CHAPTER 1

Origin of Developments Relating to and/or in Agricultural Meteorology

| | | |
|-------|---|----|
| 1.1 | Pioneering Work | 2 |
| 1.1.1 | Degree-days | 2 |
| 1.1.2 | Photoperiodism | 2 |
| 1.1.3 | Pests and Diseases..... | 3 |
| 1.1.4 | Others..... | 3 |
| 1.2 | Recognition..... | 4 |
| 1.3 | Developments | 5 |
| 1.3.1 | 1930s | 5 |
| 1.3.2 | 1940s | 5 |
| 1.3.3 | 1950s | 6 |
| 1.3.4 | 1960s..... | 7 |
| 1.3.5 | 1970s..... | 9 |
| 1.3.6 | 1980s..... | 11 |
| 1.3.7 | 1990s..... | 12 |
| 1.3.8 | First Decade of the Current Century | 12 |
| | References | 13 |

CHAPTER 2

Eco-Physical Aspects and Eco-Physiological Basis of Agricultural Meteorology

| | | |
|-------|---|----|
| 2.1 | Micro-Climates..... | 20 |
| 2.1.1 | Dependent and Topo Micro-Climates | 20 |
| 2.1.2 | Micro-Climates of Natural Vegetation..... | 20 |
| 2.1.3 | Crop Micro-Climates | 21 |

| | | |
|-------|--|----|
| 2.2 | Influences of Crop Morphology | 21 |
| 2.2.1 | Drymatter Production..... | 21 |
| 2.2.2 | Crop Water Relations..... | 21 |
| 2.2.3 | Atmospheric Methane | 21 |
| 2.3 | Influences of Crop Growth Stages..... | 22 |
| 2.3.1 | Susceptibility to Abiotic Stresses..... | 22 |
| 2.3.2 | Susceptibility to Biotic Stresses | 22 |
| 2.3.3 | Reception of Stimuli..... | 23 |
| 2.4 | Influences of Crop Physiology | 23 |
| 2.4.1 | Germination | 23 |
| 2.4.2 | Phasic Development | 24 |
| 2.4.3 | Crop Yield | 26 |
| 2.5 | Agricultural Applications..... | 29 |
| 2.5.1 | Rice | 29 |
| 2.5.2 | Groundnut..... | 29 |
| 2.5.3 | Sugar Crops..... | 29 |
| 2.5.4 | Grapes | 30 |
| 2.5.5 | Soybean..... | 30 |
| 2.5.6 | Potato | 30 |
| 2.5.7 | Jute..... | 30 |
| 2.5.8 | Light Utilisation..... | 30 |
| 2.6 | Applied Agro-Eco Physiology | 31 |
| 2.6.1 | Crop-Climate Classification..... | 31 |
| 2.6.2 | Impact Assessment of Climate Change..... | 31 |
| 2.6.3 | Avoidance of Climatic and Biotic Stresses..... | 31 |
| 2.6.4 | Assessment of Crop Drought | 32 |
| 2.6.5 | Provision of Agromet Advisories | 32 |
| 2.6.6 | Irrigation..... | 32 |
| 2.7 | Need for Phytotronic Studies..... | 32 |
| | <i>References</i> | 32 |

CHAPTER 3**Crop-Climate: Analogues and Zones**

| | | |
|-------|--|----|
| 3.1 | Assessment of Crop-Weather Requirements | 36 |
| 3.1.1 | Conventional Studies..... | 37 |
| 3.1.2 | Global Agroclimatic Analogues | 37 |
| 3.1.3 | The Dynamic Approach | 38 |
| 3.2 | Climatic Fertility | 42 |
| 3.3 | Climatic Zonation of Irrigated Crops..... | 43 |
| 3.3.1 | Influence of Varieties on Crop-Climate Zonations..... | 44 |
| 3.3.2 | Advantages of Crop-Climate Zonations | 45 |
| | References | 45 |

