Dear Readers and Subscribers:  
Greetings! As Editor-in-Chief of the International Journal of Pharmaceutical Sciences and Nanotechnology (IJPSN), I am excited about this opportunity to ask you to read research articles published in the IJPSN. We invite authors to submit exciting research for possible publication in the IJPSN.

Publication in IJPSN is FREE. There is no page charge or any other charge to authors. All correspondence should be directed to the Editor-in-Chief.

With the greatest support and appreciation from the research around the world, the journal reputation has grown tremendously during the past two years.

The Journal's editorial team is committed to publishing the best research in Pharmaceutical Sciences and Nanotechnology. The Journal encompasses a wide range of research areas related to pharmaceutical sciences, including drug delivery, nanotechnology, biopharmaceutics, industrial pharmacy, clinical pharmacy, pharmacology, and toxicology.

The editors welcome high-quality original research manuscripts, reviews, and perspectives. All manuscripts are rigorously peer-reviewed by leading experts in the field.

As the Editor-in-Chief, my goal is to continue to improve the publication of high-standard papers and the implementation of internationally recognized peer-review system for evaluating papers. The ultimate goal is to attain a high impact factor for IJPSN, which will elevate the journal's prestige and influence.

Thank you in for reading and promoting the Journal.
Dear Readers and Subscribers:

Greetings! As Editor-in-Chief of the International Journal of Pharmaceutical Sciences and Nanotechnology, I am pleased to bring this opportunity to ask you to read research articles published in the IJPSN. We invite authors to submit their exciting research work for potential publication in the IJPSN.

Publication in IJPSN is FREE. There is no page charge or any other charge to authors for publishing in the Journal.

With the greatest support and appreciation from the research around the world, the journal has grown tremendously during the past two years. The Journal’s editorial team is committed to publishing the best research in Pharmaceutical Sciences and Nanotechnology. We are pleased to showcase the latest advancements in all aspects of pharmaceutical sciences, furthering research into the nanotechnology-based drug delivery systems. In addition, major areas of emphasis include innovative strategies in bioinformatics, industrial pharmacy, clinical pharmacy, pharmacology, and therapeutics, toxicology, medicinal chemistry, pharmacy practice, and pharmaceutical technology including analytical chemistry, pharmacy administration, regulatory affairs, GMP related industry guidelines, pharmacoeconomics, pharmacy biotechnology, recombinant drugs, and all aspects of nanotechnology-based drug delivery systems are considered for publication in the Journal.

Each issue of the Journal consists of two sections devoted to publish significant papers. Review Articles section typically publishes three to five major review articles in the field. Research Papers section is the major forum for publishing original research articles. The editors will not publish an article that has appeared elsewhere. The editors aim to publish original research conducted by the authors and ensure balanced representation in every issue. My goal is to improve the publication of high standard papers and the implementation of internationally recognized peer-review system for evaluating published papers. The ultimate goal is to retain a high impact-factor for the Journal. Along with mushrooming journal and business with private pharmacy education, the standards of scientific publications in the field of pharmaceutical sciences should be strictly adhered to and improved progressively in line with the recent advances in the field. IJPSN is interested in publishing the best research papers in the field of pharmaceutical sciences.

The editors welcome to publish papers from pharma researchers who are working in various areas of pharmaceutical sciences. We aim to publish high-quality, original research papers in the fields of conventional and novel dosage forms and drug products, including pharmaceutical and nanotechnological investigations.

Sincerely,
Dr. Samba Reddy
Editor-in-Chief

International Journal of Pharmaceutical Sciences and Nanotechnology (IJPSN)

Editorial Scope

International Journal of Pharmaceutical Sciences and Nanotechnology (IJPSN) is an open access, internationally-circulated Research Journal of drug design and discovery. IJPSN is published under the editorial superintendence of the chief editor, Dr. Prof. Samba Reddy. IJPSN is a peer-reviewed scientific journal and "Jewel of Pharmaceutical Profession". He is a Professor at a top Medical College (Texas A&M University) in the United States. Recently, Dr. Reddy received the prestigious "Hind Rattan Award" for his lifetime achievements in pharmaceutical and medical research.

In addition, major areas of emphasis include innovative strategies in bioinformatics, industrial pharmacy, clinical pharmacy, pharmacology and therapeutics, toxicology, medicinal chemistry, pharmacy practice, and pharmaceutical technology including analytical chemistry, pharmacy administration, regulatory affairs, GMP related industry guidelines, pharmacoeconomics, pharmacy biotechnology, recombinant drugs, and all aspects of nanotechnology-based drug delivery systems. The Journal considers original Research papers and Review Articles in the areas of research.

The editors wish to attract papers from pharma researchers who are working in various areas of pharmaceutical sciences. We aim to publish high-quality, original research papers in the fields of conventional and novel dosage forms and drug products, including pharmaceutical and nanotechnological investigations.

Article Types

Research Articles, Perspectives (Updates), Review Papers, Editorial Focus, Letters to the Editor, Book Reviews, & Correspondence

Impact Factor: TBA, Cited half-life: Growing rapidly (2008), Acceptance rate: 75%. Average time to first decision: 30 days. Average time from acceptance to online publication since 2006, ISSN: 0974-1278

Advantages to Authors

Free publication, No editorial charges or other expenses to the authors.
Fair evaluation, Rapid and prompt processing of manuscripts. Fair research in the Pharma field.
