PHARMACOLOGY

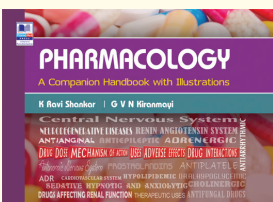

Advanced Pharmacology, 2nd Ed.

NEW

Bikash Medhi and Ajay Prakash

Contents: Section – I 1. Essential Medicines 2. Medication Errors 3. Chronopharmacology: Diurnal Variation of Drug Action 4. Over the Counter (OTC) Drugs 5. Rational use of Drugs 6. Self Medication 7. Drug Information Unit (DIU) 8. Drug Compliance 9. Direct-to-Consumer Advertising: Benefaction or Affliction 10. Orphan Drugs: from Development to Market 11. Drug Label 12. P-Drug 13. Drug Price 14. Clinical Relevance of Drug Isomerism (Enantiopure Drugs) 15. Counterfeit Medicines 16. Drug and Sports 17. Expired Drugs 18. Drug Lag 19. Drug Policy Different Status in India 20. Narcotics 21. Drug and Off-Label Use Section – II 22. Drugs used in Pregnancy 23. Drugs uses In Pediatrics 24. Drugs Uses in Geriatrics 25. Drug and Hepatic Dysfunction 26. Drug and Renal Dysfunction 27. Drug and Malnutrition 28. Clinical Implication of Fixed Dose Combinations (FDC) 29. Drug-Drug Interactions 30. Natural Products and Drug Interaction 31. Clinical Relevance to Drug Interactions 32. Antibiotic Prophylaxis in Surgery Section – III 33. Regenerative Medicine 34. Nanomedicines 35. Computer Aided Drug Discovery (CADD): A QSAR Approach 36. Electronic Prescribing (eRx) 37. Medication Reconciliation 38. Tools for Patient Safety: Pharmacovigilance, Biovigilance, Materiovigilance 39. Biologics and Biosimilars Section - IV 40. Biological Passport 41. Drug in Legal Aspect 42. Drug-Excipient Interactions 43. Nutraceuticals 44. Virtual Clinical Trials 45. Metagenomics 46. Therapeutic use Exemption 47. Systems Pharmacology 48. Drugs and Radiation: Interaction to Therapy 49. Forensic Pharmacy 50. Drug Repositioning

Pharmacology: A Companion Handbook with Illustrations

Revised Edition

K. Ravi Shankar and G. V. N. Kiranmayi

Contents: 1. Drugs Affecting Autonomic Nervous System, 2. Drugs Affecting Central Nervous System, 3. Drugs Affecting Cardiovascular System, 4. Drugs Affecting Haemostasis and Thrombosis, 5. Drugs Affecting Renal Function, 6. Drugs Affecting Endocrine System, 7. Drugs Affecting Respiratory System, 8. Drugs Affecting Gastrointestinal Tract, 9. Drugs Used for Other Therapies, 10. Biogenic Amines and Polypeptides, 11. Chemotherapeutic Drugs, 12. Drugs Used in Skin and Eye Disorders, 13. Miscellaneous.

Rpt. 2018 | 9789383635894 | BSPMP | 510 pp | PB | Rs. 225.00

Pharmacology: A Comprehensive Approach

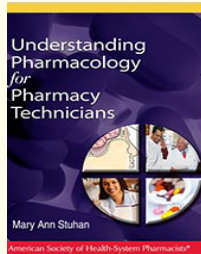

K. Ravi Shankar and G. V. N. Kiranmayi

Contents: 1. Branches and Divisions of Pharmacology, 2. Pharmacokinetics of Drugs, 3. Drug Receptors and Pharmacodynamics, 4. Drug Biotransformation, 5. General Considerations of Pharmacology, 6. Cholinergic Drugs, 7. Muscarinic Receptor Blocking Drugs, 8. Adrenergic Drugs, 9. Adrenergic Blocking Drugs, 10. Ganglionic Stimulating and Blocking Agents, 11. Skeletal Muscle Relaxants, 12. General Considerations of Central Nervous System, 13. Neurodegenerative Diseases, 14. General Anaesthetics, 15. Sedative Hypnotics and Anxiolytic Drugs, 16. Neuroleptics, 17. Antidepressants, 18. Antiepileptic Drugs, 19. Opioid Analgesics, 20. Non Steroidal Anti-inflammatory Drugs, 21. CNS Stimulants, 22. Drug Dependence and Drug Abuse, 23. Local Anaesthetics, 24. Drugs Used in Heart Failure, 25. Antiarrhythmic Drugs, 26. Antianginal Drugs, 27. Antihypertensives, 28. Hypolipidemic Drugs, 29. Drugs and Blood Coagulation, 30. Hemopoietic Drugs and Plasma Volume Expanders, 31. Diuretics and Antidiuretics, 32. Pituitary Hormones, 33. Thyroid, Parathyroid Hormones and Antithyroid Drugs, 34. Insulin and Oral Hypoglycemic Drugs, 35. Estrogens, Progestins and Androgens, 36. Adrenal Hormones 37. Drugs Used to Treat Asthma, 38. Drugs Used to Treat Allergic Rhinitis, 39. Drugs Used to Treat Cough, COPD and Cystic Fibrosis 40. Drugs Used to Treat Peptic, Ulcer Disease, 41. Drugs Used in Constipation, 42. Emetics and Antiemetic Drugs, 43. Drugs Used in Diarrhoea, 44. Digestants and GERD, 45. Drugs Used to Treat Erectile Dysfunction, 46. Drugs Used to Treat Osteoporosis, 47. Drugs Used to Treat Obesity, 48. Histamine and Antihistamines, 49. 5- Hydroxytryptamine, its Agonists and Antagonists, 50. Angiotensin, Kinins, Leukotrienes, Prostaglandins, Cytokines, Nitric Oxide and Platelet activating Factor Angiotensin 51. Sulfonamides, Trimethoprim and Cotrimoxazole, 52. Cell Wall Inhibitors, 53. Protein Synthesis Inhibitors, 54. Quinolones and Urinary Antiseptics, 55. Antimycobacterials, 56. Antifungal Drugs, 57. Antiprotozoal Drugs, 58. Anthelmintic Drugs, 59. Antiviral Drugs, 60. Anticancer Drugs, 61. Antiseptics and Disinfectants, 62. Drugs Used to Treat Glaucoma, 63. Drugs Used to Treat Psoriasis and Acne Vulgaris 64. Introduction to Toxicology, 65. Heavy Metal Intoxication and Chelators, 66. Management of the Poisoned Patient, 67. Drugs Used to Treat Rheumatoid Arthritis and Gout, 68. Drugs that Affect Uterine Function, 69. Immunosuppressants and Immunostimulants, 70. Vitamins, Minerals and Antioxidants, 71. Drug Therapy in Pregnancy, 72. Drugs Use during Lactation, 73. Multiple Choice, Linked and Match the Following Questions of Previous GATE and GPAT Examinations along with Answers, Appendix – 1: Gene Therapy, Appendix 2: Drug Discovery and Development, Appendix – 3: Abnormal Actions of Drugs, Appendix – 4: Classifications of Medications, Appendix – 5: Drug Interactions.

What Everyone should know about Medicines 2nd Ed.

Guru Prasad Mohanta

Contents:Part A: General Topics 1. You as Consumer of Medicine Use (Consumers' Rights) 2. You must know about your Medicine 3. Names of Medicines (Medicine -What is in a Name?) 4. Types of Medicines (Dosage Forms) 5. Branded vs Generic Medicines 6. Buying Medicines 7. Medicines' Price 8. Expiry Date of Medicines 9. Storing Medicines at Home 10. Laws and Regulations Governing Medicines 11. Rational use of Medicines 12. How do Medicines Work 13. Fate of Medicines in the Body (How does Body Handle Medicines?) 14. Safety of Medicines (How do you Protect Yourself?) 15. Medicines can be Toxic Too 16. Adherence to Medications 17. Missing a Dose (If you Miss a Dose ----) 18. Prescription and Non-prescription Medicines 19. Medicines for Children 20. Medicines for Elderly Persons 21. Medicines during Pregnancy (Are Medicines during Pregnancy Safe?) 22. Medicines during Breast Feeding (Avoid Medicines during Breast Feeding) 23. Development of Medicines 24. Clinical Trials 25. Be Informed before Participating in Clinical Trials 26. New Drugs: Pros and Cons 27. Drink and Medicines 28. Food and Medicines (Does Food affect Medicine?) 29. Home Medicines Kit 30. Medicines during Travel (For Safe Travel, Pack Your Medicines Too!) 31. Combination Medicines (Fixed Dose Combination Medicines – How useful they are!) 32. Advertisement on Medicines (Say No to AD Treatment) 33. Internet Medicines (e-Medicines) 34. Medicine Information Sources (Where to Get Information) 35. Patenting of Medicine 36. Patent Medicine-Battle Finally Won! 37. Use, Misuse and Abuse of Medicines 38. Use and Abuse of Medicines in Sports 39. Splitting of Tablets 40. Use of Injections 41. Jan Aushadhi for Affordable Quality Medicines 42. Off Label Use of Medicines (Pill Poppers, Wake Up!) 43. Herbal Medicines Part B: Medicine Administration 44. Orally Taking Medicines 45. Ophthalmic Medicines 46. Ear Products 47. Nasal Products 48. Metered Dose Inhalers 49. Rectally Administered Products 50. Vaginally Administered Products Part C: Individual Medicines 51. Pain and Fever Relieving Medicines 52. Gastric Acid Relieving Medicines 53. Antibiotics 54. Anti-Malaria Medicines 55. Anti-Tuberculosis Medicines 56. Anti-Asthma Medicines 57. Constipation Treating Medicines 58. Contraceptives 59. Cold and Cough Medicines 60. Anti-diabetic Medicines 61. Anti-diarrhoeal Medicines 62. Medicines for Filariasis 63. Medicines for Anaemia 64. Vaccines 65. Vitamins 66. Anti-Emetic Medicines (Medicines for Vomiting) 67. Cosmetics Use 68. Anti-High Blood Pressure Medicines 69. Medicine for Lice Treatment 70. Cholesterol Lowering Medicines 71. Probiotics 72. Others