CHAPTER 4**The Concept and Relevance of Radiation
Balance in Crop Culture**

| | | |
|-------|--|----|
| 4.1 | Extraterrestrial Radiation | 49 |
| 4.2 | Atmospheric Modification of Solar Radiation..... | 50 |
| 4.3 | Relative Solar Radiation..... | 59 |
| 4.4 | Back Radiation | 59 |
| 4.4.1 | Reflection..... | 59 |
| 4.4.2 | Surface Heating | 60 |
| 4.5 | Long Wave Radiation..... | 61 |
| 4.6 | Net Radiation | 61 |
| 4.7 | Measurement of Components of Net Radiation..... | 62 |
| 4.7.1 | Solar Radiation | 62 |
| 4.7.2 | Photosynthetically Active Radiation | 63 |
| 4.7.3 | Diffuse Short Wave Radiation..... | 63 |
| 4.7.4 | Reflected Solar Radiation | 63 |
| 4.7.5 | Soil Heat Flux..... | 63 |
| 4.7.6 | Atmospheric Long Wave Radiation | 64 |

| | | |
|-------|--|----|
| 4.7.7 | Net All Wave Radiation | 64 |
| 4.7.8 | Thermal Back Radiation | 64 |
| 4.8 | Estimation of Net Radiation and Its Components | 65 |
| 4.8.1 | Global Solar Radiation..... | 65 |
| 4.8.2 | Long Wave Radiation from the Atmosphere $R_{lw} \downarrow$ | 66 |
| 4.8.3 | Reflected Short Wave Radiation $RS\uparrow$ and Long wave Radiation $RLW\uparrow$ | 67 |
| 4.8.4 | Photosynthetically Active Radiation (PAR) | 68 |
| 4.9. | Agricultural Implications of net Radiation and/or its Components | 68 |
| 4.9.1 | Net Radiation and Water Requirements of Crops..... | 68 |
| 4.9.2 | Crop and Radiation-based Relationships in Photosynthesis..... | 68 |
| 4.10 | Solar Radiation and Crop Yields | 69 |
| 4.11 | Coping with Climate Change..... | 71 |
| | <i>References</i> | 73 |

CHAPTER 5

Agrometeorology of Crop Water Usage

| | | |
|-------|---|----|
| 5.1 | Need for Optimal and Conjunctive use of Water Resources..... | 89 |
| 5.1.1 | Role of Agroclimatology | 91 |
| 5.2 | Evapotranspiration..... | 91 |
| 5.2.1 | Estimation..... | 91 |
| 5.3 | Field Measurements of Water Requirements of Crops | 95 |
| 5.3.1 | Irrigation Trials..... | 95 |
| 5.3.2 | Soil Moisture Profiling..... | 96 |
| 5.4 | Lysimetry | 97 |
| 5.5 | Factors in Analyses of Evapotranspiration Data | 98 |
| 5.5.1 | Evaporative Losses..... | 98 |

| | | |
|-------|---|-----|
| 5.5.2 | Transpiration..... | 99 |
| 5.5.3 | Potential Evapotranspiration..... | 99 |
| 5.5.4 | Reference Evapotranspiration | 100 |
| 5.5.5 | Pan Evaporation | 100 |
| 5.5.6 | Relative Evapotranspiration | 101 |
| 5.6 | Agroclimatic Planning of Irrigation | |
| | Scheduling of Clear Season Crops..... | 102 |
| 5.6.1 | Evaporimetric Irrigation Scheduling..... | 103 |
| 5.6.2 | Irrigation Interval | 104 |
| 5.6.3 | Assessment of Supplementary Irrigation Needs..... | 105 |
| 5.7 | Water Use-Efficiency | 109 |
| 5.7.1 | Net Income per Irrigated Hectare per Unit Quantum of Water used..... | 109 |
| 5.8 | Savings in Irrigation Water: Agronomic Measures..... | 110 |
| 5.8.1 | Systematic Rice Intensification..... | 110 |
| 5.8.2 | Irrigated Aerobic Rice..... | 111 |
| 5.8.3 | Sugarcane and Summer Cotton..... | 111 |
| 5.8.4 | Micro-Irrigation | 112 |
| 5.8.5 | Sprinkler Irrigation | 113 |
| 5.9 | Groundwater | 113 |
| | References | 114 |
| | Appendix I..... | 119 |
| | References | 121 |

