

CONTENTS

Preface	(v)
Acknowledgement.....	(vii)

CHAPTER 1: DEFINITION AND SCOPE

1.1 Different Techniques of Analysis	1
1.2 Methods of Expressing Concentration	4
1.3 Primary and Secondary Standards	10
1.4 Preparation and Standardization of various Molar and Normal Solutions.....	13
A. Multiple Choice Questions	36
B. Long Questions	38
C. Short Questions	38

CHAPTER 2: ERRORS

2.1 Sources of Errors.....	42
2.2 Types of Errors	44
2.3 Methods of Minimizing Errors	46
2.4 Accuracy	47
2.5 Precision and Significant Figures	48
A. Multiple Choice Questions	51
B. Long Questions	53
C. Short Questions	53

CHAPTER 3: ACID-BASE TITRATION

3.1 Theories of Acid-Base Indicators	61
3.2 Classification of Acid-Base Titrations	69
3.3 Theory involved in Titrations of Strong, Weak, and Very Weak Acids and Bases	71

(x) Contents

3.4	Neutralization Curves	73
	A. Multiple Choice Questions	75
	B. Long Questions	77
	C. Short Questions	77

CHAPTER 4: NON-AQUEOUS TITRATION

4.1	Solvents.....	80
4.2	Acidimetry and Alkalimetry Titration	83
4.3	Estimation of Sodium Benzoate and Ephedrine HCl.....	91
	A. Multiple Choice Questions	93
	B. Long Questions	95
	C. Short Questions	95

CHAPTER 5: PRECIPITATION TITRATIONS

5.1	Principle of Precipitation	97
5.2	Mohr's Method	101
5.3	Volhard's Method	102
5.4	Modified Volhard's Method	108
5.5	Fajan's Method	108
5.6	Estimation of Sodium Chloride	110
	A. Multiple Choice Questions	113
	B. Long Questions	114
	C. Short Questions	114

CHAPTER 6: COMPLEXOMETRIC TITRATION

6.1	Introduction.....	117
6.2	Classification of Ligands	123
6.3	Classification of Metal Ion (Analyte Cation).....	125
6.4	Detection of End Point.....	126
	6.4.1 Instrumental Method.....	126
	6.4.2 Metal Ion Indicators.....	127
6.5	Masking and Demasking Reagents.....	131
6.6	Estimation of Magnesium Sulphate	134

6.7	Estimation of Calcium Gluconate	134
	A. Multiple Choice Questions	135
	B. Long Questions	137
	C. Short Questions	138

CHAPTER 7: GRAVIMETRY

7.1	Principle and Steps involved in Gravimetric Analysis	141
7.2	Purity of the Precipitate: Co-precipitation and Post-Precipitation	145
7.3	Estimation of Barium Sulphate	147
	A. Multiple Choice Questions	150
	B. Long Questions	152
	C. Short Questions	152

CHAPTER 8: REDOX TITRATIONS

8.1	Concepts of Oxidation and Reduction	153
8.2	Types of Redox Titrations (Principles and Applications).....	158
	8.2.1 Cerimetry	159
	8.2.2 Permanganometry	161
	8.2.3 Iodimetry and Iodometry	163
	8.2.4 Bromatometry	166
	8.2.5 Dichrometry	171
	8.2.6 Titration with Potassium Iodate	174
	A. Multiple Choice Questions	176
	B. Long Questions	178
	C. Short Questions	178

CHAPTER 9: CONDUCTOMETRY

9.1	Introduction.....	179
9.2	Conductometry.....	184
9.3	Conductivity Cell.....	184
9.4	Conductometric Titrations	189

(xii) Contents

9.5	Applications	191
	A. Multiple Choice Questions	196
	B. Long Questions	199
	C. Short Questions	199

CHAPTER 10: POTENTIOMETRY

10.1	Electrochemical Cell	203
10.2	Construction and Working of Reference Electrode	204
	10.2.1 Standard Hydrogen Electrode	205
	10.2.2 Silver Chloride Electrode	207
	10.2.3 Calomel Electrode	207
10.3	Construction and Working of Indicator Electrodes	208
	10.3.1 Metal Indicator Electrodes	208
	10.3.2 Glass Electrode	210
10.4	Methods to Determine End Point of Potentiometric Titration	212
10.5	Applications	215
	A. Multiple Choice Questions	217
	B. Long Questions	219
	C. Short Questions	219

CHAPTER 11: POLAROGRAPHY

11.1	Principle	222
11.2	Ilkovic Equation	223
11.3	Construction and Working of Dropping Mercury Electrode	224
11.4	Construction and Working of Rotating Platinum Electrode	226
11.5	Applications	229
	A. Multiple Choice Questions	229
	B. Long Questions	231
	C. Short Questions	231

Appendix – I: Test Solutions	233
---	------------

Appendix – II: Volumetric Solutions	259
--	------------

Answers	271
