<i>Foreword</i>	(v)
<i>Preface to Third Edition</i>	(vii)
<i>Preface to Second Edition</i>	(ix)

CHAPTER 1

Fundamental Approach to Environmental Impact Assessment (EIA)

1.1	Introduction	1
1.1.1	What is an EIA?	2
1.1.2	Basic Principles of EIA	2
1.1.3	When is an EIA Required?	3
1.1.4	Environmental Audit	4
1.1.5	Importance of Scientific Knowledge on the Impacts of various Activities	4
1.1.6	Criticism on EIA	6
1.2	EIA Procedure	6
1.2.1	Initial Environmental Examination (IEE)	6
1.2.2	Full Scale Environmental Impact Assessment (EIA)	7
1.3	Examples of Various Types of Impacts that Occur in a Typical Road Development Project	12
1.3.1	Direct Impacts	12
1.4	Impact Prediction and Assessment	14
1.4.1	Main Objectives of any Environmental Impact Assessment are:	14
1.4.2	Cumulative Impacts (21)	15
1.4.3	Ecosystem Function Impacts	16
1.4.4	Assessment of Significance of an Impact	17
1.4.5	Impact Evaluation and Analysis (22,24)	17
1.4.6	Evaluation of Least Environmentally Damaging Alternatives	18
1.4.7	Factors to be considered for taking decisions based on Assessment of Significance of an Impact	20
1.4.8	Critical Assessment Criteria	20
1.4.9	Public Participation	21
1.5	Systematic Approach for using EIA as a Planning Tool for Major Project Activities	21
1.5.1	Introduction	21
1.5.2	Preparation of Environmental Base Map (EBM)	22
1.5.3	Identification of Study Area	22
1.5.4	Classification of Environmental Parameters	22
1.5.5	Formation of EIA Study Team	23
1.5.6	Preparation of Terms of Reference	23
1.5.7	Preparation of an EIA Report	23
1.5.8	Environmental Monitoring and Management Plan	24

(xii) Contents

1.5.9	Draft and Final Environmental Impact Statements	25
1.5.10	Impact Analysis	26
1.5.11	Format and Content of a Draft Environmental Impact Statement (DEIS)	26
1.5.12	DEIS Processing	27
1.5.13	Final Environmental Impact Statement (FEIS)	27
1.6	Comparative Evaluation of Alternatives from EIA Studies	27
1.6.1	Selecting a Preferred Alternative	27
1.6.2	Conceptual Basis for Trade-Off Analysis	28
1.6.3	Importance Weighting of Decision Factors	31
1.7	Strategic Environmental Assessment (SEA)	33
1.7.1	What is Strategic Environmental Assessment (SEA)?	33
1.7.2	Strategic Environmental Assessment (SEA) a Decision Support System	35
1.7.3	Background and Origin of SEA Process	35
1.7.4	SEA Contribution to Sustainability and Success Factors	38
1.7.5	Aims and Objectives of SEA (33)	39
1.7.6	Elements of SEA and priority needs for good practice of SEA	39
1.7.7	Benefits of SEA	40
1.7.8	Methods and Tools used in SEA for Predicting Environmental and Socio-Economic Effects	41
1.7.9	SEA and EIA	43
	<i>Summary</i>	44
	<i>References</i>	45
	<i>Further Reading</i>	47
	<i>Questions</i>	48

CHAPTER 2

EIA Methodologies

2.0	Introduction	49
2.1	Essential Broad Characteristics of EIA Methods	49
2.2	Task Specific EIA Methods	50
2.3	Criteria for the Selection of EIA Methodology	50
2.3.1	General	50
2.3.2	Impact Identification	51
2.3.3	Impact Measurement	51
2.3.4	Impact Interpretation and Evaluation	51
2.3.5	Impact Communication	52
2.4	EIA Methods	52
2.4.1	Details of some Important EIA methods of Wide Usage	55
2.4.2	Adhoc Methods	56
2.4.3	Checklist Methodologies	57
2.4.5	Network Methods	83
2.4.6	Overlay Methods	87

2.4.7 Geographic Information System for EIA	89
2.4.8 Task-specific Computer Modeling	91
2.4.9 Expert Systems	92
2.4.11 Environmental Medium Quality Index factor analysis Method	95
2.4.12 Rapid Assessment of Pollution Sources Method	102
2.4.13 Predictive Models for Impact Assessment	107
<i>Summary</i>	114
<i>References</i>	115
<i>Suggested Further Reading</i>	118
<i>Questions</i>	119