2019 | 9789387593985 | BSPMP | 412 pp | PB | Rs. 425.00

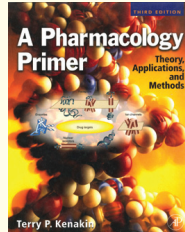

Databook for Clinical Pharmacology

Tapan Kumar Chatterjee

Contents: Introduction 1. Clinical Data Text, Clinical Data Tables 2. Pharmacokinetic Data Text, Pharmacokinetic Data Tables 3. Drug Interactions Text, Drug Interactions Tables 4. Adverse Drug Reactions (ADR) Text, Adverse Drug Reactions (ADR) Tables

2016 | 9789383635924 | BSPMP | 252 pp | PB | Rs. 450.00

PHARMACOLOGY

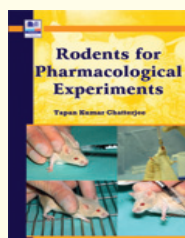

A Pharmacology Primer: Theory, Applications, and Methods, 3rd Ed.

Kenakin Terry P.

Contents: 1. What is Pharmacology 2. How Different Tissues Process Drug Response 3. Drug-Receptor Theory 4. Pharmacological Assay Formats: Binding 5. Agonists: The Measurement of Affinity and Efficacy in Functional Assays 6. Orthosteric Drug Antagonism 7. Allosteric Drug Antagonism 8. The Process of Drug Discovery 9. Pharmacokinetics 10. Target- and System-Based Strategies for Drug Discovery 11. "Hit" to Drug: Lead Optimization 12. Statistics and Experimental Design 13. Selected Pharmacological Methods 14. Exercise in Pharmacodynamics and Pharmacokinetics

Rpt. 2011 | 9789380931524 | BSPELS | 389 pp | PB | Rs. 1795.00

PHARMACOLOGY PRACTICAL

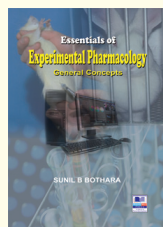

Rodents for Pharmacological Experiments

Tapan Kumar Chatterjee

PCI Recommended MPL103

Contents: SECTION - A: GENERAL DISCUSSION ABOUT MICE AND RATS • The Laboratory Mouse • Data Related to Mice (Tables) • The Laboratory Rat • Data Related to Rats (Tables) • SECTION - B EXPERIMENTS ON MICE AND RATS • Instruments used for Mice and Rats Experiments • Drug Doses used on Laboratory Mice and Rats

Rpt. 2018 | 9789383635313 | BSPMP | 304 pp | PB | * Rs. 395.00

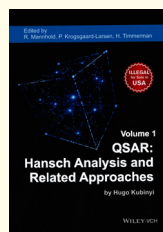

Essentials of Experimental Pharmacology General Concepts

DRUG DISCOVERY

Target Discovery and Validation Reviews and Protocols, Vol. 2

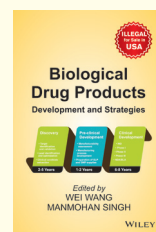

Mouly Sioud

PCI Recommended **MPL103**

Contents: 1. Druggable Signaling Proteins 2. DNA Methylation and Histone Modifications in Patients With Cancer: Potential Prognostic and Therapeutic targets 3. Wnt Signaling as a Therapeutic Target for Cancer 4. The NG2/HMP Proteoglycan as a Cancer Therapeutic Target 5. Heterotrimeric G Proteins and Disease 6. High-Mobility Group Box-1 Isoforms as Potential Therapeutic Targets in Sepsis 7. Antisense Oligonucleotides: Target Validation and Development of Systematically Delivered Therapeutic Nanoparticles 8. Nucleic Acid-Based Aptamers as Promising Therapeutics in Neoplastic Diseases 9. Guidelines for the Selection of Effective Short-Interfering RNA Sequences for Functional Genomics 10. Suppression of Apoptosis in the Liver by Systemic and Local Delivery of Small-Interfering RNA 11. Target Validation Using RNA Interference in Solid Tumors 12. Validation of Telomerase and Survivin as Anticancer Therapeutic Targets Using Ribozymes and Small-Interfering RNAs 13. Collagen-Induced Arthritis in Mice: A Major Role for Tumor Necrosis factor- α 14. Novel Opportunities for Therapeutic Targeting in Systemic Autoimmune Diseases 15. Considerations for Target Validation and Industrial Approaches 16. Regulatory RNAs: Future Perspectives in Diagnosis, Prognosis, and Individualized Therapy 17. Treatment Options and Individualized Medicine

Rpt. 2018 | 9781588298904 | BSPPSR | 354 pp | HB | Rs. 5995.00

Biological Drug Products: Development and Strategies

Wei Wang and Manmohan Singh

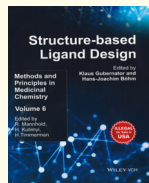

PCI Recommended **MRA202**

Contents: Part 1. General Aspects 1. An Overview of Discovery and Development Process for Biologics 2. Nonclinical Safety Assessment of Biologics, Including Vaccines 3. Clinical Assessment of Biologics Agents 4. Key Regulatory Guidelines for Development of Biologics In The U.S. And Europe 5. Landscape and Consideration of Intellectual Property for Development of Biosimilars 6. Scientific Aspects of Sterility Assurance, Sterility, Asepsis, and Sterilization Part 2. Proteins/Peptides 7. Cell Culture Processes in Monoclonal Antibody Production 8. Protein/Peptide Purification and Virus Reduction 9. Chemical and Genetic Modification 10. Analytical Characterization of Proteins/Peptides 11. Protein/Peptide Formulation Development 12. Regulatory Strategies and Lessons in the Development of Biosimilars Part 3. Vaccines 13. Vaccine Development – History, Current Status and Future Trends 14. Role and Application of Adjuvants and Delivery Systems in Vaccines 15. Methods for Characterizing Proteins in Aluminum Adjuvant Formulations Part 4. Novel Biologics 16. The State of the Art and Future of Gene Medicines Chapter 17. Nucleic Acid Vaccines 18. Multifunctional Polymeric Nano-Systems for RNA Interference Therapy 19. Advent and Maturation of Regenerative Medicine Part 5. Product Administration/Delivery 20. Conventional and Novel Container Closure/Delivery Systems 21. Controlled-Release Systems for Biologics 22. Routes of Delivery for Biological Drug Products

Rpt. 2018 | 9788126577606 | BSPJW | 744 pp | HB | Rs. 5995.00

DRUG DISCOVERY

Structure-based Ligand Design

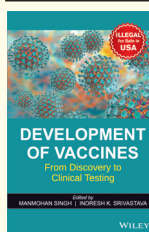

Klaus Gubernator, Hans-Joachim Böhm, Raimund Mannhold, Hugo Kubinyi and Hendrik Timmerman

PCI Recommended **MPL203**

Contents: 1. Rational Design of Bioactive Molecules 2. Examples of Active Areas of Structure-Based Design 3. From Renin to HIV-1 Protease 4. Zinc Endoproteases: A Structural Superfamily 5. Structure-Based Design of Potent Beta-Lactamase Inhibitors 6. Inhibition of Sialidase 7. Rational Design of Inhibitors of HIV-1 Reverse Transcriptase 8. New Computational Approaches to Predict Protein-Ligand Interactions 9. The Future of Structure-Based Design: A Worthy Precept?

