## CHAPTER 1

---

### **Kshamayaa Dharithri (*Oh Tolerant Mother Earth! Forgive Me*)**

1.1 The Earth – An Overview .....	3
1.2 Earth and Geography .....	4
1.2.1 Axial Tilt: The Reason for Season .....	4
1.2.2 Geographic History .....	5
1.2.3 Internal Structure and Composition .....	5
1.3 Environment–Atmosphere–Weather– Climate .....	6
1.3.1 Classification of Climate .....	7
1.3.2 Factors Influencing Climate (in addition to latitude factor) .....	8
1.4 The Spheres of Earth .....	9
1.4.1 Pedosphere – The Superficial Earth .....	10
1.4.2 Hydrosphere – The Wet Globe .....	10
1.4.3 Cryosphere – The Cool World .....	11
1.4.4 Atmosphere – The Sphere of Air .....	11
1.4.5 Magnetosphere – The Attractive World .....	12
1.4.6 Biosphere – The Lively World .....	12
1.5 The Anatomy of the Earth .....	14
1.5.1 Principal Layers .....	14
1.5.2 Exosphere .....	15
1.5.3 Thermosphere and Ionosphere .....	16
1.5.4 Mesosphere .....	16

1.5.5	Stratosphere .....	17
1.5.6	Troposphere .....	17
1.5.7	Other Layers .....	18
1.6	Structure of Earth .....	19
1.6.1	Crust .....	19
1.6.2	Moho .....	21
1.6.3	Mantle .....	21
1.6.4	Cores .....	21
1.7	Are We Safe on the Earth? .....	22
1.7.1	The Present of the Earth .....	23
1.7.2	The Future of the Earth .....	23
	<i>Mini-Projects / Case Studies</i> .....	<b>24</b>

---

## CHAPTER 2

---

### Elements of Disaster

2.1	Disaster – Definition and Concept .....	29
2.2	Need For Disaster Management .....	29
2.3	Disaster Management - Definition and Concept .....	30
2.4	Disaster Management Functions and Objectives .....	30
2.4.1	Objectives of Disaster Management .....	30
2.4.2	Functions of Disaster Management .....	31
2.4.3	Desirable Characteristics of Disaster Manager .....	31
2.5	Elements of Disaster .....	32
2.5.1	Hazard .....	32
2.5.2	Vulnerability .....	33
2.5.3	Risk .....	33
2.6	Classification of Disasters .....	35
2.6.1	Natural Disasters .....	35
2.6.2	Manmade Disasters .....	36
2.6.3	Man-triggered Natural Disasters (Natural Disasters Increased by Humans) .....	37
2.7	Disaster Management Cycle .....	39
2.7.1	Prediction and Prevention Phase .....	40
2.7.2	Preparedness Phase .....	40
2.7.3	Response Phase .....	41
2.7.4	Recovery Phase .....	41
2.7.5	Risk Reduction and Mitigating Phase .....	42

2.8	Preparedness Measures at Different Levels .....	44
2.8.1	Role of Individuals and Local Bodies .....	45
2.9	Approaches to Disaster Management .....	47
2.9.1	Ecosystem Approach .....	47
2.9.2	Perception Approach .....	48
2.9.3	Landscape Approach .....	49
	<b>Mini-Projects</b> .....	<b>54</b>
	<b>Web – Resources</b> .....	<b>54</b>

## CHAPTER 3

### Earthquake

3.1	The King of Disasters .....	57
3.2	Earthquake – The Concept and Meaning .....	58
3.2.1	Wrong Perceptions on Earthquake .....	58
3.2.2	The Conceptual Framework .....	59
3.2.3	How does an Earthquake occur? .....	59
3.2.4	The Focus and Epicenter of Earthquake .....	60
3.3	Causes for Earthquakes .....	60
3.4	Faults .....	61
3.4.1	Fault Classification .....	62
3.4.2	Dip-slip Fault .....	63
3.4.3	Normal Fault .....	63
3.4.4	Reverse or Thrust Fault .....	64
3.4.5	Strike Fault .....	65
3.5	The Seismic Waves .....	66
3.5.1	Surface Waves .....	66
3.5.2	Body Waves .....	67
3.6	Types of Earthquakes .....	70
3.6.1	Based on the Cause of Origin .....	70
3.6.2	Based on the Depth of Focus .....	72
3.6.3	Based on the Intensity and Magnitude .....	72
3.7	Earthquake Measurement .....	74
3.7.1	Measurement with Reference to Epicenter .....	74
3.7.2	Measurement with Reference to Damage .....	74
3.7.3	Measurement with Reference to Duration .....	74

3.7.4	Measurement with Reference to Frequency of Occurrence .....	75
3.7.5	Measurement with Reference to Intensity .....	75
3.8	Scale of Measurement of Earthquake Intensity .....	76
3.8.1	Mercalli Scale .....	76
3.8.2	Richter Scale .....	77
3.8.3	Moment-Magnitude (Mw) Scale .....	78
3.9	Earthquake Prediction .....	80
3.9.1	Prequake Period – Fore-Shocks and Symptoms of Main Shock .....	83
3.9.2	During Earthquake .....	85
3.9.3	Post Earthquake - Aftershocks .....	85
3.9.4	Earthquake Swarms .....	86
3.9.5	Earthquake Storms .....	87
3.10	Effects of Earthquakes .....	87
3.11	Mitigation .....	90
	<i>Mini-Projects / Case Studies</i> .....	<b>91</b>
	<i>Exhibit – 3A</i> .....	<b>92</b>

---

## CHAPTER 4

---

### Tsunami

4.1	Tsunami- Conceptual Framework .....	95
4.1.1	Tsunami – Meaning and Definition .....	95
4.1.2	A Misconception .....	96
4.1.3	Tsunami – Not Just Seismic Sea Wave .....	97
4.2	Characteristics of Tsunami .....	98
4.3	Causes of Tsunami .....	100
4.3.1	Fault Movement on Sea-bed .....	100
4.3.2	Landslide under Water .....	100
4.3.3	Volcanic Activity .....	101
4.3.4	Mechanism of Tsunami Generation .....	101
4.4	Types of Tsunamis .....	102
4.4.1	Earthquake Triggered Tsunami .....	102
4.4.2	Landslide Triggered Tsunami .....	103
4.4.3	Volcanic Tsunami (Volcano Triggered Tsunami) .....	106
4.4.4	Meteo-tsunamis (Tsunami Triggered by Meteorological Conditions) .....	107
4.4.5	Tsunami due to Celestial Bodies .....	108
4.4.6	Man-made Tsunamis .....	109

