

CONTENTS

<i>Forewords</i>	(vii & ix)
<i>Preface</i>	(xi)

CHAPTER 1

QUALITY ASSURANCE, QUALITY MANAGEMENT AND GMP

Quality Management	1
Quality Assurance	2
Quality Control (QC)	3
Comparison of Quality Assurance and Quality Control.....	5

CHAPTER 2

TOTAL QUALITY MANAGEMENT

Definition, Elements and Philosophies	7
Objectives of TQM.....	8
Elements of TQM.....	8
TQM Philosophy	8
Guidelines for Effective TQM Implementation	9

CHAPTER 3

ICH GUIDELINES

Introduction.....	11
Objectives of ICH Guidelines	12
Process of Harmonization.....	12
Brief Overview of QSEM Guidelines	14
The ICH Guidelines under Different Series are as Follows	14
Special Emphasis on Q Series Guidelines	17
Specific Tests for Drug Substances.....	21
Specific Tests for Drug Products (Oral Dosage Form).....	21

CHAPTER 4

ICH STABILITY TESTING GUIDELINES AND PROCEEDURES

Importance of Stability Testing	25
Stability Testing Methods	25
Real-Time Stability Testing	26
Accelerated Stability Testing	26
Retained Sample Stability Testing	27
Cyclic Temperature Stress Testing.....	28
Climatic Zones for Stability Testing	28
Protocol for Stability Testing	28
Batches	29
Containers and Closures.....	29
Orientation of Storage of Containers.....	29
Sampling Time Points	29
Sampling Plan	30
Test Storage Conditions	30
Test Parameters	31
Test Methodology	31
Acceptance Criteria	31
Conduct of Stability Studies.....	32
Photo Stability Testing	32
Stability Test Equipment.....	33

CHAPTER 5

QUALITY BY DESIGN (QbD)

Quality by Design Implementation	35
Elements of Quality by Design	35
Identifying a Quality Target Product Profile (QTPP)	35
Identification of Critical Quality Attributes (CQA).....	36
Quality Attributes Important to the Performance of the Drug Product.....	36
Quality Risk Assessment.....	36

Critical Process Parameters	36
Design Space	37
Control Strategy	37
Tools of QbD.....	38
Risk Assessment.....	38
Design of Experiment (DoE).....	38
Key Characteristics of QbD	41
Benefits of QbD	41

CHAPTER 6

ISO 9000 and ISO 14000

ISO - Overview	42
Quality Management	43
Environmental Management	44
Generic Standards	44
Management Systems.....	44
Certification and Registration	45
Accreditation	45
Certification not a Requirement	45
Certification is a Business Decision	45
Benefits of ISO 9001 and ISO 14001	46
ISO Registration Process (Steps for Registration)	47
National Accreditation Board for Testing and Calibration Laboratories (NABL)	50
NABL Vision	51
NABL Mission	51
Benefits of NABL Accreditation.....	51
10 Step Approach to Accreditation	52

CHAPTER 7

VALIDATION IN cGMP

(Process Validation)

Introduction	55
Definitions European Commission	55
US FDA Definition	55

ICH Definition.....	56
WHO Definition.....	56
Need of Pharmaceutical Validation.....	56
Scope of Validation.....	56
Importance of Validation.....	57
Planning for Validation.....	57
Four Major Advantages of Validation Namely.....	58
Assurance of Quality.....	58
Process Optimization.....	58
Reduction of Quality Costs.....	58
Safety.....	59
Types/Methods of Validation.....	59
Prospective Validation.....	59
Concurrent Validation.....	61
Retrospective Validation.....	61
Some of the essential elements for Retrospective Validation.....	62
Revalidation.....	62
Basic Concept of Process Validation.....	63
Installation Qualification (IQ).....	63
Operational Qualification (OQ).....	64
Performance Qualification (PQ).....	64
Re – Qualification.....	64
Prerequisite of Process Validation.....	65
Strategy for Industrial Process Validation of Solid Dosage Forms....	65
Process Validation within the Quality Management System.....	66
Reason for Process Validation.....	66
Benefits of Process Validation.....	67
Stages of Process Validation.....	67
Validation Protocol.....	69
Validation Master Plan.....	70
Validation Report.....	71
Documentation.....	71