CHAPTER 3

Prediction and Assessment of Impacts on Soil and Groundwater Environment

3.1 Introduction	121
3.2 Soils and Groundwater	121
3.3 Methodology for the Prediction and Assessment of Impacts on Soil and Groundwater	121
3.3.1 Delineation of Study Area	123
3.3.2 Identification of Activities, which will have Different Types of Impacts on Soil and/or Groundwater Quantity – Quality	124
3.3.3 Description of Existing Soil and/or Groundwater Resources Soil Characteristics	132
3.3.4 Procurement of Relevant Soil and/or Groundwater Quantity – Quality Standards	133
3.3.5 Impact Prediction	133
3.3.6 Assessment of Impact Significance	144
3.3.7 Identification and Incorporation of Mitigation Measures	146
3.4 Case Studies	148
3.4.1 Case Study : 1 Soil and Ground Water Pollution and Remediation Project	148
3.4.2 Case Study: 2 Environmental Impact Assessment of Soil Quarrying from the Hills of Central Kerala – Case Study	152
<i>Summary</i>	154
<i>References</i>	154
<i>Questions</i>	156

CHAPTER 4

Prediction and Assessment of Impacts on Surface Water Environment

4.0 General Methodology for the Assessment of Impacts on Surface Water Environment	158
4.1 Introduction	158
4.2 Projects which Create Impact Concerns for the Surface-Water Environment	159

(xiv) Contents

4.3	Systematic Methods for Evaluation of Impacts of Various Developmental Activities on Surface Water Environment	160
4.3.1	Step 1 Identification of Surface Water Quantity or Quality Impacts of Proposed Projects	160
4.3.2	Step 2 Description of Existing Surface-Water Resource Conditions	171
4.3.3	Step 3 Procurement of Relevant Surface water Quantity-Quality Standards	179
4.3.4	Step 4 Impact Prediction	181
4.3.5	Step 5 Interpretation of Impact Significance	186
4.3.6	Step 6 Identification and Incorporation of Mitigation Measures	186
	<i>Summary</i>	191
	<i>Case Study 1: Evaluation of the Impacts of Land Use on Water Quality: A Case Study in The Chaohu Lake Basin</i>	192
	<i>Further Reading</i>	197
	<i>Questions</i>	198

CHAPTER 5

Prediction and Assessment of Impacts on Biological Environment

5.0	Introduction	201
5.1	General Methodology for the Assessment of Impacts on Biological Environment (6-8)	201
5.1.1	Biological Impact Assessment	202
5.1.2	Biological Environment	203
5.1.3	Species Population	204
5.2	Systematic Approach for Evaluating Biological Impacts	204
5.2.1	Step 1: Identification of Biological Impacts	205
5.2.2	Step 2: Description of Existing Biological – Environment Conditions	206
5.2.3	STEP 3 : Procurement of Relevant Legislation and Regulations	214
5.2.4	STEP 4: Impact Prediction	214
5.2.5	Step.5: Assessment of Impact Significance	229
5.2.6	STEP 6 : Identification and Incorporation of Mitigation Measures	230
5.3	Biodiversity Impact Assessment (BIA) as a Planning Tool	232
5.3.1	What is Biodiversity Impact Assessment (BIA)?	232
5.3.2	BIA- A Tool for the Planning Process	232
5.4	Specific procedure -Typical example of Assessment of Impacts of Developmental Activities on Vegetation and Wildlife	237
5.4.1	Introduction	237
5.4.2	Describing Existing Resources	238
5.4.3	Impact Analysis	240
5.4.4	Loss of Valuable Vegetative Community Types	240
5.4.5	Direct Loss of Wildlife and Habitat	240
5.4.6	Barriers to Travel Corridors	241
5.4.7	Recreational Use and Enjoyment	241
5.4.8	Mitigation	241

5.5	Specific procedure -Typical Example of Assessment of Impacts of Road development on Flora and Fauna	242
	5.5.1 Direct Impacts	242
	5.5.2 Indirect impacts	244
	5.5.3 Determining the Nature and Scale of Impacts	247
	<i>Summary</i>	251
	<i>References</i>	252
	<i>Questions</i>	253