4.5	The Mechanics of Tsunami .....	110
4.6	Measurement of Tsunami .....	111
4.6.1	Tide Gauges .....	112
4.6.2	Satellite Altimeters .....	112
4.6.3	The DART System .....	113
4.6.4	RADAR Systems .....	114
4.6.5	Scales of Tsunami Measurement .....	115
4.7	Warning Systems and Risk Reduction Measures .....	116
4.7.1	International Tsunami Warning Systems .....	116
4.7.2	Regional Warning Systems .....	116
4.7.3	Adverse Effects of Tsunami .....	118
4.7.4	Risk Reduction Measures .....	118
4.8	Tsunami in India .....	121
4.8.1	The Indian Ocean Tsunami of 26 <sup>th</sup> December 2004, (The Boxing Day Tsunami) .....	122
4.8.2	Most Vulnerable Countries to Natural Disasters .....	123
4.9	The Land of Rising Sun is the Address for Tsunami (A Case Study) .....	123
4.9.1	Why Japan has so many Earthquakes/ Tsunamis? .....	123
4.9.2	Volcanic Tsunami – Mt. Unzen .....	124
4.9.3	Quake Tsunami – Nankai .....	125
4.9.4	Flooding Tsunamis Struck – Sanriku .....	125
4.9.5	Entire Japan – Disaster Prone .....	126
4.9.6	Fooling Tsunami – Aleutian Islands .....	126
4.9.7	Nuclear Tsunami – Tohoku .....	127
	<b><i>Mini-Projects / Case Studies</i></b> .....	<b>128</b>
	<b><i>For Further Details</i></b> .....	<b>128</b>

---

## **CHAPTER 5**

---

### **Volcano**

5.1	Definition and Concept .....	131
5.2	Formation of Volcanoes – The Plate Hypothesis .....	131
5.2.1	Volcanism by Divergent Plate Boundaries .....	132
5.2.2	Volcanism by Convergent Plate Boundaries .....	132
5.2.3	Volcanism by Tensions and Compressions of Interior Plates .....	133
5.2.4	Hotspots .....	133
5.3	Classification of Volcanoes .....	134

5.4	Classification based on the Features .....	134
5.4.1	Fissure Vents .....	135
5.4.2	Shield Volcanoes .....	135
5.4.3	Lava Domes .....	135
5.4.4	Cryptodomes .....	136
5.4.5	Volcanic Cones (Cinder Cones) .....	136
5.4.6	Stratovolcanoes (Composite Volcanoes) .....	136
5.4.7	Supervolcano .....	139
5.4.8	Submarine Volcanoes .....	139
5.4.9	Subglacial Volcanoes or Table Mountains or Tuyas .....	139
5.4.10	Mud Volcanoes or Mud Domes .....	140
5.5	Classification based on Frequency of Volcanic Activity .....	141
5.5.1	Active Volcanoes .....	141
5.5.2	Dormant Volcanoes .....	143
5.5.3	Extinct Volcanoes .....	144
5.6	Types of Lava .....	144
5.6.1	Felsic Lava .....	145
5.6.2	Andesitic Lava .....	145
5.6.3	Mafic Lava .....	146
5.6.4	Ultramafic Lava .....	146
5.7	Eruption Mechanisms .....	146
5.8	Magmatic Eruptions .....	148
5.8.1	Hawaiian Eruptions .....	149
5.8.2	Strombolian Eruption .....	150
5.8.3	Vulcanic Eruption .....	151
5.8.4	Peléan Eruption .....	152
5.8.5	Vesuvian (or Plinian) Eruptions .....	153
5.9	Phreatomagmatic Eruptions .....	154
5.9.1	Surtseyan Eruption .....	155
5.9.2	Submarine Eruption .....	156
5.9.3	Subglacial Eruption and Tuyas .....	156
5.10	Phreatic Eruptions .....	157
5.11	Measurement of Volcanic Activity .....	158
5.11.1	Volcano Explosivity Index (VEI) .....	159
5.11.2	Major Volcanic Eruptions (by VEI Index) .....	159
5.11.3	Volcanic-Alert Level .....	160
5.11.4	Volcano Warning Schemes .....	160
5.11.5	Decade Volcanoes .....	160

5.12	Adverse Effects of Volcanoes .....	161
5.12.1	Volcanic Gases .....	162
5.12.2	Famines due to Volcanoes .....	163
5.12.3	Acid Rain due to Volcanoes .....	163
5.12.4	Air Pollution and Climatic Changes due to Volcanoes .....	165
5.12.5	Other Hazards due to Volcanoes .....	165
5.13	Disaster Planning and Mitigation .....	166
5.13.1	Before Volcanic Eruption .....	166
5.13.2	During Volcanic Eruption .....	166
5.13.3	After Volcanic Eruption .....	167
5.14	Volcanoes on Other Planetary Bodies .....	167
5.14.1	Volcanoes on Moon .....	167
5.14.2	Volcanoes on Venus .....	167
5.14.3	Volcanoes on Mars .....	167
5.14.4	Volcanoes on Jupiter .....	168
5.13.5	Volcanoes on Neptune .....	168
5.13.6	Volcanoes on Saturn .....	168

---

## **CHAPTER 6**

---

### **Landslides**

6.1	Definition and Concept.....	171
6.1.1	Definition .....	171
6.1.2	The Concept .....	171
6.1.3	Landslide Prediction and Hazard Analysis .....	171
6.1.4	Objectives of Landslide Hazard Analysis .....	172
6.2	The Anatomy and Process of Landslide .....	172
6.3	Features and Characteristics of Landslides .....	173
6.3.1	Type of Movement .....	173
6.3.2	Type of Material .....	174
6.3.3	Speed .....	174
6.3.4	The Spatial and Temporal Conditions .....	174
6.3.5	The Age of the Movement .....	174
6.3.6	Geological Conditions .....	174
6.3.7	Morphological Characteristics .....	175

