<i>Preface</i>	(v)
<i>Acknowledgment</i>	(vii)
<i>Abbreviations</i>	(xvii)

Chapter 1

EVOLUTION OF CLOUD COMPUTING

1.1 Chapter Overview.....	1
1.2 Distributed System	1
1.2.1 Examples of Distributed Systems	2
1.3 Distributed Computing	2
1.3.1 The Strengths and Weaknesses of Distributed Computing.....	3
1.4 Parallel Computing Architectures	4
1.4.1 Vector Processing	5
1.4.2 Symmetric Multiprocessing Systems.....	6
1.4.3 Massively Parallel Processing Systems	7
1.5 Cluster Computing	9
1.5.1 Advantages of Cluster Computing.....	11
1.5.2 Different kinds of Clusters.....	12
1.6 Grid Computing.....	12
1.7 Virtualization.....	14
1.7.1 Key Benefits of Virtualization	14
Bit Questions	15
Exercises	16

Chapter 2

INTRODUCTION TO CLOUD COMPUTING

2.1 Chapter Overview.....	17
2.2 Cloud Computing: What it is – and What it isn't.....	17
2.3 From Collaboration to the Cloud: A Short History of Cloud Computing	19
2.4 Cloud Application Architectures.....	25

2.5 The Value of Cloud Computing	28
2.6 Cloud Infrastructure Models.....	34
2.7 Scaling a Cloud Infrastructure.....	36
2.8 Capacity Planning.....	36
2.9 Cloud Scale.....	43
Bit Questions.....	50
Exercises.....	52

Chapter 3

SERVICES DELIVERED FROM THE CLOUD

3.1 Chapter Overview.....	53
3.2 Communication-as-a-Service (CaaS)	53
3.2.1 Advantages of CaaS	54
3.2.2 Fully Integrated, Enterprise-Class Unified Communications	55
3.3 Infrastructure-as-a-Service (IaaS)	57
3.3.1 Modern On-Demand Computing	58
3.3.2 Amazon's Elastic Cloud.....	59
3.3.3 Amazon EC2 Service Characteristics	60
3.3.4 Mosso (Rackspace)	65
3.4 Monitoring-as-a-Service (MaaS).....	66
3.4.1 Protection Against Internal and External Threats	67
3.4.2 Delivering Business Value.....	69
3.4.3 Real-Time Log Monitoring Enables Compliance	70
3.5 Platform-as-a-Service (PaaS)	70
3.5.1 The Traditional On-Premises Model.....	70
3.5.2 The New Cloud Model.....	71
3.5.3 Key Characteristics of PaaS.....	71
3.6 Software-as-a-Service (SaaS).....	72
3.6.1 SaaS Implementation Issues.....	73
3.6.2 Key Characteristics of SaaS.....	74
3.6.3 Benefits of the SaaS Model.....	74
Bit Questions.....	75
Exercises.....	76

Chapter 4

BUILDING CLOUD NETWORKS

4.1 Chapter Overview.....	77
4.2 The Evolution from the MSP (managed service providers) Model to Cloud Computing and Software-as-a-Service.....	77
4.2.1 From Single-Purpose Architectures to Multipurpose Architectures.....	78
4.2.2 Data Center Virtualization	79
4.3 SOA as a Step Toward Cloud Computing.....	79
4.3.1 Difference between SOA and Cloud Computing.....	80
4.4 Basic Approach to a Data Center-Based SOA	81
4.4.1 Planning for Capacity	81
4.4.2 Planning for Availability.....	81
4.4.3 Planning for SOA Security	82
Bit Questions.....	83
Exercises.....	84

Chapter 5

VIRTUALIZATION IN CLOUD

5.1 Introduction	85
5.1.1 Brief History of Virtualization.....	85
5.1.2 Virtual Machines and Virtualization Middleware.....	86
5.2 Reasons to Use Virtualization	88
5.3 Different Types of Virtualization	90
5.4 Virtualization Vendors	97
5.5 Downloading Sun xVM Virtual Box.....	97
5.6 Installing Sun xVM Virtual Box	100
5.7 Adding a Guest Operating System to Virtual Box	106
5.8 Downloading FreeDOS as a Guest OS.....	107
5.9 Downloading the 7-Zip Archive Tool	108
5.10 Adding a Guest OS to Sun xVM Virtual Box	108
Bit Questions	122
Exercises	123