CHAPTER 8

**GOOD MANUFACTURING PRACTICES (GMP) - Part 1
(Introduction, Summary, Organization, Personnel and Premises)**

Introduction and History	72
Quality Management and GMP	73
Definitions	74
Active Pharmaceutical Ingredient (API)	74
Airlock	74
Authorized Person	74
Batch (or lot)	74
Batch Number (or lot number)	74
Batch Records	75
Bulk Product	75
Calibration	75
Clean Area	75
Consignment (or Delivery)	75
Contamination	75
Critical-Operation	75
Cross-Contamination	76
Finished Product	76
In-Process Control	76
Intermediate Product	76
Large-Volume Parenterals	76
Manufacture	76
Manufacturer	76
Marketing Authorization (Product License, Registration Certificate)	76
Master Formula	77
Master Record	77
Packaging	77
Packaging Material	77
Pharmaceutical Product	77
Production	77
Qualification	77
Quarantine	78

(xviii) Contents

Reconciliation.....	78
Recovery.....	78
Reprocessing	78
Reworking.....	78
Self-contained Area.....	78
Specification.....	78
Standard Operating Procedures (SOP).....	79
Starting Material.....	79
Validation.....	79
Summary of GMP Guidelines	79
Good Manufacturing Practices for Pharmaceutical Products (GMP).....	79
Components of GMP.....	80
Personnel.....	80
Key Personnel	81
Responsibilities of Head of Production.....	82
Responsibilities of Head of Quality Control	82
Training.....	84
Personal Hygiene.....	85
Premises	85
General	85
Ancillary Areas	86
Storage Areas	86
Weighing Areas.....	87
Production Areas.....	87
Quality Control Areas	88
Sanitation and Hygiene	89

CHAPTER 9

**GOOD MANUFACTURING PRACTICES (GMP) - Part II
(Equipment and Raw Materials)**

Guidelines for Equipment.....	90
Materials.....	91
General	91
Starting Materials.....	91

Packing Materials.....	93
Intermediate and Bulk Products.....	93
Finished Products.....	93
Rejected, Recovered, Reprocessed and Reworked Materials.....	93
Recalled Products.....	94
Returned Goods.....	94
Reagents and Culture Media.....	94
Reference Standards.....	94
Waste Materials.....	95
Miscellaneous.....	95

CHAPTER 10

**GOOD MANUFACTURING PRACTICES (GMP) - PART III
(Documentation and Records)**

Documentation.....	96
General.....	97
Documents Required.....	98
Specifications and Testing Procedures.....	98
Specifications for Starting and Packaging Materials.....	99
Specifications for Intermediate and Bulk Products.....	99
Specifications for Finished Products.....	99
Master Formulae.....	100
Packaging Instructions.....	100
Batch Processing Records.....	101
Batch Packaging Records.....	102
Standard Operating Procedures (SOPs) Records.....	103

CHAPTER 11

**GOOD MANUFACTURING PRACTICES (GMP) - PART IV
(Good Practices in Production and Quality Control,
Quality Audits and Complains)**

Good Practices in Production.....	107
Prevention of Cross-Contamination and Bacterial Contamination during Production.....	107

(xx) **Contents**

Processing Operations	108
Packaging Operations.....	109
Good Practices in Quality Control	110
Control of Starting Materials and Intermediate, Bulk and Finished Products.....	112
Test Requirements.....	113
Batch Record Review	113
Stability Studies.....	114
Complaints	114
Product Recalls.....	115
Self-Inspection and Quality Audits	116
Quality Audit.....	117
Supplier's Audits and Approval.....	117