CHAPTER 6

Dry Farming Agrometeorology

| | | |
|-----|--|-----|
| 6.1 | Dryland Cropping Period (DCP)..... | 122 |
| 6.2 | Rainfall Probabilities | 123 |
| 6.3 | Review of Methodology..... | 123 |
| 6.4 | Criteria for Delineation of DCP | 125 |
| 6.5 | Delineation and Utility of Rainfall Zonation | 125 |

| | | |
|-------|--|-----|
| 6.6 | Rainfall Harvesting and Re-use | 126 |
| 6.7 | Rainfed Rice..... | 127 |
| 6.7.1 | Rainfed Lowland Rice..... | 127 |
| 6.7.2 | Rainfall Budgeting for Design of OFRs for Lowland Rice..... | 128 |
| 6.7.3 | Rice cum Fish Culture..... | 129 |
| 6.8 | Crop Drought Climatology | 130 |
| 6.8.1 | Review of Methodology | 131 |
| 6.8.2 | Basic Data Needs | 134 |
| 6.8.3 | Formats, Legends, Procedures and Sample Computations | 134 |
| 6.8.4 | Description of Crop Drought..... | 139 |
| 6.9 | Crop Drought Maps | 139 |
| | References | 142 |

CHAPTER 7

Avoidance, Anticipation and Control of Pests and Diseases

| | | |
|-------|---|-----|
| 7.1 | Dangers of Over Protection..... | 147 |
| 7.2 | Pre-Disposing Conditions for Affliction..... | 148 |
| 7.2.1 | Host Resistance..... | 148 |
| 7.2.2 | Food Supply | 150 |
| 7.2.3 | Polyphagy | 150 |
| 7.2.4 | Alternate Hosts..... | 151 |
| 7.2.5 | Carriers | 151 |
| 7.2.6 | Natural Enemies | 152 |
| 7.2.7 | Survival..... | 153 |
| 7.2.8 | Exotic Origin | 153 |
| 7.2.9 | Susceptibility..... | 154 |
| 7.3 | Avoidance of Pests and Diseases..... | 156 |
| 7.3.1 | Identification of Endemic Areas and/or Periods | 156 |

Contents (xxi)

| | | |
|-------|---|-----|
| 7.3.2 | Sowing Dates | 157 |
| 7.3.3 | Mixed Crop Stands..... | 157 |
| 7.3.4 | Upwind Sowing..... | 158 |
| 7.4 | Anticipation of Outbreaks of Pests and Diseases..... | 158 |
| 7.4.1 | Approaches | 158 |
| 7.5 | Laboratory Studies - Usefulness and Limitations | 159 |
| 7.5.1 | Biographs..... | 159 |
| 7.5.2 | Accumulated Degree-Days (ADDs) | 160 |
| 7.6 | Field Studies | 161 |
| 7.6.1 | Limitations in Availability and use of Data..... | 162 |
| 7.6.2 | Insect and Spore Trap Catches | 163 |
| 7.7 | Forewarning of Pests and Diseases | 164 |
| 7.7.1 | Pest/Disease Weather Diagrams | 164 |
| 7.7.2 | Local Studies | 165 |
| 7.7.3 | Thumb Rules..... | 166 |
| 7.7.4 | Multiple Regression Approach | 167 |
| 7.7.5 | Regressions with Lead Time..... | 168 |
| 7.7.6 | Dynamic Cumulative Weather Based Index (DCWBI)..... | 168 |
| 7.7.7 | Inclusion of Crop Parameters | 169 |
| 7.7.8 | Aptness of One Week Lead Times | 170 |
| 7.7.9 | ANN Techniques..... | 170 |
| 7.8 | Forewarning of Pests..... | 171 |
| 7.8.1 | The Accumulated Degree Days (ADDs) Approach | 171 |
| 7.9 | Forewarning of Crop Diseases..... | 174 |
| 7.9.1 | Critical Disease Level (CDL)..... | 174 |
| 7.9.2 | Use of Routine Temperature Data for Disease-Forewarning..... | 175 |
| 7.10 | Mid Seasonal Advisories | 179 |
| 7.11 | Effectiveness of Forewarnings | 180 |
| 7.12 | Weather and Chemo-Control..... | 181 |

| | | |
|------|---|-----|
| 7.13 | Weather in Biological Control..... | 182 |
| 7.14 | Real-Time Forewarning of Pests and Diseases | 182 |
| | <i>References</i> | 183 |