6.3.8	Geographical Location .....	175
6.3.9	Topographical Criteria .....	175
6.3.10	Type of Climate .....	175
6.3.11	Triggers of the Movements .....	175
6.4	Factors Causing Landslides .....	176
6.5	The Triggers .....	178
6.5.1	Snowmelt .....	178
6.5.2	Rainfall .....	178
6.5.3	Rivers .....	180
6.5.4	Seismicity .....	181
6.5.5	Volcanic Activity .....	182
6.6	Classification of Landslides .....	183
6.6.1	Toppling Landslides .....	184
6.6.2	Falling Landslides .....	184
6.6.3	Lateral Spreading Landslides .....	185
6.6.4	Flowing Landslides .....	185
6.6.5	Creeping Landslides .....	188
6.6.6	Sliding Landslides .....	188
6.7	Landslides and Other Disasters .....	190
6.7.1	Landslides and Floods .....	190
6.7.2	Landslides and Earthquakes/Tsunamis .....	190
6.7.3	Landslides and Volcanic Eruption .....	192
6.8	Adverse Effects of Landslides .....	193
6.9	Landslide Mitigation .....	193
6.9.1	Geometry Modification .....	194
6.9.2	Reinforcement Measures .....	194
6.9.3	Treatment Methods .....	194
6.9.4	Anchor Structure .....	195
6.9.5	Shotcrete .....	195
6.9.6	Drainage .....	195
6.9.7	Surface Erosion Control .....	196
6.9.8	Protection Measures .....	196
	<i>Mini-Projects / Case Studies</i> .....	<b>197</b>

---

**CHAPTER 7**

---

**Avalanche and Blizzard**

7.1	Definition .....	201
7.2	The Concept and Characteristics of Avalanche .....	201
	7.2.1 Why Do Avalanches Occur? .....	202
	7.2.2 When/How Do Avalanches Occur? .....	202
	7.2.3 Where Do Avalanches Occur? .....	202
7.3	The Anatomy of Avalanche .....	202
	7.3.1 Starting Zone .....	203
	7.3.2 Avalanche Track .....	203
	7.3.3 Run-out Zone .....	203
7.4	Triggers (Causes) of Avalanches .....	204
	7.4.1 Factors Motivating Avalanche .....	205
	7.4.2 The Primary Elements of Avalanche .....	206
	7.4.3 Effect of Terrain .....	206
	7.4.4 Effect of Snowpack Structure and Characteristics .....	207
	7.4.5 Effect of Weather .....	208
7.5	Types of Avalanches – The Classification .....	210
	7.5.1 Classification based on Snowfall Dynamics .....	210
	7.5.2 Classification based on Type of Snow .....	210
7.6	Avalanche Hazard Analysis and Risk Measurement .....	211
	7.6.1 Rutsch-block Test .....	212
	7.6.2 Snow Pack Test .....	212
	7.6.3 Avalanche Risk Measurement .....	212
7.7	Avalanche Preventive Measures and Mitigation .....	215
	7.7.1 Mitigation .....	216
	7.7.2 Survival, Rescue and Recovery .....	216
	7.7.3 Some Facts about Avalanches .....	218
7.8	Blizzard .....	219
	7.8.1 What is a Blizzard? .....	220
	7.8.2 The Concept and Characteristics of Blizzard .....	220
	7.8.3 Blizzard and Ground Blizzard .....	221
	7.8.4 When/How does Blizzard Occur? (Causes for Blizzard) .....	221
	7.8.5 Where Do Blizzards Occur? .....	221
	7.8.6 Blizzards and Snowstorms in US .....	222
	7.8.7 Nor’easter – A Special Case of Blizzards .....	222

7.9	Effects of Blizzards .....	223
7.10	Noteworthy Blizzards .....	223
7.10.1	1972 Iran Blizzard .....	224
7.10.2	The Snow Winter of 1880–1881 .....	224
7.10.3	The Storm of the Century .....	224
7.11	Mitigation .....	225
7.12	Timeline of Major Avalanches and Blizzards .....	226
7.12.1	Avalanches in History .....	226
	<i>Mini-Projects / Case Studies</i> .....	<b>228</b>

---

## CHAPTER 8

---

### Cyclone–Hurricane–Typhoon

8.1	Definition and Concept .....	231
8.1.1	Hurricane .....	231
8.1.2	Typhoon .....	231
8.1.3	Cyclone .....	231
8.2	The Cyclone Structure and Terminology .....	232
8.3	Cyclogenesis – The Formation of Cyclone .....	233
8.3.1	Requirements for a Tropical Cyclogenesis .....	234
8.3.2	Formation .....	234
8.3.3	Multiple Storm Interaction-Fujiwhara Effect .....	235
8.4	Characterization of a Cyclone .....	236
8.4.1	Cyclonic Wind Direction and Movement .....	236
8.4.2	Wind Field .....	238
8.4.3	Eye and Eye-wall .....	239
8.4.4	Intensity .....	240
8.5	The Life Cycle .....	241
8.5.1	The Initial Stage .....	241
8.5.2	The Incipient Stage .....	241
8.5.3	The Maturity Stage .....	242
8.5.4	The Occlusion Stage .....	242
8.6	Classification of Cyclones .....	243
8.6.1	Surface-based Types-Identifiable on Synoptic Chart .....	244
8.6.2	Meso-scale Cyclones- Not-Identifiable on Synoptic Chart .....	244