Chapter 6

SECURITY IN CLOUD

6.1 Chapter Overview.....	124
6.2 Introduction	124
6.3 Cloud Security Challenges	125
6.4 Software-as-a-Service Security	126
6.4.1 Security Management (People).....	127
6.4.2 Security Governance	127
6.4.3 Risk Management	128
6.4.4 Risk Assessment	128
6.4.5 Security Portfolio Management	128
6.4.6 Security Awareness.....	128
6.4.7 Education and Training.....	129
6.4.8 Policies, Standards, and Guidelines	129
6.4.9 Secure Software Development Life Cycle (SecSDLC).....	129
6.4.10 Security Monitoring and Incident Response	130
6.4.11 Third-Party Risk Management.....	130
6.4.12 Requests for Information and Sales Support.....	130
6.4.13 Business Continuity Plan	130
6.4.14 Forensics	131
6.4.15 Security Architecture Design	131
6.4.16 Vulnerability Assessment	132
6.4.17 Password Assurance Testing.....	132
6.4.18 Logging for Compliance and Security Investigations.....	132
6.4.19 Security Images.....	132
6.4.20 Data Privacy	132
6.4.21 Data Governance.....	133
6.4.22 Data Security	134
6.4.23 Application Security	134
6.4.24 Virtual Machine Security.....	134
6.4.25 Identity Access Management (IAM).....	134

6.4.26 Change Management	134
6.4.27 Physical Security.....	134
6.4.28 Business Continuity and Disaster Recovery	135
6.4.29 The Business Continuity Plan	135
6.5 Is Security-as-a-Service the New MSSP?	136
Bit Questions.....	137
Exercises.....	137

Chapter 7

COMMON STANDARDS IN CLOUD COMPUTING

7.1 Chapter Overview.....	138
7.2 The Open Cloud Consortium.....	138
7.3 The Distributed Management Task Force	139
7.3.1 Open Virtualization Format	140
7.4 Standards for Application Developers.....	140
7.4.1 Browsers (Ajax)	140
7.4.2 Data (XML, JSON).....	141
7.4.3 Solution Stacks (LAMP and LAPP)	141
7.5 Standards for Messaging	142
7.5.1 Simple Message Transfer Protocol (SMTP)	143
7.5.2 Post Office Protocol (POP).....	143
7.5.3 Internet Messaging Access Protocol (IMAP)	143
7.5.4 Syndication (Atom, Atom Publishing Protocol, and RSS)	144
7.5.5 Communications (HTTP, SIMPLE, and XMPP).....	150
7.6 Standards for Security	153
7.6.1 Security (SAML OAuth, OpenID, SSL/TLS).....	153
Bit Questions.....	160
Exercises.....	161

Chapter 8

END USER ACCESS TO CLOUD COMPUTING

8.1 Introduction	162
8.2 YouTube.....	162

8.3	YouTube: API Overview.....	163
8.3.1	Widgets	163
8.3.2	YouTube: Player API.....	163
8.3.3	YouTube: Data API	164
8.4	Zimbra	164
8.5	Facebook	167
8.5.1	Facebook Development.....	172
8.6	Zoho	172
8.6.1	Zoho CloudSQL.....	173
8.6.2	DimDim Collaboration	173
	Bit Questions.....	174
	Exercises.....	175

CHAPTER 9

CLOUD ARCHITECTURE DEFINING THE CLOUDS FOR THE ENTERPRISE

9.1	Cloud Computing Components	176
9.1.1	Storage-as-a-Service	177
9.1.2	Database-as-a-Service.....	179
9.1.3	Information-as-a-Service	181
9.1.4	Process-as-a-Service	184
9.1.5	Application-as-a-Service.....	186
9.1.6	Platform-as-a-Service	187
9.1.7	Integration-as-a-Service	188
9.1.8	Security-as-a-Service	189
9.1.9	Management/Governance-as-a-Service	190
9.1.10	Testing-as-a-Service	190
9.1.11	Infrastructure-as-a-Service.....	190
	Bit Questions	191
	Exercises	193

Chapter 10

DISASTER RECOVERY AND SECURITY

10.1	Disaster Recovery.....	194
------	------------------------	-----

10.2 Disaster Recovery Planning	195
10.3 Disaster Management	197
10.4 Web Application Design	200
10.5 Machine Image Design.....	208
10.6 Privacy Design	213
10.7 Database Management	219
10.8 Data Security	228
10.9 Network Security.....	234
10.10 Host Security	241
10.11 Compromise Response	245
Bit Questions	246
Exercises	249
Answers	251
Index.....	255