Rpt. 2019 | 9788126579587 | BSPJW | 168 pp | HB | Rs. 2995.00

Development of Vaccines: From Discovery to Clinical Testing

Manmohan Singh and Indresh K. Srivastava

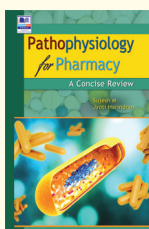

PCI Recommended **MRA202**

Contents: Part 1 Immunogen Design 1. Microbial Vaccine Design: The Reverse Vaccinology Approach 2. Design and Development of Recombinant Vaccines With Viral Properties 3. Tools for Vaccine Design: Prediction and Validation of Highly Immunogenic and Conserved Class II Epitopes and Development of Epitope-Driven Vaccines Part 2 Vaccine Platforms 4. Virus-Like Particle Vaccines: Advantages and Challenges 5. Design Platforms of Nanocapsules for Human Therapeutics or Vaccines 6. Designing Immunogens for Vaccine Development in Reference To HIV 7. Expression and Purification of Recombinant Proteins for Vaccine Applications 8. DNA Vaccines for Infectious Disease 9. Developing Stable Cell Lines for the Production of Vaccine Antigens Part 3 Characterization of Immunogens 10. Spectroscopy of Vaccines 11. Biophysical Characterization of Protein Antigens within Vaccine Formulations Part 4 Formulation Optimization and Stability Evaluation 12. Structural Characteristics Predict the Stability of HIV 13. Selection of Optimal Adjuvants and Product Factors that Affect Vaccine Immunogenicity 14. Lyophilization and Stabilization of Vaccines 15. Effect of Buffers and Stabilizers on Vaccine Stability and Efficacy Part 5 Clinical and Manufacturing Issues 16. Selection of Final Product Containers 17. From the Lab to the Clinic: Filing A Phase I Ind for an Investigational Vaccine

The Nature of Disease: Pathology for the Health Professions

Thomas H. McConnell

Geared to allied health students and written in an engaging narrative style, this pathology text is an easy-to-read primer on the etiology and pathogenesis of human disease. This unique book provides a basic understanding of pathology without microscopic pathology and molecular biology details that health professions students do not need. Each chapter reviews normal anatomy and physiology, explains the development of common diseases, lists the major determinants of disease, presents clinical case studies, and includes end-of-chapter problem-solving questions. A bound-in CD-ROM includes animations and a 250-question quiz. Faculty resources include a 2,000-question test bank and PowerPoint slides with lecture notes. Online Tutoring powered by Smarthinking-Free online tutoring, powered by Smarthinking, gives students access to expert nursing and allied health science educators whose mission, like yours, is to achieve success.

CLINICAL TRIALS AND CLINICAL RESEARCH

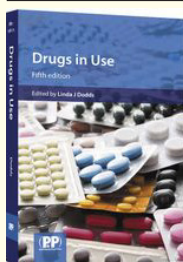

Clinical Pharmacy Pocket Companion, 2nd Ed.

Gray, Alistair Howard et al.

The Clinical Pharmacy Pocket Companion is a comprehensive A-Z handbook containing a range of tools, suggestions and advice for administering effective pharmaceutical care.

This book is an invaluable tool for practising pharmacists, medical staff, clinical technicians and pharmacy students, providing information on obscure problems as well as routine queries.

2015 | 9780857111579 | BSPPHP | PB | Rs. 2495.00

CLINICAL TRIALS AND CLINICAL RESEARCH

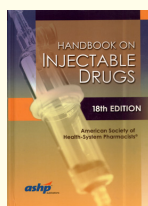

Concise Clinical Pharmacology

Greenstein Ben & Greenstein Adam

Contents: 1. Introduction to pharmacology 2. Sources of modern drugs 3. The use of drugs in medicine 4. The receptor concept 5. Signal transduction and the receptor families 6. The measurement of drug activity I: Bioassay 7. The measurement of drug activity II: Dose-response relationship 8. The measurement of drug activity III: Clinical and human pharmacology and clinical trials 9. Principles of drug absorption I: basic principles 10. Basic principles of drug absorption II: Membrane penetration 11. Drug distribution 12. Drug metabolism 13. Drug excretion 14. Renal drug excretion 15. Biliary drug excretion 16. Determination of drug dosage regimen 17. The autonomic nervous system I: Introduction 18. The autonomic nervous system II: The sympathetic division 19. The autonomic nervous system II: The parasympathetic division 20. The autonomic nervous system IV: Receptor and drugs 21. Cardiovascular system I: Stroke 22. Cardiovascular system II: Essential heart function 23. Coagulation I: Coagulation cascade 24. Coagulation II: Coagulation in vivo 25. Coagulation III: Haemostasis 26. Anticoagulants I: Heparin 27. Anticoagulants II: Warfarin 28. Antiplatelet drugs 29. Thrombolytic and anti-fibrinolytic drugs 30. Acute coronary syndromes I: Myocardial infarction 31. Acute coronary syndromes II: Unstable angina 32. Transient ischaemic attack 33. Dysrhythmias I: causes of dysrhythmias 34. Dysrhythmias II: Vaughan Williams' classification of anti-dysrhythmic drugs 35. Dysrhythmias III: Other anti-dysrhythmic drugs 36. Hypertension I: Guidelines for treatment 37. Hypertension II: Anti-hypertensive drugs 38. Congestive heart failure 39. Infective endocarditis 40. Disorders of lipid metabolism I: Lipid metabolism 41. Disorders of lipid metabolism II: Lipid-lowering drugs 42. Non-steroidal anti-inflammatory drugs (NSAIDs) 43. Therapeutic use of aspirin 44. Other non-steroidal anti-inflammatory drugs (NSAIDs) 45. Paracetamol 46. Steroidal anti-inflammatory drugs I: Cortisol 47. Steroidal anti-inflammatory drugs II: Therapeutic use 48. Steroidal anti-inflammatory drugs III: Unwanted effects 49. Rheumatoid arthritis I: Overview 50. Rheumatoid arthritis II: Specific drugs 51. Inflammatory polyarthritides I: Introduction 52. Inflammatory polyarthritides II: SLE 53. Inflammatory polyarthritides III: Raynaud's phenomenon and scleroderma 54. Inflammatory polyarthritides IV: Gout 55. The perception of pain-the gate theory 56. Palliative care 57. Opioids I: Introduction 58. Opioids II: Clinical use 59. Idiopathic Parkinson's disease I: Introduction 60. Idiopathic Parkinson's disease II: Treatment I 61. Idiopathic Parkinson's disease III: Treatment II 62. Idiopathic Parkinson's disease IV: Treatment III 63. Epilepsy I: Introduction 64. Epilepsy II: Occurrence and implications of epilepsy 65. Epilepsy III: Theories of brain mechanisms underlying seizures 66. Epilepsy IV: Treatment I 67. Epilepsy V: Treatment II 68. Epilepsy VI: Treatment III 69. Epilepsy VII: Treatment IV 70. Headache I: Non-migraine headache 71. Headache II: Migraine 72. Headache III: Facial pain 73. Meningitis and encephalitis 74. General anaesthetics I: Premedication 75. General anaesthetics II: Induction of anaesthesia 76. General anaesthetics III: Maintenance of anaesthesia 77. General anaesthetics IV: Muscle relaxants 78. Antidepressants: Treatment of depression with drugs 79. Treatment of anxiety (anxiolytic drugs) 80. Anti-psychotic drugs 82. Dementia: Alzheimer's disease 83. Drug addiction 84. Local anaesthetics 85. Peripheral neuropathies 86. Myasthenia gravis and Lambert-Easton myasthenic syndrome 87. Endocrine control systems 88. Treatment of growth disorders 89. Treatment of thyroid disorders 90. Treatment of adrenal disorders 91. The sex hormones 92. Oral contraceptives 93. Hormone replacement therapy 94. Drug treatment of breast cancer 95. Ovarian and prostate cancer 96. Type I diabetes mellitus (IDDM) 97. Type II diabetes mellitus (MIDD) 98. Osteoporosis 99. Gastro-oesophageal reflux disease (GERD) 100. Gastric and duodenal ulceration and H. pylori 101. Pancreatitis 102. Small bowel disorders: Coeliac disease and carcinoids 103. Diarrhoea and malabsorption 104. Large bowel disorders I: Ulcerative colitis 105. Large bowel disorders II: Crohn's disease 106. Constipation 107. Gastrointestinal infections I: Bacterial infections 108. Gastrointestinal infections II: Protozoan infections 109. Gastrointestinal infections III: Worm

infections 110. Drugs and the liver I: Hepatitis 111. Alcoholism and the liver 112. Asthma I: Introduction 113. Asthma II: Anti-asthmatic drugs 114. Chronic obstructive pulmonary disease 115. Tuberculosis I: Principles of treatment 116. Tuberculosis II: Drugs 117. Pneumonia 118. Cystic fibrosis 119. Genitourinary systems I: Introduction 120. Genitourinary systems II: Summary of tubule transport systems and sites of diuretic action 121. Genitourinary systems III: Clinical uses of diuretics 122. Genitourinary systems IV: Renal diseases I-acute renal failure 123. Genitourinary systems V: Renal diseases II-chronic kidney disease 124. Genitourinary systems VI: Urinary tract infections 125. Genitourinary systems VII: Urinary incontinence 126. Genitourinary systems VIII: Sexually transmitted infections I-gonorrhoea and syphilis 127. Genitourinary systems IX: Sexually transmitted infections II-HIV and AIDS I 128. Genitourinary Systems X: Sexually transmitted infections III-HIV and AIDS II