8.7	Tropical Cyclone .....	244
	8.7.1 Features/Characteristics of a Tropical Cyclone .....	246
	8.7.2 Effects of Tropical Cyclones .....	247
8.8	Subtropical Cyclones .....	248
	8.8.1 Features/Characteristics .....	248
8.9	Extratropical Cyclone .....	249
	8.9.1 Features/Characteristics .....	249
8.10	Polar Low .....	250
	8.10.1 Features and Characteristics .....	250
8.11	Upper Level Type .....	251
	8.11.1 Polar Cyclone .....	251
	8.11.2 Tropical Upper Tropospheric Trough (TUTT) Low .....	252
8.12	Mesoscale Cyclones .....	252
	8.12.1 Mesocyclone .....	253
	8.12.2 Tornado .....	253
	8.12.3 Gustnado .....	254
	8.12.4 Waterspout .....	254
	8.12.5 Land Spout .....	255
	8.12.6 Dust Devil .....	255
	8.12.7 Steam Devil / Smoke Devil .....	255
	8.12.8 Fire Whirl .....	256
8.13	Effects of Cyclone .....	257
	8.13.1 Before Landfall .....	257
	8.13.2 After Landfall .....	257
	8.13.3 Merits .....	258
8.14	Forecasting, Preparedness and Mitigation .....	258
	8.14.1 Cyclone Information and Warning Mechanism .....	260
	8.14.2 Cyclone Season (Period) .....	260
	8.14.3 Landfall .....	261
	8.14.4 Dissipation-Factors .....	261
	8.14.5 Artificial Dissipation .....	262
	8.14.6 Safety Precautions and Mitigation .....	263
8.15	Naming of Tropical Cyclones .....	265
	8.15.1 Notable Tropical Cyclones .....	268
	<i>Mini-Projects / Case Studies</i> .....	<b>270</b>

---

**CHAPTER 9**

---

**Floods and Soil Erosion**

9.1	Definition and Concept .....	279
9.1.1	Definitions .....	279
9.1.2	How do Floods Occur? .....	279
9.2	Origin of Causing Floods .....	281
9.2.1	Seawater Floods .....	281
9.2.2	Tidal Floods .....	281
9.2.3	Run-Off from Rivers .....	281
9.2.4	Failures or Overflowing of Dams/Reservoirs .....	281
9.2.5	Urban Drainage .....	282
9.3	Types of Floods .....	282
9.3.1	Areal Floods .....	282
9.3.2	Riverine (Channel) Floods .....	282
9.3.3	Estuarine and Coastal Floods .....	284
9.3.4	Urban Flooding .....	284
9.3.5	Catastrophic Floods .....	285
9.4	Factors affecting the Flooding .....	286
9.4.1	Up-slope Factors .....	286
9.4.2	Down Slope Factors .....	286
9.4.3	Coincidences .....	286
9.5	Effects of Floods .....	287
9.5.1	Primary or Immediate Effects .....	287
9.5.2	Secondary and Long-term Effects .....	289
9.5.3	Benefits .....	289
9.6	Flood Safety Planning and Mitigation .....	290
9.6.1	Control .....	291
9.6.2	Source of Flood Information and Flood-Forecasting .....	292
9.6.3	The Analysis of Flood-information .....	293
9.6.4	Benefits of Analysis of Flood-information and Forecasting .....	293
9.6.5	Global Flood Monitoring System (GFMS) .....	294
9.7	Soil Erosion .....	295
9.8	Factors Influencing Soil Erosion .....	295
9.8.1	Climate .....	295
9.8.2	Slope and Topography .....	296
9.8.3	Vegetation .....	296
9.8.4	Tillage .....	297
9.8.5	Nature of the Soil .....	297
9.8.6	Moisture in Soil and Seepage .....	297

9.9	Causes of Soil Erosion .....	298
9.9.1	Deforestation .....	298
9.9.2	Inappropriate Cultivation Methods .....	298
9.9.3	Overgrazing .....	300
9.9.4	Urbanization .....	300
9.9.5	Improper Surface Drainage .....	301
9.9.6	Wildfires .....	301
9.9.7	Climate Change .....	301
9.10	Types of Erosion .....	301
9.10.1	Erosion by Water .....	301
9.10.2	Erosion by Wind .....	304
9.10.3	Erosion by Human Activity .....	305
9.10.4	Erosion by Mass Movement and Slumping .....	306
9.11	Effects of Soil Erosion .....	306
9.11.1	Land Degradation .....	306
9.11.2	Reducing Organic Matter and Soil Structure .....	307
9.11.3	Loss of Soil .....	307
9.11.4	Decline in Soil Capacity .....	307
9.11.5	Deposition of Sand and Gravel on Agricultural Lands .....	307
9.11.6	Sedimentation of Aquatic Ecosystems .....	307
9.11.7	Airborne Dust Pollution .....	309
9.11.8	Flooding of Streams .....	309
9.12	Major Soil Erosion Challenges in India .....	309
9.13	Methods to Prevent Soil Erosion .....	311
9.13.1	Biological Measures .....	311
9.13.2	Mechanical Measures .....	312
9.13.3	Managerial Methods .....	312
	<i>Mini-Projects / Case Studies</i> .....	<b>314</b>

## CHAPTER 10

### Drought and Famine

10.1	The Concept and Characteristics .....	317
10.1.1	Features and Characteristics .....	317
10.2	Causes for Drought .....	318
10.2.1	Dry Seasons .....	318
10.2.2	Precipitation Deficiency .....	319
10.2.3	Climate Change .....	319

10.2.4	Erosion .....	320
10.2.5	El Niño .....	320
10.2.6	Human Activities .....	321
10.3	Types of Droughts .....	322
10.3.1	Meteorological Drought .....	322
10.3.2	Agricultural Drought .....	322
10.3.3	Hydrological Drought .....	322
10.4	Famine .....	323
10.4.1	The Concept .....	324
10.4.2	Distinction between Drought and Famine .....	324
10.4.3	Famine Code – Famine Level Indicator by Food Insecurity .....	325
10.5	Theories and Causes/Reasons for Famine .....	327
10.5.1	Food Availability Decline (FAD) Hypothesis .....	327
10.5.2	Theory of Failure of Exchange Entitlements (FEE) .....	327
10.5.3	Climate and Population Pressure .....	328
10.5.4	State-Sponsored Famines .....	329
10.5.5	Other Reasons .....	330
10.6	Famine Future and Future Famine .....	331
10.6.1	Effects (Consequences) of Drought/ Famine .....	331
10.6.2	Threat of Drought .....	331
10.6.3	Risk of Famines .....	332
10.7	Prevention, Mitigation and Relief .....	332
10.7.1	Methods of Prevention and Protection from Drought .....	333
10.7.2	Norman Borlaug’s Green Revolution – A Famine Preventive Solution .....	334
10.7.3	Food Security - Famine Preparedness Solution .....	334
10.7.4	Evan Fraser’s Lines of Defense – A Mitigation and Relief Solution .....	335
10.7.5	Relief Technologies .....	336
10.8	Unforgettable Droughts and Famines –Some Case Studies .....	337
10.8.1	Great Irish Potato Famine 1845–49 .....	337
10.8.2	Great Leap Forward – The Largest Famine .....	338
10.8.3	Africa, The Address for Droughts and Famines .....	339
10.9	Bengal Famine of 1943 – A Manmade Holocaust: A Case Study .....	340
10.9.1	Population Growth Vs Land Shortage/ Agro-productivity .....	342
10.9.2	Rural Credit and Land-grabbing .....	342