CHAPTER 6

Prediction and Assessment of Impacts on the Air Environment

6.0	Introduction	254
6.1	Basic Information on Air Pollution	254
6.2	Air Pollution Sources	254
6.3	Effects of Air Pollution (Human Health, Material Damage, Climatic and Aesthetic Effects)	255
	6.3.1 Effects on Human and Animal Health	255
	6.3.2 Materials Damage	256
	6.3.3 Climatic Changes: Greenhouse Effects, Ozone Depletion, etc.	256
	6.3.4 Aesthetic Effects	256
6.4	Air Quality	258
	6.4.1 Predicting Changes in Pollutant Concentrations	258
6.5	Generalized Approach for Assessment of the Impact of Air Pollution	259
	6.5.1 Six main steps in the proposed Model for EIA Study on Air Environment	259
	6.5.2 Step 1 Evaluation and Identification of Sources and Quantity of Air Pollutant Emissions of Different Phases of the Proposed Activity	259
	6.5.3 Step 2 Detailed Evaluation of existing Ambient Air Quality, Meteorological conditions and Natural Quality existing in the Project Area	261
	6.5.4 Step 3 Examination of Appropriate Air Quality Emission Regulation Laws and Air Quality Standards to be maintained as per Local, State and Central Government Notifications	262
	6.5.5 Step 4 Carrying out Impact Assessment using Mass-Balance, Mathematic Modeling and other Qualitative Approaches	263
	6.5.6 Step 5 Assessment of Significance of Impacts of Predicted Beneficial and Detrimental Effects	268
	6.5.7 Step 6 Development of Appropriate Mitigation or Remediation Plans for Reducing Adverse Impacts	268
6.6	Detailed Methodology for Air Pollution Dispersion Modeling Approaches for Assessment of Air Quality Impacts (AQI) for a Specific Study Area (19-91)	269

(xvi) Contents

6.6.1	Various Key Steps in Air Pollution Dispersion Modelling Approach for Air Quality Impact Assessment for a Specific Study Area	269
6.6.2	Input Data Collection	270
6.6.3	Compilation of Data	274
6.6.4	Background Air Quality, Terrain, Sensitive Receptors and Building Wake Effects	279
6.6.5	Approved Dispersion Models for Air Quality Assessment for Typical urban Areas	280
6.6.6	Processing Dispersion Model Output Data	283
6.6.7	Application of GIS for Presentation of Air Quality Impact	286
	<i>Summary</i>	289
	<i>References</i>	290
	<i>Questions</i>	294

CHAPTER 7

Prediction and Assessment of Impacts of Noise on the Environment

7.1	Basic Information on Noise	298
7.2	Noise Sources	301
	7.2.1 Traffic Noise	301
	7.2.2 Highway Vehicle Noise	302
7.3	Noise Measurement	303
	7.3.1 Measurement units	303
	7.3.2 Measuring Instruments	303
7.4	Effects of Noise on People	304
	7.4.1 Normal Hearing	304
	7.4.2 Repeated Interference with Sleep	306
7.5	Physiological Responses	308
	7.5.1 Epidemiological Studies	309
7.6	Systematic Methodology for Assessing Environmental Impacts of Noise	309
	7.6.1 EIA Methodology for Noise Impacts	309
	7.6.2 Step 1 : Identification of Noise Impacts	311
	7.6.3 Step 2 : Description of Existing Noise-Environment Conditions	311
	7.6.4 Step 3 : Procurement of Relevant Noise Standards and/or Guidelines	312
	7.6.5 Step 4 : Impact Prediction	316
	7.6.6 Step 5 : Assessment of Impact Significance	320
	7.6.7 Step 6 : Mitigation Measures	320
	7.6.8 Step 7 : Prediction of Final Impact Statement	320
	<i>Summary</i>	322
	<i>Case Studies</i>	322
	<i>References</i>	324
	<i>Questions</i>	325