**CLINICAL TRIALS AND
CLINICAL RESEARCH**

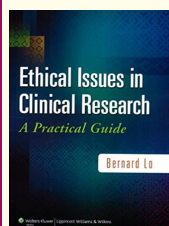

**Introduction to Statistics
in Pharmaceutical
Clinical Trials**

Durham Todd A & Turner J Rick

Contents: 1. The Discipline of Statistics: Introduction and Terminology 2. The Role of Clinical Trials in New Drug Development 3. Research Questions and Research Hypotheses 4. Study Design and Experimental Methodology 5. Data, Central

Tendency and Variation 6. Probability, Hypothesis Testing and Estimation 7. Early-phase Clinical Trials 8. Confirmatory Clinical Trials: Safety Data I 9. Confirmatory Clinical Trials: Safety Data II 10. Confirmatory Trials: Analysis of Categorical Efficacy Data 11. Confirmatory Clinical Trials of Analysis of Continuous Efficacy Data 12. Additional Statistical Considerations in Clinical Trials 13. Concluding Comments: Appendix: References

2008 | 9780853697145 | BSPPHP | PB | 240 pp | Rs. 2750.00

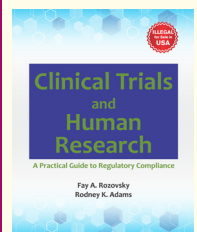

**Ethical Issues in Clinical
Research:
A Practical Guide**

Bernard Lo MD

Contents: I. Ethical and Regulatory Background II. The Researcher-Participant Relationship III. Responsible Conduct of Research IV. Vulnerable Participants V. Ethical Issues in Specific Types of Research

2009 | 9780781788175 | BSPWKP | PB | 300 pp | Rs. 4495.00

**Clinical Trials and
Human Research:
A Practical Guide to
Regulatory Compliance**

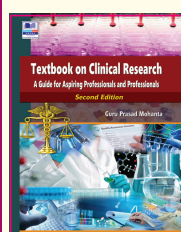

Fay A. Rozovsky, Rodney K. Adams

PCI Recommended MPH104 | MRA103

Contents: 1. The Evolution of Human Experimentation Regulation 2. Current Federal Regulation and Agencies Involved in Human Research 3. State Regulation of Human Research 4. Selection and Recruitment of Research Subjects 5. Informed Consent in Clinical Trials 6. Confidentiality of Clinical Trials Information 7. The Investigator 8. Research Protocols 9. The Institutional Review Board 10. Patient Safety in Clinical Trials Research 11. Human research Under the Food, Drug & Cosmetic Act 12. Behavior Research 13. Multisite and Collaborative Studies 14. Medical Malpractice Liability in Human Research 15. Quality Improvement, Accreditation, and Risk Management in Clinical Trials 16. Corporate Compliance and Human Research 17. Ethics in Human research 18. International Research

TOXICOLOGY

Modern Toxicology: An Authoritative and Comprehensive Resource for Toxicology, 3 Vol. set

P. K. Gupta

Salient Features

- Chapters are fully illustrated and extensively referenced
- Language is simple to follow and format is designed to easily understand
- Represents the collective expertise of several internationally known toxicologists
- Offers a unique text/reference source for those involved in various specialized sections of toxicology

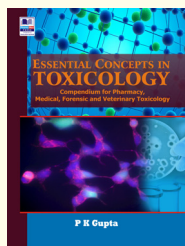

TOXICOLOGY

- Useful to those who involved in biomedical areas and Agriculture, Food Technology, Pharmacy, Veterinary Medicine and related disciplines
- Also Biologists, Pathologists, Ecologists and Environmentalists will find this volume as useful reference book

Contents: VOLUME I Basis of Organ and Reproduction Toxicity:

1. Introduction and Brief History 2. Natural Laws Concerning Toxicology 3. Absorption, Distribution and Excretion of Xenobiotics 4. Biotransformation of Xenobiotics 5. Kinetic - analysis of Xenobiotics 6. Behavioral and Neurotoxicity 7. Pulmonary Toxicology 8. Hepatic - Toxicity 9. Reproduction Toxicity and Teratogenicity 10. Carcinogenicity and Mutagenicity
VOLUME II The adverse Effects of Xenobiotics: 1. Pesticides 2. Metals 3. Food Additives: A benefit/ Risk Dilemma 4. Animal and Plant Toxins 5. Mycotoxins 6. Combustion Toxicology 7. Toxicology of Synthetic Biomaterials 8. Environmental Toxicology
VOLUME III Immuno and Clinical Toxicology: 1. Immune System 2. Hypersensitivity and Occupational Allergy 3. Immuno Suppression 4. Principles of Non-specific therapy 5. Mechanism of Antidotal Therapy 6. Common Poisons

2010 | 9788191019209 | BSPMP | HB | 3 Vol. Set | Rs. 3495.00

Essential Concepts in Toxicology:

Compendium for Pharmacy, Medical, Forensic and Veterinary Toxicology

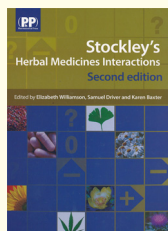

P. K. Gupta

Co-Published with Elsevier

Contents: 1. Introduction and Historical Background 2. Definitions and Scope of Toxicology 3. Classification of Poisons / Toxicants 4. Factors Affecting Toxicity 5. Natural Laws Concerning Toxicology 6. Hazard and Risk Assessment 7. Absorption, Distribution and Excretion of Toxicants 8. Bio-transformation 9. Principles and Basic Concepts of Toxicokinetics
Unit 3 Regulatory Requirements and GLP 10. Toxicological Testing: Genesis 11. Toxi-cological Testing: in vivo Systems 12. Toxicological testing: in vitro models 13. Genotoxicity 14. Preclinical Toxicological Investigations of Pharmaceutical Products 15. Preclinical safety evaluation of biotechnology-derived products 16. Pre-clinical Regulatory Toxicology for Biomaterials and Medical Devices
Unit 4 Toxic Agents 17. Toxic Effects of Pesticides (Agrochemicals) 18. Toxic Effects of Metals 19. Toxic Effects of Non-Metallics 20. Neurotoxic Agents 21. Toxic Effects of Cardiac Poisons 22. Toxic Effects of Asphyxiants 23. Toxic Effects of Caustics (Corrosives) 24. DRUG TOXICITY, DEPENDENCE AND ABUSE 25. Toxic Effects of Domestic Chemicals 26. TOXIC Effects of Poisonous Plants 27. Food Poisoning and Poisonous Foods 28. Poisons of Animal Origin 29. Chemical FOOD Poisoning 30. Health Effects of Radioactive materials
Unit 5 Applications of Toxicology 31. Basic Concepts of Forensic Toxicology 32. Analytical Toxicology 33. Clinical Toxicology 34. Treatment of Poisoning

PHARMACY PRACTICE

Practical Drug Safety from A to Z

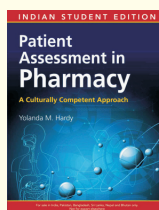

Barton Cobert and Pierre Biron

PCI Recommended BP805

It is aimed at drug safety professionals working in the pharmaceutical and allied industries, regulatory agencies, clinical research organizations, students and their teachers in medicine, nursing, and pharmacy, those who make decisions regarding drug therapy, whether in public health, industry, or clinical practice.

This book should be on the shelf of anyone in the field and especially those preparing for courses, seminars, and conferences on drug safety. In fact we sincerely hope it will foster the teaching of pharmacovigilance in medical and pharmacy schools and encourage the publication of much-needed updated textbooks in drug-induced diseases.

Rpt. 2017 | 9789384323349 | BSPJB | 424 pp | PB | Rs. 995.00

Patient Assessment in Pharmacy: A Culturally Competent Approach

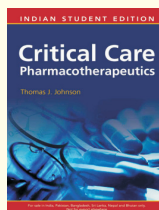

Yolanda M. Hardy

Contents: Unit I: Preparing for the provision of Culturally Competent Pharmaceutical Care **1.** The Case for Culturally Competent Care in Patient Assessment

Unit II: The Culturally Competent Patient Interview and History **2.** The Patient Interview **3.** Conducting a Culturally Competent Patient History

Unit III: The Culturally Competent Physical Assessment **4.** Mental Status and Behavior Assessment **5.** Dermatological Assessment **6.** Head and Neck Assessment **7.** Cardiovascular Assessment **8.** Pulmonary Assessment **9.** Neurologic Assessment **10.** Peripheral Vascular Assessment **11.** Musculoskeletal Assessment **Unit IV:** The Culturally Competent Care Plan **12.** Patient Centered, Culturally Appropriate Care Models

PHARMACY PRACTICE

INDIAN STUDENT EDITION

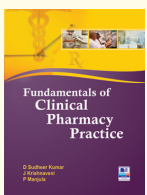

**Patient Communication for Pharmacy
A Case-Study Approach
on Theory and Practice**

Min Liu and Lakesha M. Butler

Contents: 1. Pharmacy Patient Communication: A Transactional Model 2. Pharmacist Patient Relationship: A Collaborative Approach 3. Empathy and Patient