10.9.3	Japanese Invasion of Burma – Refugees to India (Feb–Apr 1942) .....	343
10.9.4	Denial Policies (Mar 1942) .....	344
10.9.5	Natural Disasters in Oct 1942 .....	345
10.9.6	Famine and Diseases .....	346
10.9.7	Social Disruption .....	347
10.9.8	Relief Efforts .....	350
10.9.9	Amartya Sen, The Witness of Bengal Famine 1943 .....	351
	<i>Mini-Projects / Case-Studies</i> .....	<b>360</b>

---

## CHAPTER 11

---

### Industrial Hazards (*Chemical, Fire, Explosion and Radiation*)

11.1	The Concept and Meaning of Hazard .....	363
11.1.1	Classification of Hazards .....	363
11.2	Industrial Hazards .....	364
11.2.1	Most Concerned Issues and Challenges .....	364
11.2.2	Classification of Industrial Hazards .....	365
11.3	Chemical Hazards .....	366
11.3.1	Hazard Communication Standard .....	366
11.3.2	Responsibilities of Managements of Chemical Industries .....	366
11.3.3	Chemical Hazard Area Monitoring and Control .....	367
11.3.4	Common Hazardous Chemicals and their Effects .....	369
11.3.5	Prevention, Protection, Mitigation and Management of Chemical Hazards .....	373
11.4	Gas Hazards .....	374
11.4.1	Dust Explosion .....	375
11.4.2	Prevention and Mitigation .....	376
11.5	Fire and Explosion Hazards .....	378
11.5.1	Causes of Fire and Fire-prone Areas .....	378
11.5.2	Fire Triangle .....	380
11.5.3	Control of Fire and Explosion .....	381
11.5.4	The Role of Fire Department .....	381
11.5.5	Top Fire/Chemical Accidents in the World .....	384
11.6	Atomic Explosion .....	386
11.6.1	Causes of Atomic Explosion .....	387

11.6.2	Effects of Atomic Explosion .....	388
11.6.3	Prevention Methods for Atomic Explosion .....	388
11.6.4	Previous Calamities of Atomic Explosion .....	389
11.7	Radiation (Radioactivity) Hazards .....	391
11.7.1	Causes and Origins/ Sources of Radioactivity Hazard .....	391
11.7.2	Preventive and Protective Measures .....	392
11.7.3	Protective Measures and Obligations .....	393
11.7.4	Protective Measures at Nuclear Power Plants .....	393
11.7.5	Intervening and Alarming Organizations .....	393
11.7.6	Intervention and Rescue Measures .....	394
11.7.7	Instructions to People .....	395
11.8	Biological Hazards .....	396
11.9	Preventive Measures to Reduce the Industrial Hazards .....	397
11.9.1	Role of Industries .....	397
11.9.2	Role of Government .....	397
	<i>Mini-Projects / Case Studies</i> .....	<b>398</b>

---

## CHAPTER 12

---

### Heat/Cold Waves, Wildfire and Deforestation

12.1	Heat Wave .....	401
12.1.1	The Concept and Definition .....	401
12.1.2	Severity and Measurement .....	403
12.1.3	Formation of Heat Wave .....	404
12.1.4	Adverse Effects of Heat Waves .....	404
12.1.5	Health Effects .....	404
12.1.6	Physiological, Psychological, Sociological and Environmental Effects .....	406
12.1.7	Physical Assets Damage and Power Outage .....	406
12.1.8	Underreporting and “Harvesting” Effect .....	407
12.1.9	Preventive Measures .....	408
12.2	Cold Wave .....	409
12.2.1	Cold Wave Occurrence .....	409
12.2.2	Cold Wave Severity .....	409
12.2.3	Cold Wave Vs Heat Wave .....	409
12.2.4	Effects of Cold Wave .....	410
12.2.5	Countermeasures .....	411
12.2.6	Notable Cold Waves in the History .....	411

12.3	Deforestation .....	414
12.3.1	Causes of Deforestation .....	415
12.3.2	Ecology is Permanent Economy - CHIPKO Movement .....	415
12.3.3	Preventive Measures .....	417
12.4	Wildfire .....	419
12.4.1	Features and Characteristics .....	419
12.4.2	Causes for Wildfire .....	420
12.4.3	Types of Wildfires (With Reference to Type of Fuel and Fire Movement) .....	421
12.4.4	Fire Triangle of Wildfire .....	422
12.4.5	Wildfire Front .....	422
12.4.6	Wildfire Vs Environment .....	423
12.4.7	Plant Adaptation .....	425
12.4.8	Human Involvement .....	426
12.5	Wildfire Risk .....	426
12.5.1	Human Induced Risk .....	427
12.5.2	Risk to Residential Surroundings .....	427
12.5.3	Risk due to Destruction .....	427
12.5.4	Risk due to Particulate Matter .....	428
12.5.5	Risk due to Carbon Monoxide (CO) .....	428
12.6	Wildfire Management .....	428
12.6.1	Prevention .....	429
12.6.2	Detection .....	429
12.6.3	Suppression .....	430
12.6.4	Monitoring and Controlling .....	431
12.6.5	Fire-Fighting and Safety .....	431
12.6.6	Fire Retardants .....	432
12.6.7	Cost-Benefit Analysis of Wildfire Management Strategies .....	433
12.6.8	Notable Wildfires .....	434
	<b>Mini-Projects / Case Studies .....</b>	<b>435</b>

