
13.11.2	Design of Green Belt.....	615
13.12	Rain Water Harvesting .....	621
13.13	Remote Sensing and GIS.....	623
13.13.1	Geospatial Requirements .....	624
13.13.2	Spatial Decision Support System (SDSS).....	625
13.13.3	GIS in EIA .....	625
13.14	Mercury Emission and Control Technology .....	626
13.14.1	Mercury Balance .....	627
13.14.2	Control Technology for Mercury Emissions.....	627
13.14.3	Coal (Beneficiation).....	628
13.14.4	Fuel Switching .....	629
13.14.5	Non-Conventional Methods of Hg Removal .....	629

## CHAPTER 14

### EIA Practice in India

14.1	Intensity of Impact .....	631
14.2	Dimensions of Environment.....	632
14.3	Categorization of Projects .....	633
14.4	Constitution of Committees .....	634
14.4.1	EAC and SEAC .....	644
14.4.2	SEIAA .....	645
14.5	Requirements of Prior EC .....	646
14.6	Application for Prior EC .....	646
14.7	Project Cycle and Management.....	661
14.7.1	Project Concept/Identification .....	662
14.7.2	Pre-Feasibility Stage .....	663

14.7.3	Feasibility Stage .....	670
14.7.4	Project Appraisal and Decision .....	671
14.7.5	Project Implementation .....	672
14.7.6	Management of EIA Study.....	673
14.8	Prior Environmental Clearance (EC) Process .....	673
14.8.1	Screening .....	676
14.8.2	Scoping.....	676
14.8.3	Public Consultation .....	678
14.8.4	Appraisal .....	679
14.8.5	Grant or Rejection of Prior EC.....	680
14.8.6	Validity of Environmental Clearance.....	681
14.8.7	Post Environmental Clearance and Monitoring .....	681
14.8.8	Transferability of Environmental Clearance .....	682
14.8.9	General Condition (GC).....	682
14.8.10	Specific Condition (SC).....	682
14.9	Project Screening Process .....	683
14.9.1	Screening Criteria.....	688
14.9.2	Siting Guidelines.....	690
14.10	Project Scoping Process .....	691
14.10.1	Making a plan for Public Involvement.....	693
14.10.2	Assembling Existing Information .....	694
14.10.3	Distribution of Information .....	695
14.10.4	Identifying Major Issues .....	695
14.10.5	Evaluating the Significance of Issues .....	695