Communication 4. Motivational Interviewing 5. Medication Adherence and Patient Communication 6. Cultural Competency and Patient Communication 7. Communicating with LEP (Limited English Proficiency) Patients 8. Communication with Patients with Low Health Literacy 9. Communicating with Young Patients 10. Communicating with Older Patients 11. Communication with Patients with Physical Disabilities 12. Environmental and Psychological Barriers to Communication 13. Communicating about Emotionally Charged Topics 14. Patient Communication on Sensitive Topics 15. Interprofessional Communication 16. Pharmacy Communication in Diverse Settings

Rpt. 2017 | 9789384323295 | BSPJB | 228 pp | PB | Rs. 895.00

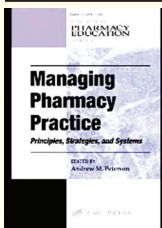

Fundamentals of Clinical Pharmacy Practice

**D. Sudheer Kumar,
J. Krishnaveni and P. Manjula**

Contents: 1. Introduction to Clinical Pharmacy 2. Ambulatory Pharmacy 3. Patient Counseling 4. Medication

History Review 5. Ward Round Participation 6. Monitoring Drug Therapy 7. Therapeutic Drug Monitoring 8. Drug Utilization Review 9. Drug Information Services 10. Drug-Drug Interactions 11. Drug – Food / Herb Interactions 12. Drug – Lab Interactions 13. Medication Errors 14. Adverse Drug Reactions and Management 15. Total Parenteral Nutrition 16. Drugs in Pregnancy and Lactation 17. Technology and Automation 18. Pharmacoeconomics 19. Pharmacoepidemiology 20. Clinical Laboratory Tests and Their Significance

Rpt. 2018 | 9788191019278 | BSPMP | 536 pp | PB | * Rs. 525.00

**Managing Pharmacy Practice:
Principles, Strategies, and
Systems**

Andrew M. Peterson

Contents: 1. Introduction to Management 2. Systems theory and Management 3. Organizational Structures

4. Managing Professionals 5. Leadership 6. Employee Recruitment, Retention, and Compensation 7. Employee Coaching, Evaluation, and Discipline 8. Conflict Management 9. Accounting Principles 10. Purchasing Pharmaceuticals 11. Principles of Inventory Management

Rpt. 2010 | 9780849314469 | BSPT&F | 518 pp | PB | * Rs. 1495.00

**Clinical Pharmacy
and Therapeutics, 4th Ed.**

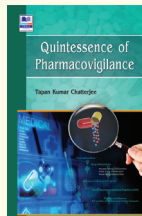

**Eric T. Herfindal, Dick R. Gourley
and Linda Lloyd hart**

PCI Recommended MPL102 | MPP202

Contents: Section 1: Nutrition, Section 2: Diseases of Blood, Section 3: Endocrine and metabolic diseases, Section 4: Renal Diseases, Section 5: Gastrointestinal Diseases, Section 6: Rheumatic Diseases, Section 7: Respiratory Diseases, Section 8: Cardiovascular Disorders, Section 9: Skin Diseases, Section 10: Diseases of the eye, Section 11: Neurologic Disorders, Section 12: Psychiatric Disorders, Section 13: Infectious Diseases, Section 14: Neoplastic Diseases, Section 15: General

Rpt. 2018 | 9788184735611 | BSPWK | 1096 pp | PB | Rs. 3495.00

PHARMACOVIGILANCE

**Quintessence of
Pharmacovigilance**

Tapan kumar Chatterjee

Contents: 1. Prescription Error 2. Drug Interactions 3. Adverse Drug Reaction (ADR) 4. Good Pharmacovigilance Practice (GPP) 5. Pharmacovigilance- An update of Global and Indian Scenario

Rpt. 2019 | 9789386819468 | BSPMP | 258 pp | PB | Rs. 350.00

**A Textbook of
Pharmacovigilance:
Concept and Practice**

**Guru Prasad Mohanta and
Prabal Kumar Manna**

PCI Recommended BP805

Contents: 1. Introduction, 2. Pharmacovigilance in India, 3. Methods in Pharmacovigilance, 4. Adverse Drug Reactions: Classification, Mechanisms and Susceptibility, 5. Assessment of Adverse Events' Reports, 6. Signal: Identification and Strengthening, 7. Quality Assurance in Pharmacovigilance, 8. Periodic Safety Update Reports, 9. Pharmacogenetics in Pharmacovigilance, 10. Ethical Consideration in Pharmacovigilance, 11. Global Scenario in Pharmacovigilance, 12. Pharmacovigilance of Ayurveda, Siddha and Unani Medicines, 13. Case Studies on Drugs Withdrawal, 14. Case Studies on Causality

Rpt. 2019 | 9789352300877 | BSPMP | 186 pp | PB | Rs. 250.00

PHARMACOECONOMICS

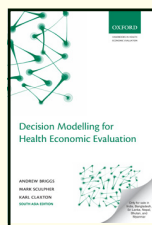

Health Economics

Jordan Braverman

Contents: 1. History of Health Care Financing in America 2. The Costs of American Health Care 3. The High Costs of Health Care: The Reasons Why 4. Physician Care 5. Prescription Drugs 6. Hospital Care 7. Medical Technology 8. Nursing Home Care 9. Home Care and Hospice Care 10. Health Care Planning 11. Private Health Insurance 12. Managed Care 13. Medicaid and Medicare

14. Health Care Fraud and Abuse 15. National Health Insurance

2010 | 9780853698678 | BSPHP | PB | 379 pp | Rs. 2495.00

**Decision Modelling
for Health Economic
Evaluation**

**Andrew Briggs, Mark Sculpher
and Karl Claxton**

PCI Recommended MPP204

Contents: 1. Paperless and Peopleless Plants: Trends in the Application of Computer Systems 2. Developing an Information System Strategy 3. Regulatory Expectations 4. IT Validation Policy 5. Demonstration GxP Compliance 6. Integrating Manufacturing Systems-A New Era in Production Control 7. Validating Enterprise Asset Management Systems 8. Validating Enterprise/Manufacturing Resource Planning Systems 9. Validating Laboratory Information Management Systems 10. Validating Electronic Document Management Systems 11. Compliance for the Corporate IT Infrastructure 12. Validating Local and Wide Area Networks 13. Maintenance and Support of Validated IT Systems 14. Auditing Suppliers of Standard Software Packages 15. Auditing Software Integrators and Hardware Manufacturers 16. Practical Implications of Electronic Signatures and Records 17. Concluding Remarks: Validation in the 21st Century

PHARMACOECONOMICS

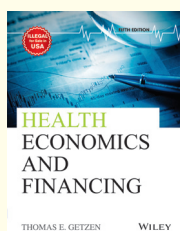

Methods for the Economic Evaluation of Health Care Programmes **NEW**

Michael F. Drummond, Mark J. Sculpher, Karl Claxton, Greg L. Stoddart and Gorge W. Torrance

PCI Recommended MPP204

Contents: 1. Introduction to economic evaluation 2. Making decisions in healthcare 3. Critical assessment of economic evaluation 4. Principles of economic evaluation 5. Measuring and valuing effects: health gains and QALYs 6. Measuring and valuing effects: contingent valuation and conjoint analysis 7. Cost analysis 8. Using clinical studies as a vehicle for economic evaluation 9. Economic evaluation using decision analytic modelling 10. Identifying, synthesising, and analysing evidence for economic evaluation 11. Characterising, reporting, and interpreting uncertainty 12. How to take matters further

Rpt. 2018 | 9780198837312 | BSPOUP | 464 pp | PB | Rs. 2695.00

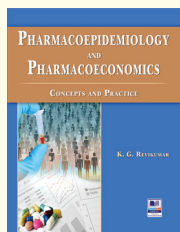

Health Economics and Financing, 5th Edition **NEW**

Thomas E. Getzen

PCI Recommended MPP204

Contents: 1. Choices: Money, Medicine, and Health 2. Demand and Supply 3. Cost-Benefit and Cost-Effectiveness Analysis 4. Health Insurance: Financing Medical Care 5. Insurance Contracts and Managed Care 6. Physicians 7. Medical Education, Organization, and Business Practices 8. Hospitals 9. Management and Regulation of Hospital Costs 10. Long-Term Care 11. Pharmaceuticals 12. Financing and Ownership of Health Care Providers 13. Macroeconomics of Medical Care 14. The Role of Government and Public Goods 15. History, Demography, and the Growth of Modern Medicine 16. International Comparisons of Health and Health Expenditures 17. Economic Evaluation of Health Policy: The Patient Protection and Affordable Care Act of 2010 18. Value for Money in the Future of Health Care

Rpt. 2018 | 9781118184905 | BSPJW | 459 pp | HB | Rs. 4495.00

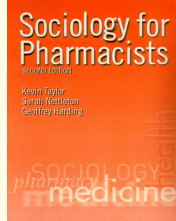

Pharmacoepidemiology and Pharmacoeconomics Concepts & Practice

K. G. Revikumar

1. Background and Introduction of Pharmacoepidemiology, **2.** Genesis and Development of Pharmacoepidemiology, **3.** Need and Applications of Pharmacoepidemiology, **4.** Pharmacoepidemiology in Pharmacy Practice, **5.** Relevance of Pharmaco-epidemiology in India, **6.** Data Sources and Data Collection for Pharmacoepidemiological Studies, **7.** Study Design in Pharmacoepidemiology, **8.** Methods for Pharmacoepidemiologic Studies, **9.** Systems to Study Drug Effects and Measurement of Outcomes in Pharmacoepidemiology, **10.** Areas in Pharmacoepidemiology Research, **11.** Evidence based Medicine and Concepts of Risks in Pharmaco-epidemiology, **12.** Sample Size and Causation in Pharmacoepidemiology, **13.** Case Studies in Pharmacoepidemiology, **14.** Practical Pharmacoepidemiology Review for Researchers, **15.** References used in the Pharmacoepidemiology, **16.** Introduction to Pharmacoeconomics, **17.** Cost Analysis and Cost Measurements, **18.** Outcomes and Perspectives in Pharmacoeconomics, **19.** Pharmacoeconomic Methods, **20.** Cost Benefit Analysis, **21.** Cost Effectiveness Analysis, **22.** Cost Utility Analysis (CUA), **23.** Cost Minimization Analysis (CMA), **24.** Cost of Illness (COI), **25.** Quality of Life and Health Related Quality of Life (QOL & HRQOL), **26.** Construction and Applications of Pharmacoeconomic Studies, **27.** Case Studies in Pharmacoeconomics, **28.** References used in Pharmacoeconomics.