---

## CHAPTER 13

---

### Pollution and Acid Rains

13.1	The Concept of Pollution and Pollutants .....	439
13.1.1	Sources of Pollution .....	440
13.1.2	Forms of Pollution .....	441

13.2	Air Pollution .....	443
13.2.1	Air Pollutants .....	444
13.2.2	Forms of Air Pollution .....	446
13.3	Causes of Air Pollution .....	446
13.3.1	Exhaust from Factories/ Industries and Vehicles in Traffic .....	447
13.3.2	Burning of Fossil Fuels .....	447
13.3.3	Agricultural Pollution .....	447
13.3.4	Mining Operations .....	448
13.3.5	Solid Waste Mismanagement and its Effects .....	448
13.3.6	Chemical Incidents and Spills .....	449
13.3.7	Atomic/ Nuclear Accidents and Radiation/ Radio Activity .....	449
13.4	Effects of Air Pollution .....	451
13.4.1	Impact of Air Pollution on Plants .....	451
13.4.2	Effect on Wildlife and Animals .....	451
13.4.3	Eutrophication .....	452
13.4.4	Effect on Human Health .....	452
13.4.5	Effect on Environment .....	453
13.4.6	Effect on Worker Productivity .....	454
13.5	Air Pollution Control .....	454
13.5.1	Pollution Control Activities .....	454
13.5.2	Pollution Control Devices .....	454
13.5.3	Air Pollution Measurement .....	455
13.5.4	Role of Individual and Society in Air Pollution Control and Self Control .....	457
13.5.5	Regulation and Monitoring .....	457
13.5.6	Greenhouse Gases and Global Warming .....	458
13.6	Acid Rains .....	459
13.6.1	Causes for Acid Rains .....	460
13.6.2	The Acid Precipitation Process .....	460
13.7	Effects of Acid Rain .....	462
13.7.1	Effect on Ecosystems .....	463
13.7.2	Effect on Forests .....	463
13.7.3	Effect on Forest Floor and Agricultural Land .....	464
13.7.4	Effect on Ponds, Lakes and Streams .....	464
13.7.5	Effect on Humans .....	465
13.7.6	Effect on Manmade Materials .....	466
13.7.7	Control Measures .....	466
13.7.8	Role of Individuals .....	467

13.8	Water Pollution .....	470
	13.8.1 Resources of Water and Sources of Pollution .....	471
13.9	Causes for Water Pollution .....	472
	13.9.1 Water Pollution by Chemicals .....	473
	13.9.2 Water Pollution due to Physical Changes .....	473
	13.9.3 Water Pollution by Thermal Effects .....	474
	13.9.4 Water Pollution by Pathogens .....	474
	13.9.5 Water Pollution due to Macroscopic Materials .....	475
13.10	Measurement and Control of Water Pollution .....	476
	13.10.1 Physical Testing .....	477
	13.10.2 Chemical Testing .....	477
	13.10.3 Biological Testing .....	477
13.11	Control of Water Pollution .....	477
	13.11.1 Controls at Sewage Treatment .....	478
	13.11.2 Control Over Industrial Wastewater Treatment .....	478
	13.11.3 Controlling Agricultural Wastewater Treatment .....	479
	13.11.4 Controlling at Construction Sites .....	479
	13.11.5 Control of Urban Runoff (Storm Water) .....	480
	<i>Mini-Projects / Case Studies</i> .....	<b>482</b>

---

## CHAPTER 14

---

### **Accidents in Transport (*The Manmade Disasters*)**

14.1	Accident-Definition and Concept .....	485
	14.1.1 Physical and Non-Physical Accidents .....	485
	14.1.2 Transport Accidents .....	485
14.2	Road Accidents .....	485
	14.2.1 Statistics of Road Accidents .....	486
	14.2.2 Causes of Road Accidents .....	488
	14.2.3 Driving in Fog .....	492
	14.2.4 Bad Driving Habits and Road Safety .....	492
	14.2.5 Mitigation Strategies – E.E.E. Approaches .....	494
	14.2.6 Road Accident Prevention and Rescue Measures .....	495
	14.2.7 Guidelines for Accident Situations .....	496
14.3	Train (Rail) Accidents .....	499
	14.3.1 Types of Train Accidents .....	500
	14.3.2 Types of Railway Accidents based on Causes .....	500

14.3.3	Types of Railway Accidents based on Effects .....	501
14.3.4	Adverse Effects .....	502
14.3.5	Instructions for Common People .....	503
14.3.6	Government Intervention and Rescue Measures .....	504
14.4	Maritime Accidents .....	505
14.4.1	Types of Marine Accidents .....	505
14.4.2	Role of Government in Preventing Maritime Accidents .....	509
14.4.3	Role of Ship Manufacturers in Preventing Maritime Accidents .....	509
14.5	Air Accidents .....	510
14.5.1	Technical Causes of Aircraft Crashes .....	510
14.5.2	Environmental Causes of Aircraft Crashes .....	512
14.5.3	Human Factors for Air Accidents .....	514
14.5.4	Fire Accidents in Aircrafts .....	517
14.5.5	Bird Strike .....	518
14.5.6	Ground Damage and Runway Accidents .....	518
14.5.7	Roles of various People in Preventing Air Accident .....	519
	<i>Mini-Projects / Case Studies</i> .....	<b>520</b>

---

## CHAPTER 15

---

### **Violence, Terrorism and Wars (*The Manmade Disasters*)**

15.1	Violence – Concept and Definition .....	523
15.1.1	Concept of Violence .....	523
15.1.2	Types of Violence .....	523
15.1.3	Violence with Specific Features .....	526
15.1.4	Triggering Factors .....	529
15.1.5	Ecological Model .....	530
15.1.6	Violence Prevention Approaches and Strategies .....	530
15.1.7	Prevention Programmes .....	532
15.2	Communal Violence .....	533
15.2.1	Causes for Communal Violence .....	534
15.2.2	Communal Violence in World History .....	534
15.3	Communal Violence in India .....	536
15.3.1	In Ancient India .....	537
15.3.2	Medieval India .....	537
15.3.3	Violence in Indian History .....	537
15.3.4	Nizams in the Princely State of Hyderabad .....	544