CHAPTER 12

**PHARMACEUTICAL PACKAGING AND
QUALITY CONTROL TESTS OF PACKAGING MATERIALS**

Pharmaceutical Packaging.....	119
Containers and Closures.....	120
Desirable Features of Containers and Closures.....	120
Types of Pharmaceutical Packaging.....	121
Packaging Materials	121
Glass	121
Composition of Glass	122
Manufacturing of Glass	122
Factors to be Considered While Selecting Glass as Packaging Materials	123
Tests for Glass Containers.....	125
Test for Hydrolytic Resistance: Inner Surface Test (Test A)	125
Powdered Glass Test: Glass Grain Test (Test B)	126
Etching Test: Surface Treatment Test (Test C).....	126
Water Attack Test.....	127
Spectral Transmission	127
Plastic as a Container Material.....	128

Plastic Materials.....	129
Properties of Plastics to be Considered.....	130
Tests for Plastic.....	132
Leak Test.....	132
Collapsibility Test.....	132
Clarity of Aqueous Extract Test.....	132
Non-Volatile Residue Test.....	133
Biological Test.....	133
Intracutaneous Test.....	133
Closures.....	134
Rubber Closures.....	134
Tests for Rubber Closures.....	135
Test Procedures.....	135
Light Absorption.....	136
Reducing Substances.....	136
Residue on Evaporation.....	137
Volatile Sulphides.....	137
Fragmentation Test.....	137
Self-Sealability.....	138
Biological Tests.....	138
Extraction Containers.....	138
Light Absorption.....	139

CHAPTER 13

GOOD LABORATORY PRACTICES (GLP)

Introduction (General Provisions).....	142
Definitions.....	142
Inspection of a Testing Facility.....	143
Organization and Personnel.....	144
Personnel.....	144
Testing Facility Management.....	144
Study Director.....	145
Quality Assurance Unit.....	145
Facilities.....	146

(xxii) Contents

Equipment	148
Maintenance and Calibration of Equipment.....	148
Testing Facilities Operation	148
Reagents and Solutions	149
Animal Care	149
Test and Control Articles	150
Test and Control Article Handling	151
Protocol and Conduct of a Nonclinical Laboratory Study Protocol	152
Conduct of a Nonclinical Laboratory Study.....	153
Records and Reports.....	153
Disqualification of Testing Facilities	154
Purpose.....	154
Grounds for Disqualification.....	155
Final Order on Disqualification.....	155
Actions upon Disqualification.....	156
Alternative or Additional Actions to Disqualification	157
Suspension or Termination of a Testing Facility by a Sponsor.....	157
Reinstatement of a Disqualified Testing Facility	158

CHAPTER 14

**CALIBRATION AND VALIDATION OF ANALYTICAL
INSTRUMENTS**

Introduction	159
Calibration.....	160
Need for Calibration.....	160
Validation	160
Calibration of UV-VIS spectrophotometer	160
Calibration of IR Spectrophotometer	163
Calibration of Spectrofluorimeter	163
Calibration of HPLC	163
Calibration of Gas Chromatography	166
Calibration of Balance.....	169

General Principles of Analytical Method Validation 169
System Suitability 170
Forced Degradation Studies 171
Assay 172

CHAPTER 15

WAREHOUSING AND MATERIALS MANAGEMENT

Warehousing..... 175
Benefits of Ware Housing..... 176
Types of Warehouses 176
Good Warehousing Practices of Pharmaceuticals..... 178
cGMPs Related to Warehousing 178
Materials Management..... 179
Challenges of Material Management 181
Organization of Material Management 181
Purchasing 182
Importance of Purchasing..... 182
Objectives of Purchasing..... 182
Purchasing Cycle..... 183
Ethics in Purchasing 184
Value Analysis (Value Engineering)..... 185
Inventory Management 185
Objectives of Inventory 185
Benefits of Inventory Management..... 186
