<i>Preface</i>	(vii)
<i>Symbols</i>	(ix)
<i>Standard Results</i>	(xi)

UNIT - I | Differential Equations of First Order and First Degree

1.1 Introduction	2
1.2 Formation of an Ordinary D.E	3
1.3 The Differential Equations of the First Order and of the First Degree.....	9
1.3.1 Separation of Variables	9
1.3.2 Homogeneous Equations	13
1.3.3 Non-homogeneous Differential Equations	17
1.4 Linear Differential Equations	24
1.4.1 Non-linear Differential Equation of First Order.....	30
1.5 Exact Differential Equations	36
1.5.1 Integrating Factors	39
1.5.2 First Method to Find an Integrating Factor	40
1.5.3 Second Method to Find the Integrating Factor.....	41
1.5.4 Third Method to Find the Integrating Factor.....	43
1.5.5 Fourth Method to Find the Integrating Factor	45
1.5.6 Fifth Method for Finding Integrating Factor	47
1.6 Applications : Law of Natural Growth and Decay, Newton's Law of Cooling and Chemical Reactions	50
1.6.1 Orthogonal Trajectories.....	62
1.6.2 Orthogonal Trajectories : Cartesian Coordinates	62
1.6.3 Orthogonal Trajectories : Polar Coordinates	63
1.6.4 Applications of Electric Circuits	70
Summary	78
Solved University Questions	80
Objective Type Questions	119

UNIT - II | Linear Differential Equations of Higher Order

2.1 Linear Differential Equations of Higher Order with Constant Coefficients.....	124
2.1.1 Complementary Function (C.F).....	124
2.2 Particular Integral.....	130
2.2.1 Methods of Finding P.I.....	134
2.3 Method of Variation of Parameters.....	151
2.4 Applications of Linear Differential Equation of Higher Order : LCR Circuits.....	158
2.5 Applications of Linear Differential Equation of Higher Order : Simple Harmonic Motion.....	164
Summary.....	172
Solved University Questions.....	174
Objective Type Questions.....	195

UNIT - III | Laplace Transforms

3.1 Introduction.....	204
3.1.1 Definition.....	204
3.1.2 Conditions for L.T to Exist.....	205
3.1.3 Linearity Property.....	205
3.1.4 First Shifting, Second Shifting and Change of Scale Properties.....	205
3.1.5 Laplace Transforms of Standard Functions.....	207
3.1.6 Multiplication by 't'.....	212
3.1.7 Division by 't'.....	214
3.1.8 Laplace Transform of Derivatives.....	217
3.1.9 Laplace Transform of Integrals.....	220
3.1.10 Laplace Transforms of Periodic Functions.....	223
3.1.11 Laplace Transform of the Unit Step Function (Heavisides unit function).....	230
3.1.12 Heaviside Shift Theorem.....	230
3.1.13 Dirac Delta Function (Unit impulse function).....	231
3.2 Inverse Laplace Transforms.....	234
3.2.1 Table of Inverse Transforms.....	236
3.2.2 Method of Partial Fractions.....	239
3.2.3 First Shifting Theorem.....	243
3.2.4 Second Shifting Theorem.....	247
3.2.5 Change of Scale Property.....	251

3.2.6 Inverse Laplace Transform of Derivatives	254
3.2.7 Inverse Laplace Transform of Integrals.....	255
3.2.8 Multiplication by powers of 's'	255
3.2.9 Division by Powers of 's'	256
3.2.10 Theorem	256
3.2.11 Convolution.....	257
3.2.12 Convolution Theorem (convolution property)	258
3.2.13 Application of Laplace Transform to Solutions of Ordinary Differential Equations	281
Summary.....	290
Solved University Questions.....	293
Objective Type Questions.....	339

UNIT - IV | Partial Differentiation

4.1 Partial Differentiation.....	354
4.1.1 Composite Functions - Total Derivative - Chain Rule	367
4.1.2 Homogeneous Function.....	375
4.1.3 Euler's Theorem	376
4.1.4 General Formula.....	377
4.2 Mean Value Theorems	389
4.2.1 Rolle's Theorem	389
4.2.2 Geometrical Interpretation of Rolle's Theorem	390
4.3 Lagrange's Mean Value Theorem (First mean value theorem).....	396
4.3.1 Geometrical Interpretation of Lagrange's Mean Value Theorem	397
4.4 Cauchy's Mean Value Theorem	402
4.5 Generalized Mean Value Theorems	405
4.5.1 Higher Mean Value Theorem with Lagrange's form of remainder (Taylor's theorem with Lagrange's form of remainder).....	405
4.5.2 (a) Higher Mean Value Theorem with Cauchy's form of remainder (Taylor's theorem with Cauchy's form of remainder)	406
4.5.3 Maclaurin's Theorem with Lagrange's form of Remainder.....	408
4.5.4 Alternate form of Lagrange's Mean Value Theorem	409
4.5.5 Alternate form of Cauchy's Mean Value Theorem	409

4.6 Jacobian	414
4.6.1 Some Properties of Jacobian	415
4.6.2 Jacobian of Composite Functions.....	423
4.6.3 Jacobian of Implicit Functions	424
4.6.4 Functional Dependence and Independence of Functions	427
4.7 Taylor's Theorem for a Function of Two Variables	435
4.7.1 Maxima and Minima of Functions of Two Variables	441
4.7.2 Langrage's Method of Undetermined Multipliers	445
Summary.....	455
Solved University Questions.....	457
Objective type Questions	468

UNIT - V | First Order Partial Differential Equations

5.1 Partial Differential Equations	474
5.1.1 Introduction	474
5.1.2 Formation of a Partial Differential Equation by the Elimination of Arbitrary Constants	474
5.2 Formation of the Partial Differential Equations by the Elimination of Arbitrary Functions	478
5.3 First Order Linear Partial Differential Equations	483
5.3.1 Lagrange's Equation	483
5.3.2 Multipliers Method to Solve the Lagrange's Partial Differential Equations	489
5.4 Non-linear Partial Differential Equations of Order One	497
5.4.1 Definitions	497
5.4.2 Standard Form I (Equations involving p and q only)	497
5.4.3 Standard Form II.....	502
5.4.4 Standard Form III	506
5.4.5 Standard Form –IV (CLAIRAUT'S TYPE)	509
Summary.....	513
Solved University Questions.....	517

UNIT - VI | Higher Order Partial Differential Equations

6.1 Linear Partial Differential Equations with Constant Coefficients	
Homogeneous Linear Equations.....	534
6.1.1 Linear Partial Differential Equation with Constant Coefficients	534
6.1.2 Homogeneous Linear Partial Differential Equation with Constant Coefficients.	535
6.1.3 Solution of a Partial Differential Equation	535
6.1.4 Complementary Function	535
6.1.5 Particular Integral	539
6.1.6 A Short Method	542
6.1.7 Exceptional Case When $F(a, b) = 0$	548
6.1.8 General Method of Finding the P.I.....	553
6.1.9 Another Method of Complementary Function.	561
6.1.10 Non-homogeneous Linear Equations	564
6.1.11 Complementary Function	566
6.1.12 Particular Integral	568
6.2 Classification of Second Order Partial Differential Equation	580
Summary.....	582
Model Papers of Engineering Mathematics - I.....	585
Gate Previous Questions with Answers.....	591
