

Contents

Keynotes	
Title	Page No.
Slope Stability of SH-71, Mahabaleshwar, India <i>T N Singh</i>	(vii)
Use of Geo-Spatial Technology for Monitoring and Mapping Urban Floods <i>P. Manjusree</i>	(xiii)
Need for Pre-Earthquake Risk Assessment of Buildings in Moderate-To-Severe Earthquake Prone Areas in India <i>Ramancharla Pradeep Kumar</i>	(xiv)
Impact of Climate Change on Water Resources: Planning Aspects <i>K. Srinivasa Raju</i>	(xvi)

S.No	Title	Page No.
1	Statistical Analysis of Rainfall Data and Estimation of Peak Flood Discharge for Ungauged Catchments <i>N. Vivekanandan</i>	1
2	Geo-Environmental Factors for Assessing Sedimentation- A Case Study of Thatipudi Reservoir, Vizianagaram, Andhra Pradesh, India <i>B. Naveen kumar, Varaprasad. A and Suryanarayana. K</i>	9
3	Mangroves – The Coastal Green Buffer Zone <i>Vijaya Kumari Nunna</i>	17
4	Shoreline Modeling Using Remote Sensing and GIS: A Case Study of Visakhapatnam Coast, Andhra Pradesh State <i>Durusaju Hari Prasad, M. G. Muni Reddy, N. Darga Kumar and Rama Tammu</i>	22
5	Assessment of Waterbalance Using Swat for Drought Prone Arid Regions <i>B.N. Malleswara Rao</i>	30
6	Assessment of Ground Water Quality of L.B. Nagar, Hyderabad and Impact of Industries Closure <i>B. Saraswathi, P. Radhika Devi and Y. Vinoda Devi</i>	41

7	Disaster Preparedness, Mitigation and Reconstruction of Sustainable Society <i>Sadhana A. Shalu, Gajanan Sangewar, Bhushan Bhadane, Dhanashree Waydande, Rahul Yelmane</i>	54
8	Modeling Ground Water Vulnerability using DRASTIC Analysis and GIS <i>Rama Tammu and Shashidhar Thatikonda</i>	57
9	Forecast Of Reservoir Sediment Trap Efficiency Using Artificial Neural Networks <i>Qamar Sultana and M. Gopal Naik</i>	67
10	Real Time Early Response Systems for Natural Disaster Management – A Critical Review <i>M. Jyothi</i>	74
11	An Overview of Indian Disaster and its Mitigation Strategies <i>S. Lavankumar, Sk. Hafeez, N. Pavani and N. Ramya</i>	84
12	Building Information Modeling a Reliable Tool for Construction <i>K. Muralidhar, V. Bhikshma, P. Pandu Rangaiah, and CH.Chaitanya</i>	90
13	Seismic Strengthening of Plan Irregular RC Buildings with Re-Entrant Corners Using Shearwalls <i>P. Sanketh and B. D. V. Chandra Mohan Rao</i>	96
14	Response Spectra Analysis of Symmetric and Asymmetric Buildings with Variation in Natural Period and Soil Strata <i>Rajesh Kadiyala and Tejaswi Kota</i>	105
15	Structural Health Monitoring Using Metal wire based Piezo-Impedance Transducer <i>S.N. Khante and A.U. Rankhamb</i>	113
16	Bhuj & Nepal Earthquakes: Technical Fall-outs and Lessons to be Learnt <i>Ramujee Kolli and Narendra Kumar. B</i>	120
17	Nepal Earthquake 2015: Damage to Buildings <i>P. N. Singh</i>	127
18	Study on Effect of Storey Height on the Seismic Performance of Tall Braced Buildings <i>A. Mallika</i>	133
19	Disaster Resilient Construction – National Disaster Management Guidelines: A Review <i>M. Jyothi and G. A. V. Sandeep Kumar</i>	141
