Advances in Drug Delivery

Y. Madhusudan Rao and A V Jithan

Advances in drug delivery is a very specialized area of pharmaceutics where in the principles and technologies applied in the formulation and development, are emerging and progressing. Advances in Drug Delivery incorporates latest information regarding various subjects of drug delivery. Drug delivery is a broad term encompassing various means of achieving optimum drug reach to the target tissue, cell or the receptor. Several preformulation, formulation, biopharmaceutical, targeting and pharmacokinetic principles are applied in drug delivery. Research and development in drug delivery is increasing at a rapid pace throughout the world. The need for increased efficiency of new therapies and reduction in future public health expenses will definitely bolster this area of research and development. In order to meet this demand, many well known and efficiently applied drugs will be reformulated in new drug delivery systems that can be value-added for optimized therapeutic activity. Further, several new molecules are being generated by medicinal chemists and their formulation is not any more empirical but it is now very systematic. The aim of book is to enlighten pharmaceutical scientists all around the world with latest information on the topics which are involved in cutting edge growth of pharma research and industry.

Contents:

2014 535 pp 978-81-7800-335-1 HB Rs. 1795.00

2012 527 pp 978-93-81075-68-3 HB Rs. 1795.00

2010 548 pp 978-81-7800-254-5 HB Rs. 1795.00

Cosmeceuticals

Y. Madhusudan Rao and Shayedha

In cosmetic industries most of the details are kept as secrets and are not fully disclosed. Herbal and Natural Cosmetics and Cosmeceuticals are not discussed properly and very few literatures are available. The evaluation part of the products are mostly not disclosed. This book covers regulatory aspects of Cosmeceuticals in various countries including India. Regulatory aspects also differ in various countries as far as Cosmeceuticals is interpreted differently. In some countries they are equated as Cosmetics, in others they are considered as OTC drugs/drugs. The author has been associated with teaching and research field of cosmetics for more than 30 years. He acts as consultant to many industries producing cosmetics and few of the products developed are commercialized and launched. A few more cosmetic products are to be launched this year. Apart from his interest in cosmetics, he has considerable experience and publications in Novel drug delivery systems, Biopharmaceutics and Pharmacokinetics. He received research projects from various funding agencies.

Oral Drug Delivery Technology, 2nd Ed.
Aukunuru Jithan

- The structure of the book is revamped to give a more elegant look and comprehensive overview. Several chapters have been revised and expanded to provide greater insight.
- The entire chapter on oral formulations has been given a totally new look. Description of all types of oral formulations has been included in this one chapter.
- A chapter on process validation has been added.
- Chapters on safety and toxicity of new drug substances and Pharmaceutical statistics have been deleted to bring more attention to pharmacies and industrial pharmacy.
- The book can be used as a textbook as well as reference book for B.Pharm, M. Pharm and Ph.D. students and can be used as a quick reference by the industrial scientists.

Pharmacokinetic Analysis: A Practical Approach
Peter I-D Lee

Contents: Section I. Basics and Methods
1. Introduction
2. Constant Approach
3. Evaluation of Time Constants by Visual Inspection of Concentration-Time Profiles
4. Scaling of Time Constants among Different Animal Species
5. Influence of Administration Route on Pharmacokinetics - Bioavailability
6. Influence of Formulation on Pharmacokinetics - Bioequivalence
7. Influence of Dosage on Pharmacokinetics - Dose Proportionality
8. Pharmacokinetics of Sustained Release and Immediate Release Formulations
9. Absorption of Drugs in the Gastrointestinal Tract
10. Drug distribution into Tissue-Tissue Penetration
11. Pharmacokinetics of Metabolites
12. Relationship between Pharmacokinetics and Pharmacodynamics

Section II. Interactions
13. Influence of Food on Pharmacokinetics
14. Effects of Drug Interactions on Pharmacokinetics

Section III. Special Populations
15. Influence of Age on Pharmacokinetics
16. Influence of Gender on Pharmacokinetics
17. Special Pharmacokinetic Considerations in Renal Impairment
18. Special Pharmacokinetic Considerations in Hepatic Impairment
19. Special Pharmacokinetic Considerations in Other Diseases
20. Absorption of Drugs in the Gastrointestinal Tract