15.4	Communal Violence in Modern India .....	545
15.4.1	Gujarat Hindu-Muslim Communal Riots (1969) .....	546
15.4.2	Anti-Sikh Riots – Operation Blue Star (1984) .....	546
15.4.3	Ethnic Cleansing of Kashmiri Hindus .....	547
15.4.4	Anti-Muslim Violence – Ram Janma Bhoomi Vs Barbri Maszid (1992) .....	547
15.4.5	Godhra (Gujarat) Hindu-Muslim Communal Riots (2002) .....	547
15.4.6	Anti-Christian Violence .....	548
15.4.7	Anti-Hindu Violence .....	548
15.5	Terrorism .....	550
15.5.1	The Concept & Meaning .....	550
15.5.2	Definition .....	551
15.5.3	Characteristics of Terrorism .....	552
15.5.4	The Mirror Image of Terrorism .....	553
15.5.5	Classification of Terrorism .....	554
15.5.6	Motives and Targets of Terrorists .....	556
15.5.7	Role of Perpetrators in Initiating .....	557
15.5.8	Role of Governments to Defending .....	558
15.6	War and Warfare .....	559
15.6.1	The Worse of Wars .....	559
15.6.2	Types of Wars .....	560
15.7	The World Wars .....	561
15.7.1	First World War I (WW-I) .....	561
15.7.2	Second World War II (WW-II) .....	562
15.7.3	War Ethics .....	563
15.7.4	Just War Theory .....	564
15.8	Theories for Motivation to War (Why, When and Where War Generates?) .....	565
15.8.1	Psychoanalytic Theories .....	565
15.8.2	Evolutionary Theory .....	565
15.8.3	Economic Theory .....	566
15.8.4	Marxist Theory .....	566
15.8.5	Demographic Theories .....	566
15.8.6	Rationalism/Neo-realism Theory .....	567
15.8.7	Political Science Theories .....	567
15.9	Effects of War .....	568
15.9.1	Effect on Military Personnel .....	568
15.9.2	Effect on Civilians .....	569

15.9.3 Effect on the Economy ..... 570  
15.9.4 Effect on Arts and Culture ..... 570  
*Mini-Projects / Case Studies* ..... 571

---

## CHAPTER 16

---

### **Bio-hazards (*Bacterial, Protozoan and Fungal Epidemics*)**

16.1 Concept and Definition of Epidemic ..... 575  
    16.1.1 Definition ..... 575  
    16.1.2 Causes ..... 575  
    16.1.3 The Concept of Outbreak ..... 576  
    16.1.4 Transmission ..... 576  
    16.1.5 Risk Factors Leading to Epidemics after Natural Disaster ..... 577  
    16.1.6 Population Displacement: A Primary Concern ..... 577  
    16.1.7 Diseases Associated with Crowding ..... 578  
16.2 Classification of Epidemics ..... 579  
    16.2.1 Epidemics after Disasters ..... 579  
    16.2.2 Classification based on Mode of Transmission ..... 580  
    16.2.3 Classification based on Causing Micro-Organism ..... 581  
16.3 Anthrax (Soil Borne) ..... 582  
    16.3.1 Mode of Infection ..... 582  
    16.3.2 The Causing Bacteria ..... 584  
    16.3.3 Vaccines ..... 584  
    16.3.4 Treatment and Precaution ..... 584  
    16.3.5 Anthrax Bio-hazard ..... 585  
16.4 Tetanus or TT (Soil Borne) ..... 586  
    16.4.1 Types of Tetanus ..... 586  
    16.4.2 Causes and Symptoms ..... 586  
    16.4.3 Diagnosis & Treatment ..... 587  
16.5 Cholera (Water Borne) ..... 588  
    16.5.1 Symptoms ..... 589  
    16.5.2 Cause and Transmission ..... 589  
    16.5.3 Diagnosis and Prevention ..... 590  
    16.5.4 Treatment ..... 592  
16.6 Diphtheria (Water Borne) ..... 593  
    16.6.1 Symptoms & Diagnosis ..... 593  
    16.6.2 Prevention and Treatment ..... 595

16.7	Typhoid Fever (Water Borne) .....	596
16.7.1	Symptoms & Features .....	597
16.7.2	Transmission & Prevention .....	597
16.7.3	Diagnosis & Treatment .....	598
16.8	Tubercle Bacillus (TB) or Tuberculosis (Air Borne) .....	599
16.8.1	Symptoms .....	599
16.8.2	Causes & Transmission .....	600
16.8.3	Risk Factors .....	601
16.8.4	Diagnosis .....	602
16.8.5	Prevention & Vaccines .....	602
16.8.6	TB in Animals .....	602
16.9	Leprosy (Air Borne) .....	603
16.9.1	Cause & Transmission .....	603
16.9.2	Symptoms & Diagnosis .....	604
16.9.3	Prevention .....	604
16.10	Plague (Air & Vector Borne) .....	605
16.10.1	Cause & Transmission .....	605
16.10.2	Types of Plague .....	607
16.10.3	Treatments and Immunization .....	608
16.10.4	Plague as a Biological Weapon .....	608
16.10.5	Plague in India, 1994 Surat Epidemic .....	609
16.10.6	Recent Cases .....	609
16.11	Meningitis (Air and Vector Borne) .....	610
16.11.1	Factors favouring Meningitis .....	611
16.11.2	Symptoms .....	611
16.11.3	Causes & Diagnosis .....	612
16.11.4	Prevention & Vaccination .....	612
16.12	Malaria (Vector Borne) .....	613
16.12.1	Classification .....	614
16.12.2	Symptoms and Causes .....	615
16.12.3	Recurrent Malaria .....	615
16.12.4	Origin & Research .....	616
16.12.5	Diagnosis & Prevention .....	617
16.12.6	Challenging Issues .....	618
	<b>Mini-Projects / Case Studies .....</b>	<b>619</b>