CHAPTER 8

Prediction and Assessment of Socio-Economic and Human Health Impacts

8.A.1 Introduction	326
8.A.2 Social Impact Assessment	326
8.A.2.1 Basic Aspects of Social Impact Assessment	326
8.A.2.2 Social Assessment Process	327
8.A.2.4 Role of Social Impacts in Framing Sustainable Development Policies	330
8.A.3 General Aims and basic Principles to be followed for any Social Impact Assessment (SIA) (4)	330
8.A.3.1 General Aims for Conducting any Social Impacts Assessment	330
8.A.3.2 Basic Principles to be followed for any SIA	331
8.A.4 Conceptual Frame Work for Socio Economic Assessment (SIA) Process	333
8.A.4.1 Step 1 : Study Area Delineation, Categorization of Present Activities	333
8.A.4.3 Step 3 : Description of existing Socio-Economic condition of the Study Area-Base Line Data	338
8.A.4.4 Step 5 : Impact Prediction with and without Project The following are important impacts need to be considered for prediction	340
8.A.4.6 Step 5 Assessment of Significance of Socio-Economic Impacts	343
8.A.4.6 Step 7: Incorporation of Monitoring and Mitigation Measures in the Project and Preparation of Draft Environmental Impact Statement	348
8.A.5 Case Studies	349
8.B.1 What is Health Impact Assessment?	350
8.B.2 Tasks of Health Impact Assessment	351
8.B.3 Methodology	352
8.B.3.2 Scoping	353
8.B.3.3 Identification of Potential Health Impacts	355
8.B.3.4 Prediction of Health Impacts	356
8.B.3.5 Evaluation of Health Impacts	358
8.B.3.6 Identification and Evaluation of Mitigation Measures Monitoring of Health Impacts	358
8.B.3.7 Preparation of Environmental Impact Statement	361
8.B.3.8 HIA for Policy Making	361
<i>Summary</i>	361
<i>References</i>	361
<i>Further Reading</i>	362
<i>Questions</i>	362

CHAPTER 9

Environmental Risk Assessment (ERA) and Risk Management in EIA

9.0	Introduction	364
9.1	Environmental Impact Assessment (EIA)	364
9.2	Environmental Risk Assessment (ERA)	365
9.3	Ecological Risk Assessment (EcoRA)	365
9.4	Comparison between EIA and ERA	366
9.5	Human Health Risk Assessment and Ecological Risk Assessment	367
9.6	Risk Assessment and Treatment of Uncertainty	367
	9.6.1 What is Uncertainty	368
9.7	Key Steps in Performing an Environmental Risk Assessment (ERA)	369
	9.7.1 ERA Addresses Four Questions	369
	9.7.2 Step 1 - Hazard Identification	370
	9.7.3 Step 2 - Hazard Analysis	372
	9.7.4 Step 3 – Exposure Assessment	378
	9.7.5 Step 4 - Risk Characterization	379
	9.7.6 Step 5 - Risk Management	383
9.8	Advantages and Limitations of Environmental Risk Assessment	386
9.9	Risk Assessment Methodology	386
	9.9.1 Human Health Risk Assessment Methods	386
	9.9.2 Ecological Risk Assessment (EcoRA)	386
	9.9.3 Ecotoxicology	388
	9.9.4 Practical Qualitative and Comparative Ecological Risk Assessment	391
	9.9.5 Qualitative Methodology	392
	9.9.6 Risk Ranking Procedure	392
9.10	Case Studies	393
	9.10.1 Environmental Risk Assessment of Heavy Metal Contamination in the Industrial Area of Kattedan, India – A Case Study	393
	<i>Summary</i>	394
	<i>References</i>	395
	<i>Questions</i>	396

CHAPTER 10

Application of Remote Sensing(RS) and Geography Information Systems(GIS) for EIA

10.0	Introduction-Role of RS &GIS Technologies in EIA as a Decision making Tool	397
10.1	Remote Sensing Applications for Environmental Monitoring	398
10.2	Basic Principles of Remote Sensing	399
	10.2.1 Electromagnetic Energy	399
	10.2.2 Remote Sensing Elements and Present Technological Status	401

10.3	Remote Sensing as an Important Tool for Environmental Impact Assessment	407
	10.3.1 Summary of Sensors in Environmental Modeling	408
10.4	Application of Geographic Information Systems (GIS) in EIA	415
	10.4.1 Technical details of Geographic Information Systems (GIS) and its Application to EIA	416
	10.4.2 GIS Data Characteristics Spatial Data	417
10.5	Integration of Remote Sensing and GIS-New Software Modules	422
	10.5.1 Levels of Integration	422
10.6	Application of GIS as a Tool for Remotely Sensed Image Processing	424
	10.6.1 Remotely Sensed Data as an Information Source to GIS	425
10.7	Application of Integrated Remote Sensing and GIS for EIA	425
	10.7.1 Sources of Remote Sensing Applications	425
	10.7.2 Integrated RS & GIS in Screening, Scoping and Baseline Studies	426
10.8	Key problems or Disadvantages of using RS and GIS for EIA	431
10.9	Conclusions and Recommendations	431
	<i>Summary</i>	431
	<i>References</i>	432
	<i>Case Studies</i>	436
	<i>Questions</i>	439