CHAPTER 8

Erosion of Top Soil by Rain and Wind

| | | |
|-------|---|-----|
| 8.1 | Physical Explanation of Soil Erosion by Rainfall | 199 |
| 8.1.1 | Splash Erosion | 199 |
| 8.1.2 | Rainfall Intensity | 200 |
| 8.1.3 | Run-Off | 201 |
| 8.1.4 | Scouring..... | 201 |
| 8.2 | Soil Erosion Models..... | 202 |
| 8.2.1 | Prediction of Soil Loss | 202 |
| 8.3 | Rainfall Erosive Capacity..... | 203 |
| 8.3.1 | Computation of Rainfall Energy | 203 |
| 8.3.2 | Method of Computation of Rainfall Energy, R..... | 203 |
| 8.3.3 | Need for basic Determination of Rainfall Energy | 204 |
| 8.4 | Erosion of Soil by Wind | 205 |
| 8.4.1 | Erodibility of Soils by Wind..... | 206 |
| 8.4.2 | Forms of Soil Erosion..... | 206 |
| 8.4.3 | Types of Wind Erosion | 207 |
| 8.4.4 | Influence of Non-Weather Factors | 208 |
| 8.4.5 | Deposition of Soil Particles | 210 |
| 8.4.6 | Estimation of Risk and Amount of Soil Loss by Wind Erosion | 211 |
| 8.4.7 | Wind Erosion Equation | 212 |
| 8.4.8 | Wind Erosion Measures | 213 |
| 8.4.9 | Predominant Wind Erosion Direction..... | 214 |
| | <i>References</i> | 215 |

CHAPTER 9**Climate Change**

| | | |
|-------|---|-----|
| 9.1 | IPCC..... | 219 |
| 9.2 | The Greenhouse Effect | 219 |
| 9.3 | Influences of Climate Change..... | 219 |
| 9.3.1 | Rainfall..... | 219 |
| 9.3.2 | Carbon Dioxide..... | 223 |
| 9.3.3 | Methane | 224 |
| 9.3.4 | Nitrous Oxide | 225 |
| 9.3.5 | Cloudiness..... | 225 |
| 9.3.6 | Solar Radiation | 226 |
| 9.3.7 | Temperature..... | 226 |
| 9.3.8 | Evaporative Power of Air..... | 228 |
| 9.4 | Aerosols..... | 229 |
| 9.5 | Climate Change Controversies | 231 |
| 9.6 | Effects of Climate Change on Crops | 234 |
| 9.6.1 | Elevated Carbon Dioxide | 234 |
| 9.6.2 | Higher Temperatures..... | 236 |
| 9.6.3 | Reduced Solar Radiation and Increased Cloudiness | 240 |
| 9.6.4 | Lower Evaporative Power of Air | 240 |
| 9.7 | Assessment of Crop Prospects in Future Climate | 241 |
| 9.7.1 | Climatic Scenario..... | 241 |
| 9.7.2 | Influence of Crops and Seasons | 241 |
| 9.7.3 | Holistic Approach | 241 |
| 9.7.4 | Role of Dynamic Crop-Weather Simulation Models | 242 |
| 9.7.5 | Potential and Relative Yields..... | 242 |
| 9.8 | Need for and Role of Controlled Environmental Facilities | 244 |
| 9.8.1 | Influence of Solar Radiation..... | 244 |
| 9.8.2 | Influence of Elevated CO ₂ | 245 |

| | | |
|--------|--|-----|
| 9.9 | Mitigation of Agricultural Effects on Climate Change..... | 246 |
| 9.9.1 | Reducing Methane and Nitrous Oxide Emissions from Rice Culture | 246 |
| 9.9.2 | Mitigation of Nitrous Oxide Emissions from Agricultural Fields | 251 |
| 9.10 | Increasing the Sink Capacity for Carbon Dioxide..... | 252 |
| 9.10.1 | Crop Breeding..... | 252 |
| 9.10.2 | Optimal use of Surface Irrigation..... | 253 |
| 9.10.3 | Social Forestry..... | 255 |
| 9.10.4 | Agro-Forestry..... | 256 |
| 9.11 | Carbon Sequestration..... | 257 |
| | <i>References</i> | 258 |