Rpt. 2019 | 9789352301027 | BSPMP | 329 pp | PB | * Rs. 450.00

HOSPITAL AND COMMUNITY PHARMACY

Sociology for Pharmacists

Kevin Taylor, Sarah Nettleton, Geoffrey Harding

NEW

Contents: 1. Sociology: An Introduction 2. Contemporary Practice of Pharmacy 3. Health and Illness - Understanding The Public's Perspective 4. Seeking Help and Consulting Health Professionals 5. Social Factors and Health 6. Social Inequalities and Health 7. The Occupational Status of Pharmacy 8. Maintaining and Promoting Health 9. Social Research Methods

Rpt. 2019 | 9780367200848 | 202pp | BSPT&F | PB | Rs. 395.00

Social and Cognitive Pharmacy

Donyai and Parastou

Contents: 1. The Importance of Sociology and Psychology to Pharmacy Practice 2. The Generation of Pharmacy-related Sociological and Psychological Knowledge 3. Underpinning Psychological Theories 4. Psychological Models of Health Behaviour and Behaviour Change 5. Psychological Models of Illness Behaviour and Behaviour Change 6. Communicating for Effective Outcomes 7. The Patient Case Studies 8. The Research Case Studies

2012 | 9780853698999 | BSPHP | PB | 248 pp | Rs. 2495.00

Foundation in Pharmacy Practice

Whalley Benjamin J et al.

Contents: Section 1 Pharmacy and the Pharmacist 1. What Is Pharmacy Practice 2. Structure and Function of the NHS 3. An Overview of Community Pharmacy 4. An Overview of Hospital Pharmacy 5. An Overview of Industrial Sector Pharmacy Section 2 Professional Aspects of Pharmacy 6. An Introduction to Medicines Management 7. An Introduction to Law, Ethics, Confidentiality and Duty of Care 8. An Overview of the Structure and Function of the RPSGB 9. Essential Communication Skills for Pharmacists Section 3 Dispensing 10. Dispensing 1: Prescription Types and Legal Requirements 11. Dispensing 2: Prescription Interpretation and Understanding 12. Labelling and Packaging of Medicines 1: Dispensed Medicines 13. Labelling and Packaging of Medicines 2: Manufacturers Labelling 14. Extemporaneous Dispensing, a Beginner's Guide 15. Principles of Compliance, Adherence and Concordance 16. Sale and Supply of Medicines: Risk and Advice Provision

2008 | 9780853697473 | BSPHP | PB | 224 pp | Rs. 2395.00

Integrated Pharmacy Case Studies

Sally-Anne Francis et al.

Contents: 1. Gastrointestinal, Liver and Renal Cases 2. Cardiovascular Cases 3. Respiratory Cases 4. Central nervous System Cases 5. Infection Cases 6. Endocrinology Cases 7. Malignant Disease, Immunosuppression and Haematology Cases 8. Musculoskeletal and Joint Disease Cases 9. Eye, Nose and Throat Cases 10. Skin Cases 11. Special Cases

2015 | 9780853698845 | BSPHP | PB | 456 pp | Price £ 43.00

HOSPITAL AND COMMUNITY PHARMACY

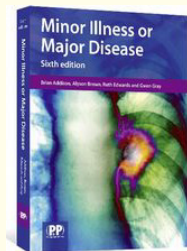

Developing Your Prescribing Skills

Thomas and Trudy

Contents: 1. Introduction to Prescribing and this Book 2. Being Accountable for your Prescribing 3. Taking a Good History 4. Consultations Involving Children 5. Prioritising in Polypharmacy 6. Practical Prescribing in Paediatrics 7. Monitoring Prescribing 8. Ethical Decision Making in Prescribing 9. Prescribing as Part of a Team 10. Establishing Partnerships with Patients 11. Influences on Prescribing 12. Conclusion.

2010 | 9780853698814 | BSPHP | PB | 176 pp | Price £ 23.00

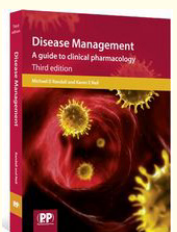

Minor Illness or Major Disease, 6th Ed.

Addison Brian and et al.

Contents: 1. Introduction 2. Gastrointestinal Illnesses 3. Respiratory Illnesses 4. Central Nervous System 5. Infections and Infestations 6. Obstetrics, Gynaecology and Urinary System 7. Eyes, Ears and Oral Health 8. Nutrition 9. Dermatology

2016 | 9780857112149 | BSPHP | PB | 272 pp | Price £ 43.00

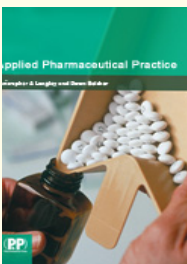

Disease Management A guide to clinical pharmacology

3rd Ed.

Randall Michael D and Neil Karen E.

Contents: A The Patient B Treatment C Gastrointestinal Diseases D Cardiovascular Diseases E Respiratory Diseases F Central Nervous System Disorders G Pain H Cancer I Infections J Dermatology K Endocrine Disorders

2016 | 9780857112095 | BSPHP | PB | 496 pp | Price £ 54.00

Applied Pharmaceutical Practice

Langley Christopher A & Belcher Dawn

Contents: 1. Introduction and the Basics of Medicines Supply 2. NHS Supply in the Community 3. NHS Supply in the Community 2 4. NHS Supply Within Hospitals 5. Non-NHS Supply 6. Controlled Drugs 7. Emergency Supply 8. Patient Counselling and Communication 9. Patient Counselling and Communication 2 10. Poisons and Spirits

2008 | 9780853697466 | BSPHP | PB | 304 pp | Rs. 2395.00

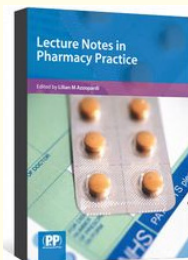

Chronotherapeutics

Redfern Peter

Contents: 1. An Introduction to Circadian Rhythms and Their Measurement in Humans 2. The Biological Clock-location, Neuroanatomy and Neurochemistry 3. The Molecular Biology of the Mammalian Circadian Clock 4. Rhythms and Pharmacokinetics 5. Rhythms and Pharmacodynamics 6. Rhythms and Therapeutics of Diseases of the Gastrointestinal Tract 7. Rhythms and Therapeutics of Asthma 8. Rhythms and Therapeutics of Cardiovascular Disease 9. Rhythms, Pain and Pain Management 10. Rhythms of Cancer Chemotherapy 11. Chronopharmaceutical Drug Delivery 12. Circadian Rhythm Abnormalities 13. Drug Effects on Suprachiasmatic Nucleus Function 14. The Effect of Melatonin Secretion: Clinical Aspects 15. Chronobiological Mechanisms in Seasonal Affective Disorder

