Preface (v)

List of Figures and Tables.....(xii)

Chapter 1: General Issues in Climate Change

1.1	Introduction.....	1
1.2	General Issues of Climate Change.....	5
1.2.1	Weather & Climate.....	5
1.2.2	Climate System-Climate Change Scenario.....	11
1.2.3	Is Global Warming a Reality?.....	14
1.3	Factors Determining Earth’s Temperature.....	26
1.3.1	General	26
1.3.2	Temperature Data Quality	28
1.3.3	Sun Related Issues.....	30
1.3.4	Greenhouse Effect –Global Warming	35
1.3.5	Non-Greenhouse Effect – Ecological Changes	51
1.4	Concluding Remarks.....	51

Chapter 2: Impacts of Global Warming: Ground Realities

2.1	Introduction.....	55
2.2	Variations in Temperature	57
2.2.1	Temperature Data	57
2.2.2	Human Activity	67
2.2.3	Trends & Anomalies	69
2.2.4	History of Temperature	75
2.3	Global Warming versus its Impacts.....	78
2.3.1	General	78
2.3.2	Sea Level Changes	83
2.3.3	Ocean Acidity.....	106
2.3.4	Ocean Temperatures.....	107
2.3.5	Wild Fires	108
2.3.6	Heat Related Mortality	108
2.4	Concluding Remarks.....	109

Chapter 3: Natural Variability: Ground Realities

3.1	Introduction.....	117
-----	-------------------	-----

3.2 Atmospheric General Circulation	118
3.2.1 Circulation Patterns	118
3.2.2 Latitudinal Circulation Features	123
3.2.3 Longitudinal Circulation Features	126
3.2.4 Other Features	128
3.3 Extra-terrestrial Scenario	128
3.4 Method of Estimation of Systematic Variations	134
3.5 Natural variations in Precipitation: Case Studies.....	137
3.5.1 Southern Africa Scenario	137
3.5.2 South America Scenario	139
3.5.3 Northern Africa Scenario	141
3.5.4 Indian Scenario.....	143
3.5.5 Andhra Pradesh Scenario	145
3.6 General Circulation, Extra-terrestrial & Systematic Variations: A Synthesis	150
3.7 Concluding Remarks.....	151

Chapter 4: Impacts of Climate Change: Ground Realities

4.1 Introduction.....	154
4.2 Perception on Climate Change & its Impacts	157
4.2.1 IPCC's Perceptions.....	157
4.2.2 Wikipedia's Perceptions.....	159
4.2.3 Hypothetical Perceptions.....	162
4.3 Impacts of Climate Change on Nature.....	165
4.3.1 General	165
4.3.2 Weather Systems	167
4.3.3 Water Resources.....	187
4.3.4 Ecosystems	191
4.3.5 Unusual Events.....	193
4.4 Impact of Human Greed	199
4.5 Impact of Climate Change on Agriculture.....	204
4.5.1 Effects of Climate Change on Agriculture	204
4.5.2 World Bank Prophecies on Agriculture	214
4.6 Concluding Remarks.....	217

Chapter 5: Summary and Conclusions

5.1 Climate to Climate Change to Climate System	220
---	-----

5.2 Reliability of Global Average Temperature Anomaly	225
5.3 Global Warming versus Ecological Changes	232
5.4 Human Greed.....	237
5.5 Impacts on Nature.....	239
5.5.1 Is Global Warming a Reality?	239
5.5.2 Are the Impacts of Climate Change on Nature a Reality?.....	248
5.6 Summary and Conclusions	254
5.6.1 Summary-Synthesis.....	254
5.6.2 Conclusions	262
References	265