---

## CHAPTER 17

---

### Bio-hazards: Viral Epidemics

17.1	Measles (Air Borne)	623
17.1.1	Symptoms and Causes	623
17.1.2	Risk Factors and Prevention	624
17.1.3	Diagnosis and Treatment	625
17.2	Smallpox (Air Borne)	625
17.2.1	Symptoms	626
17.2.2	Causes and Transmission	626
17.2.3	Prevention-Vaccination	627
17.2.4	Biological Warfare	627
17.2.5	Notable Examples of Smallpox	628
17.3	Chickenpox (Air Borne)	628
17.3.1	Symptoms and Diagnosis	629
17.3.2	Prevention and Treatment	630
17.3.3	Distinction between Smallpox and Chickenpox	631
17.4	Influenza or Flu (Air Borne)	631
17.4.1	Symptoms & Treatment	632
17.4.2	Types of Virus	633
17.4.3	Transmission	634
17.4.4	Prevention & Control	635
17.4.5	Seasonal Variations	635
17.4.6	Virus in Animals	636
17.5	Swine Flu (Air Borne)	637
17.5.1	Swine Flu in Swine	637
17.5.2	Swine Flu in Humans	637
17.5.3	Transmission and Prevention	638
17.5.4	Treatment	639
17.6	Avian Influenza or Bird Flu (Air Borne)	639
17.6.1	Spread	640
17.6.2	In Domestic Animals	640
17.6.3	Prevention	641
17.7	Ebola Virus Disease (Direct Contact)	641
17.7.1	Causes and Symptoms	642
17.7.2	Transmission	643

17.7.3	Diagnosis and Treatment .....	645
17.7.4	Ebola as a Bio-weapon .....	646
17.8	Infantile Paralysis or Poliomyelitis or Polio (Direct Contact) .....	646
17.8.1	Cause & Symptoms .....	646
17.8.2	Types of Paralytic Polio .....	648
17.8.3	Transmission & Diagnosis .....	649
17.8.4	Prevention & Treatment .....	649
17.8.5	Vaccine .....	649
17.9	HIV/AIDS (Direct Contact) .....	650
17.9.1	Symptoms and Stages .....	651
17.9.2	Transmission and Risk .....	652
17.9.3	Diagnosis and Treatment .....	654
17.9.4	Origin .....	654
17.9.5	Misconceptions .....	655
17.10	Chikungunya (Vector Borne) .....	656
17.10.1	Causes and Symptoms .....	656
17.10.2	Diagnosis & Prevention .....	657
17.10.3	Treatment .....	657
17.10.4	Biological Weapon .....	658
17.11	Dengue Fever (Vector Borne) .....	658
17.11.1	Dengue Fever – Dengue Virus .....	658
17.11.2	Causes & Symptoms .....	659
17.11.3	Transmission .....	660
17.11.4	Diagnosis .....	660
17.11.5	Prevention and Control .....	661
17.11.6	Treatment/Management .....	663
17.12	Japanese Encephalitis or JE (Vector Borne) .....	663
17.12.1	Symptoms and Diagnosis .....	663
17.12.2	Prevention and Treatment .....	664
17.12.3	Other Types of Encephalitis .....	665
17.13	Yellow Fever (Vector Borne) .....	665
17.13.1	Cause and Symptoms .....	665
17.13.2	Transmission & Diagnosis .....	666
17.13.3	Prevention and Vaccination .....	666
17.13.4	Vector Control and Treatment .....	667

17.14	Zika Virus (Vector Borne) .....	667
17.14.1	Symptoms & Diagnosis .....	667
17.14.2	Transmission .....	668
17.14.3	Prevention and Treatment .....	669
	<i>Mini-projects / Case Studies</i> .....	<b>669</b>

---

## CHAPTER 18

---

### **Mruthyormaa Amrutham Gamaya**

#### ***The Response, Rescue and Mitigation***

18.1	Mitigation – The Concept and Meaning .....	673
18.1.1	The Concept and Significance of Mitigation .....	673
18.1.2	Objectives of Mitigation .....	673
18.1.3	Strategies of Mitigation .....	674
18.1.4	Types of Mitigation .....	674
18.2	Functions of Disaster Mitigation and Management .....	675
18.2.1	Activities of Mitigation .....	676
18.2.2	Common Instructions Universally Applicable to Mitigation of All Types of Disasters .....	677
18.2.3	Help Your Community .....	678
18.3	Disaster Mitigation Plans based on Causes and Effects .....	679
18.4	Guidelines for Mitigation of Major Natural Disasters .....	680
18.4.1	Do's and Don'ts for Earthquake.....	680
18.4.2	DO's and DON'TS for Tsunami .....	682
18.4.3	DO's and DON'Ts for Cyclone/ Storm/ Hurricane/Typhoon/Depression .....	688
18.4.4	DO's and DON'Ts for Floods/ Urban Floods/ Rainstorms .....	690
18.4.5	DO's and DON'Ts for Volcanic Eruptions .....	693
18.4.6	DO's and DON'Ts for Drought/ Famine .....	694
18.5	Guidelines for Managing Minor Natural Disasters .....	695
18.5.1	DO's and DON'Ts for Landslides/ Rockslides/ Mudslides .....	695
18.5.2	DO's and DON'Ts for Heat Wave/ Fire Hazards/Summer Hazards .....	696
18.5.3	DO's and DON'Ts for Cold Waves/ Winter Hazards/Blizzards/ Hailstorms .....	698

18.6 Guidelines for Major Manmade Disasters ..... 699

    18.6.1 DO's and DON'Ts for Nuclear Hazards and Radiation ..... 699

    18.6.2 DO's and DON'Ts for Chemical Hazards and  
        Industrial Accidents ..... 702

    18.6.3 DO's and DON'Ts for Bio-Hazards/Epidemics ..... 703

18.7 Guidelines for Managing Minor Manmade Disasters ..... 707

    18.7.1 DO's and DON'Ts for Road Accidents ..... 707

    18.7.2 DO's and DON'Ts for Rail Accidents ..... 708

*Mini-Projects / Case Studies* ..... **709**

**Index..... 711**