2003 | 9780857111128 | BSPHP | HB | 448 pp | Rs. 2995.00

Lecture Notes in Pharmacy Practice

Azzopardi Lilian M

Contents: 1. Historical Perspectives 2. Pharmacy Practice and the Healthcare System 3. Medicine Presentation and Administration 4. Medicine Safety 5. Community Pharmacy Practice 6. Dispensing Prescriptions 7. Health Promotion 8. Communication Skills and Patient Counselling 9. Compliance, Adherence and Concordance 10. Mathematical Principles of Drug Therapy 11. Point-of-Care Testing 12. Pharmaceutical Care Plans 13. Medicine Action 14. Clinical Pharmacokinetics 15. Constipation and Diarrhoea 16. Gastro-oesophageal Reflux Disease and Peptic Ulcer Disease 17. Inflammatory Bowel Disease and Other Chronic Bowel Disorders 18. Emesis 19. Cardiovascular Disorders 20. Hypertension 21. Ischaemic Heart Disease 22. Congestive Heart Failure 23. Hyperlipidaemia 24. Thrombosis 25. Asthma, Chronic Obstructive Pulmonary Disorder and Allergic Rhinitis 26. Schizophrenia 27. Mood Disorders 28. Anxiety Disorders 29. Sleep Disorders 30. Eating Disorders 31. Pain Management and Fever 32. Dementia and Alzheimer's Disease 33. Parkinson's Disease 34. Anti-infective Agents 35. Human Immunodeficiency Virus Infection 36. Viral Hepatitis 37. Thyroid Disorders 38. Diabetes Mellitus 39. Menopause and Hormone Replacement Therapy 40. Menstrual Cycle Disorders and Contraception 41. Genito-urinary Disorders 42. Cancer and Palliative Care 43. Anaemia and Drug-induced Blood Dyscrasias 44. Rheumatoid Arthritis 45. Osteoarthritis and Gout 46. Bone Disorders 47. Skin Disorders 48. Wound Management 49. Drug Therapy in Geriatric Patients 50. Drug Therapy in Paediatric Patients 51. Drugs Used in Pregnancy and During Lactation 52. Critical Care Therapeutics 53. Recent Advances in Pharmacotherapy 54. Colds and Influenza 55. Eye 56. Oral and Dental 57. Foot 58. Ear 59. Musculoskeletal 60. Abdominal Pain, Perianal and Perivulval Pruritus 61. Travel Medicine 62. Pharmacy Literature and Medicine Information 63. Medical Writing 64. Research Methodology 65. Primary Care Health Services 66. Community Pharmacy Management 67. Hospital Pharmacy Services 68. Formulary Systems 69. Medicines Regulatory Affairs 70. Quality Standards in Community Pharmacy Practice

2009 | 9780853697664 | BSPHP | PB | 464 pp | Rs. 3095.00

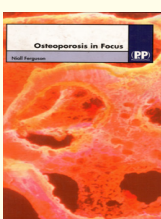

Pharmacy Case Studies

Dhillon Soraya & Raymond Rebekah

Contents: 1. Gastrointestinal 2. Cardiovascular 3. Respiratory 4. CNS 5. Infections 6. Endocrine 7. Obstetrics, Gynaecology and UTI 8. Malignant Disease 9. Nutrition and Blood 10. Musculoskeletal and Joint 11. Eyes 12. ENT 13. Skin 14. Immunological/ vaccines 15. Liver Disease 16. Renal Disease 17. Paediatrics 18. Elderly

2009 | 9780853697244 | BSPHP | PB | 480 pp | Rs. 2495.00

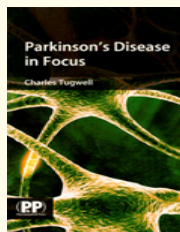

Osteoporosis in Focus

Niall Ferguson

Contents: 1. Introduction 2. Osteoporosis 3. Prevention of Osteoporosis 4. Lifestyle Factors 5. Monitoring the Condition 6. Clinical Interventions 7. Drug Treatments 8. Calcium and Vitamin D 9. Hormone replacement Therapy 10. Bisphosphonates 11. The Future 12. Osteoporosis Screening 13. Pharmaceutical Care of the Osteoporotic Patient.

2004 | 9780853694834 | BSPHP | HB | 245 pp | Rs. 2995.00

HOSPITAL AND COMMUNITY PHARMACY

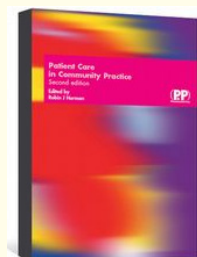

Parkinson's Disease in Focus

Charles Tugwell

Contents: 1. Introduction 2. The Condition 3. Pharmacotherapy 4. Non-Drug Therapies 5. Surgical Procedures 6. Management of Non-Motor Symptoms 7. Developments and Future Treatments 8. Patient Care and Service Provision 9. Further Resources.

2008 | 9780853696964 | BSPPHP | PB | 255 pp | Rs. 2995.00

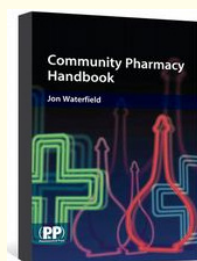

Patient Care in Community Practice: A handbook of non-medicinal healthcare, 2nd Ed.

Harman and Robin J

Contents: 1. Stoma Therapy 2. Management of Incontinence 3. Trusses for Abdominal Hernias 4. Graduated Compression Hosiery 5. Wound Healing and Wound Management Products 6. Dietary Products 7. Oxygen Therapy 8. Inhalation Therapy 9. Home Enteral Nutrition 10. Home Parenteral Nutrition 11. Dialysis at Home

2002 | 9780853694502 | BSPPHP | PB | 304 pp | Rs. 1795.00

Community Pharmacy Handbook

Waterfield Jon

Contents: 1. Continuing Professional Development 2. Management Skills in the Pharmacy 3. Training and Development of the Pharmacy Team 4. Contractual Framework for Community Pharmacy 5. Medicines Use Review 6. Offering Enhanced Services 7. Supplying Medication 8. Responding to Symptoms 9. Multidisciplinary Working

2008 | 9780853697169 | BSPPHP | PB | 304 pp | Rs. 2395.00

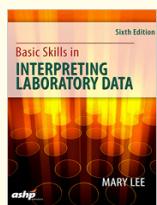

Pharmacy in Public Health

Krska Janet

Contents: Section 1 Overview of Public Health 1. Public Health in the UK 2. Determinants of Health 3. Pharmacy Within Public Health: UK Perspective 4. Public Health Data 5. An International Perspective Section 2 Developing pharmacy public health services 6. Needs Assessment and Public Health Involvement 7. Evidence-based Delivery 8. Working Together 9. Developing Pharmacy Services 10. Risks and Benefits Section 3 Improving public health through pharmacy 11. Health Education Opportunities 12. Health Protection 13. Preventing Disease: Screening in the Pharmacy 14. Medicines Management

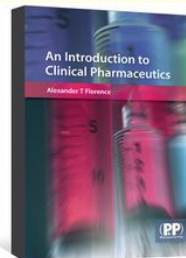

2010 | 9780853698791 | BSPPHP | PB | 304 pp | Rs. 2395.00

Symptoms in the Pharmacy: A Guide to the Management of Common Illness 6th Edition

Alison Blenkinsopp, Paul Paxton and John Blenkinsopp

2008 | 9781405180795 | BSPJW | 360 pp | PB | Rs. 2495.00

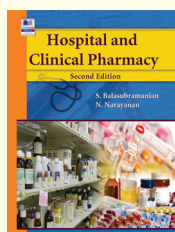

Applied Pharmaceutical Practice

Christopher A Langley and Dawn Belcher

Contents: 1. Introduction, Medicines classification and Standard Operating Procedures 2. NHS supply in the community 1: Prescription forms and prescribing 3. NHS Supply in the Community 2: Prescribers and the Dispensing Process 4. NHS supply within Hospitals 5. Non-NHS supply 6. Controlled Drugs 7. Emergency Supply 8. Patient Counselling and Communication 1: the Basics of Patient Communication 9. Patient Counselling and Communication 2: Product-specific Counselling Points 10. Poisons and Spirits

2009 | 9780853698357 | BSPPHP | PB | 206 pp | Rs. 2395.00

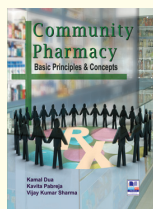

Hospital and Clinical Pharmacy, 2nd Ed.

S. Balasubramanian and N. Narayanan

Contents: 1. Hospitals – an Introduction, 2. Hospital Pharmacy, 3. Pharmacy and Therapeutic Committee, 4. Hospital Formulary, 5. Hospital Committees, 6. Therapeutic Guidelines, 7. Pharmacy Procedural Manual, 8. Budget of Hospital Pharmacy, 9. Manufacturing in Hospitals, 10. Total Parenteral Nutrition and Intravenous Admixture, 11. Pre-packing and Repacking in Hospitals, 12. Purchase and Inventory Control, 13. Organization and Management of Drug Store, 14. Drugs Distribution System, 15. Central Sterile Supply Department, 16. Hospital Accessories, 17. Nuclear Pharmacy, 18. Records and Reports, 19. Professional Relations and Practices, 20. Clinical Pharmacy, 21. Medication History Interview, 22. Medical Abbreviations and Terminologies, 23. Ward Round Participation, 24. Rational Drug Therapy, 25. Pharmacotherapy, 26. Pediatric Pharmacy, 27. Geriatric Pharmacy, 28. Use of Drugs in Pregnancy and Lactation, 29. Pharmacogenetics, 30. Patient Compliance, 31. Drug Therapy Review and Therapeutic Drug Monitoring, 32. Patient Data Analysis, 33. Drug Utilisation Evaluation and Review, 34. Individualization of Dose and Pharmacist Intervention, 35. Adverse Drug Reactions, 36. Drug Interactions and Drug Induced Diseases, 37. Pharmacovigilance, 38. Pharmaceutical Care, 39. Patient Counselling, 40. Drug Information Center and Role of Pharmacists in Education and Training, 41. Poison Information Center and Treatment of Poison Cases, 42. Communication in Pharmacy and Presentation of Cases, 43. Critical Evaluation of Biomedical Literature, 44. Medication Errors, 45. Clinical Trials.