CHAPTER 10

Agrometeorological Advisory Services

| | | |
|--------|--|-----|
| 10.1 | Need for Agrometeorological Advisory Services (AAS)..... | 277 |
| 10.2 | Requirements of Providers of AAS | 277 |
| 10.2.1 | Crop-Weather Ground Truth | 277 |
| 10.2.2 | Processing of Crop Information and Weather Forecasts | 278 |
| 10.2.3 | Weather Forecasts | 279 |
| 10.3 | Requirements of User-Interests of AAS..... | 281 |
| 10.3.1 | Agricultural Weather Forecasts..... | 281 |
| 10.3.2 | Crop-Weather Calendars..... | 281 |
| 10.3.3 | Lab to Land Transfer of Technology | 282 |
| 10.4 | Communications Infrastructure | 282 |
| 10.5 | Limitations, Usefulness and Effectiveness of Agromet Advisories..... | 284 |

| | | |
|---------|---|-----|
| 10.6 | Agrometeorological Forecasting of Crop Yields (AFCY)..... | 285 |
| 10.6.1 | Descriptive Methods..... | 286 |
| 10.6.2 | Regression Techniques | 286 |
| 10.6.3 | Crop-Weather Simulation | 287 |
| 10.7 | Mechanics of Issue of Crop Yield Forecasts..... | 287 |
| 10.7.1 | Date of Forecast | 287 |
| 10.7.2 | Generation of Future Meteorological Data | 287 |
| 10.7.3 | Pests and Diseases..... | 288 |
| 10.7.4 | Potential and Relative Yields..... | 289 |
| 10.8 | Point, Regional and Gross Yields | 289 |
| 10.9 | Satellite Agrometeorology..... | 289 |
| 10.9.1 | Sown Acreage of Crops | 290 |
| 10.9.2 | Crop Yield | 290 |
| 10.9.3 | Gridding | 291 |
| 10.10 | Combining Ground and Satellite Agromet Data | 291 |
| 10.10.1 | Dates of Sowing..... | 292 |
| 10.10.2 | Rainfed Crops | 292 |
| 10.11 | FASAL | 293 |
| 10.12 | Weather-based Crop Insurance | 294 |
| 10.12.1 | Coverage..... | 295 |
| 10.12.2 | Fixation of Premia | 296 |
| 10.13 | Factual Assessment of Crop Losses | 297 |
| 10.13.1 | Dryland Crops | 297 |
| 10.13.2 | Clear Season Crops | 297 |
| | <i>References</i> | 297 |

CHAPTER 11

Agricultural Renewal and Sustainability

| | | |
|------|---------------------------|-----|
| 11.1 | Cooperative Farming | 302 |
|------|---------------------------|-----|

| | | |
|--------|--|------------|
| 11.2 | Optimal and Conjunctive use of Water Resources | 302 |
| 11.2.1 | Surface Irrigation..... | 302 |
| 11.2.2 | Groundwater..... | 303 |
| 11.2.3 | Rainfall..... | 303 |
| 11.3 | Organic Cropping..... | 304 |
| 11.4 | Integrated Management of Pests and Diseases (IMPD)..... | 305 |
| 11.5 | Climatic Crop Planning | 305 |
| 11.5.1 | Specialised Production of Agro-Industrial Crops | 306 |
| 11.6 | Evolving of New Varieties..... | 306 |
| 11.7 | GM Cultivars Free Farming | 307 |
| 11.8 | Pricing Support for Crop Produce..... | 308 |
| 11.9 | Weather Management of Crops..... | 308 |
| 11.10 | Weather-based Crop Insurance | 309 |
| 11.11 | Food Security..... | 309 |
| 11.12 | Concerted Action | 309 |
| | <i>References</i> | 310 |
| | Index | 313 |