*Rs. 195.00

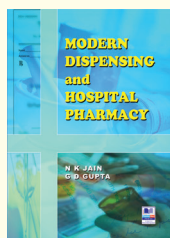

Community Pharmacy Practice

Ramesh Adepu

PCI Recommended BP802

Contents: 1. Community Pharmacy Practice – An Introduction, 2. Pharmaceutical Care, 3. Prescriptions, 4. Patient Counseling, 5. Patient Information Leaflets readability and Design, 6. Health Screening Services, 7. Medication Adherence, 8. Community Pharmacy Management, 9. Inventory Control In Community Pharmacy, 10. Otc Medication, 11. Communicable Diseases, 12. Responding To Symptoms Of Minor Ailments, 13. Health Promotion, 14. Balance Diet, Treatment And Prevention of Deficiency Disorders, 15. Family Planning-Role of Pharmacist, 16. Essential Drugs And Rational Drug Use, 17. Pharmacovigilance In Community Pharmacies, 18. Research In Community Pharmacy Practice, 19. Code of Ethics For Community Pharmacists.

Rpt. 2019 | 9789383635610 | BSPMP | 236 pp | PB | * Rs. 350.00

Modern Dispensing and Hospital Pharmacy

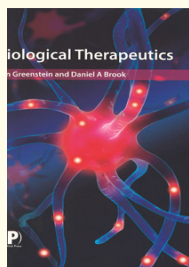

N. K. Jain and G. D. Gupta

Contents: 1. Genesis and Evaluation of Pharmacy, 2. Principles of Dispensing, 3. Prescription, 4. Pharmaceutical Calculation, 5. Posology, 6. Mixtures, 7. Solutions, 8. Emulsion, 9. Powders, 10. Lotions and Liniments, 11. Suspensions, 12. Ointments, 13. Miscellaneous Preparations, 14. Extraction and Glanical Products, 15. Incompatibility, 16. Organization of a Hospital Pharmacy, 17. Drug Distribution, 18. Drug Information Centre, 19. Hospital Management, 20. Records, 21. Drug Interaction

Rpt. 2019 | 9788188449941 | BSPMP | 483 pp | PB | * Rs. 495.00

Handbook of Analytical Therapeutic Drug Monitoring and Toxicology

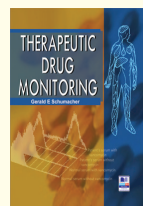

Steven H.Y.Wong and Irving Sunshine

PCI Recommended MPP203

Contents: 1. Drug Monitoring by Capillary Electrophoresis 2. Toxicology through a Looking Glass: Stereochemical Questions and Some Answers 3. DNA Analysis 4. Supercritical Fluid Chromatography 5. Supercritical Fluid Extraction as a Sample Preparation Tool in Analytical Toxicology 6. Analysis of Clinical Specimens Using Inductively Coupled Plasma Mass Spectrometry 7. Fourier Transform Infrared Studies for Drug Hair Analysis 8. Solid-Phase Extraction Disks: Second-Generation Technology for Drug Extractions 9. Automation, Direct-Sample-Analysis, and Microcolumn Liquid Chromatography 10. Coupled Mass Spectrometric-Chromatographic Systems 11. Pentamer Formation Assay Based on Drug Functional Mechanisms 12. Receptor Assays in the Clinical Laboratory 13. Immunoassays and Immunoassay Analyzers for Analytical Toxicology 14. Hair Analysis for Detection of Drugs of Abuse 15. Sweat It Out 16. Drug Testing of Meconium: Determination of Prenatal Drug Exposure 17. Analytical Toxicology of Vitreous Humor 18. Saliva Drug Analysis 19. Drug Monitoring: Modern Approaches to Quality Assurance

Rpt. 2018 | 9780849326486 | BSPCRC | 364 pp | HB | Rs. 3495.00

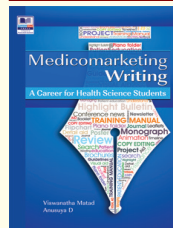

**Therapeutic Drug Monitoring
Classic Reissue**

Gerald E. Schumacher

Contents: 1. Introduction to Therapeutic Drug Monitoring 2. Pharmacokinetic Concepts in Therapeutic Drug Monitoring 3. The Total Testing Process Applied to Therapeutic Drug Monitoring 4. Developing and Operating a Therapeutic Drug Monitoring Service 5. Monitoring Drug Therapy 6. Population Approaches to Pharmacokinetics and Risk Management 7. Decision Analysis Applied to Therapeutic Drug Monitoring 8. Outcomes Assessment of Therapeutic Drug Monitoring: System and Patient Considerations 9. Aminoglycosides 10. Antiarrhythmics 11. Antiepileptics 12. Chloramphenicol 13. Cyclic Antidepressants 14. Cyclosporine 15. Digoxin 16. Lithium 17. Methotrexate 18. Theophylline 19. Vancomycin

2011 | 9789381075364 | BSPMP | 684 pp | HB | Rs. 1995.00

GENERAL

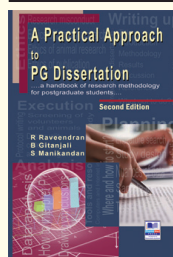

Medicomarketing Writing: A Career for Health Science Students

Viswanatha Mathad and Anusuya D

Contents: 1. Medical Writing, 2. Medicomarketing Communication or Healthcare Communication, 3. Product Life Cycle and Various Promotional Inputs, 4. Qualifications and Skills, 5. Career Path, 6. Medical Communications: A New Age Growing Business, 7. Where can you Learn Medical Writing?, 8. Finding a Job, 9. Typical Project Flow in Medicomarketing, 10. Understanding the Topic/Brief/Client Requirement, 11. Resourcing, 12. Reading and Understanding the References, 13. Get an Overview of the Subject even before Understanding the Topic, 14. Content Approach or Outline, 15. Writing Different Parts of the Article, 16. Revision, 17. Teaser Campaign, 18. Training Kit (Slides and Manual), 19. Product Monograph, 20. Detail Aid or Visual Aid, 21. Symposium Highlights, 22. Advisory Board Meetings, 23. Brochure, 24. Newsletters, 25. Pharmaceutical Brand Website, 26. Content for Social Media, 27. Patient Education Materials, 28. Journal and Conference News, 29. Review Articles, 30. Case Studies, 31. Expert Opinion, 32. Guidelines, 33. Book Reviews, 34. Essential Biostatistics for Medical Writing, 35. Paper and Printing Process, 36. Working with Designers, 37. Working with Marketing, 38. Working with Clients, 39. Working as a Freelancer, 40. Copy-editing, 41. Writing a Proposal, 42. Medical Writer as a Manager, 43. Writer's Block, 44. Performance Appraisal.

Guidelines and Screening Methods of Pharmacology

Surendra H. Bodakhe

Contents: 1. Pharmacological techniques to evaluate drugs on different system 2. Regulations for Laboratory Animals care and Ethical requirements 3. Principles of biological standardization 4. Experimental models for screening of Drugs 5. Evaluation of drugs acting on eye 6. Evaluation of drugs acting on Autonomic Nervous System 7. Evaluation of drugs acting on Central Nervous System 8. Evaluation of drugs acting on Respiratory System 9. Transgenic animals and other genetically prone animal models 10. Drug toxicity and safety evaluation 11. Alternative to animal screening procedures 12. New approaches in drug discovery 13. Research Methodology

Cellular and Molecular Pharmacology

Anteshwar Singh

Contents: UNIT 1 Cell Biology 1. Cell and Organelles 2. Genome 3. Necrosis and Autophagy 4. Apoptosis 5. Gene Sequencing 6. Cell Cycle and Regulation UNIT 2 Genomic and Proteomic Tools 7. Recombinant DNA Technology 8. Gel Electrophoresis 9. Gene Therapy 10. PCR 11. ELISA and Micro Array Technique 12. Western Blotting UNIT 3 Pharmacogenomics 13. Gene mapping and Genetic Variations 14. Polymorphisms Affecting Drug Metabolism and Drug Transporters 15. Proteomics Sciences UNIT 4 Immunotherapeutics, Cell Culture and Biosimilars 16. Immunotherapeutics and Biosimilars 17. Animal Cell Culture 18. Assays and Flow Cytometry UNIT 5 Cell Signaling 19. Receptors and Secondary Messengers 20. Intracellular Signaling Pathways

Pharmacy Practice

S. Balasubramanian

PharmaMed Press (A Unit of BSP Books Pvt. Ltd.)

Invites manuscripts from prospective authors to write books in the area of new emerging topics in Engineering, Information Technology, Remote Sensing, Biological Sciences/Biotechnology, Environmental Science, Management Science and other interdisciplinary subject areas.

Also, it invites Books tailored specifically to a syllabus of recognised course of study at colleges and universities level.

Authors may write to us with their background, brief description of the book with tentative table of contents, chapter synopsis and time frame for completion of the manuscript by e-mail to

editorial1@bspbooks.net — Engineering & Technology; Management Sciences; Earth & Environmental Sciences