CHAPTER 11

EIA Case Studies

11.0	Environmental Impact Assessment of Industrial Projects	441
11.01	Introduction	441
11.1	Key factors for Environmental Impact Assessment of Industrial Development Projects	445
	11.1.1 Physical Resources	445
	11.1.2 Ecological Resources	446
	11.1.3 Human use Values	447
	11.1.4 Quality-of-life Values	447
	11.1.5 Project Siting	448
11.2	Factors to be considered in making Assessment Decisions	450
11.3	Guidelines for Preparations of TORS for Life of Industrial Development Projects for Initial Environmental Examination	452
11.4	Management Requirements for the Preparation of EIA for Industrial Projects and Timely Preparation of an EIA	453
11.5	Environmental Clearance (EC) for Industrial Projects - Indian Context	453
	11.5.1 Environment Clearance Process for Industrial Projects – Ministry of Environment and Forests Govt of India Guidelines	453
	11.5.2 EIA for Starting Industrial Estates- Guidelines for Essential Points to be covered in preparing EIA	456

(xx) Contents

11.6	Case Study	465
11.6.1	Bulk Drug Industry - Environmental Impact Assessment	465
	Bulk Drug Industry – EIA	465
11.6.2	Process Description for the Present and Proposed Products	469
11.6.3	Baseline Status of the Study Area	476
11.6.4	Identification and Prediction of Environment Impacts	479
11.7	Preparation of EIA of Land Clearing Projects	483
11.7.1	Introduction	483
11.7.2	Environmental Impacts of Land Clearing in Upland Forests	484
11.7.3	Environmental Impacts of Land Clearing in Swap Lands	487
11.7.4	Planning and Management Requirements for EIA in Land Clearing Projects	488
11.8	Assessment of Impacts of Traffic and Transportation	491
11.9	Environmental Impacts of Highway/Road Development Projects	501
11.10	General Guidelines for Preparation of TORs for EIA of Transportation Projects	506
11.11	Case Study	508
11.11.1	Impact Assessment on Soil Erosion due to Highway Construction Result and Discussion	508
11.12	EIA for Irrigation Projects	517
11.12.1	Implication of Irrigation Schemes	518
11.12.2	Typical Impacts of Dams and Reservoirs	521
11.12.3	Environmental Impact Assessment Techniques	522
11.13	Environmental Impact Assessment for Dam Construction Using GIS/Remote Sensing (by Dr. Shibani Maitra) – Journal- GIS & Remote Sensing (2002)	527
11.13.1	Study Area	527
11.13.2	Physiography and Drainage	529
11.13.3	Geology and Structure	530
11.13.4	Climate	530
11.13.5	Soil Series	530
11.13.6	Land use/Land cover	531
11.13.7	Preparation of the Secondary Overlays	532
11.13.8	Generation of Final Overlays for Decision Making	532
11.13.9	Sediment Yield Index	535
11.13.10	Treatment Plans	536
11.14	Environmental and Ecological Aspects of Polavaram Project	537
11.14.1	Study Area for Polavaram Dam	537
11.14.2	Favourable Aspects of the Project	537
11.14.3	Need for Impact Assessments on Environmental and Ecological Aspects of the Project Area	538
11.14.4	Adverse Impact of the Project	541
11.14.5	Rehabilitation and Resettlement of Project Affected People	542

11.15 Case Study: EIA-Carrying out Exploration, Development and Production of Coal Bed Methane at Sohagpur (N) Block [SP(N)-CBM-2005/III] at Madhya Pradesh	543
11.15.1 Introduction	543
11.15.2 Objective and Scope of REIA Study	543
11.15.3 Legal Framework	543
11.15.4 Brief Project Description	545
11.15.5 Brief Baseline Environmental Status	545
11.15.6 Proposed Environmental Mitigation Measures and Required Actions	547
11.15.7 Environmental Management Plan	554
11.15.8 Risk Assessment and Disaster Management	555
11.16 Case Study: EIA of Vindhyachal Super Thermal Power Project- STAGE-IV (2 × 500 MW) NTPC Executive Summary of EIA (By Envirotech East Pvt. Limited Kolkata-June, 2008) Executive Summary	556
11.16.1 Project Description	556
11.16.2 Description of the Environment	556
11.16.3 Anticipated Environmental Impact and Mitigation Measures	559
Land Use Water Use and Hydrology	559
11.16.4 Demography and Socio Economics Soils	559
11.16.5 Environmental Monitoring Programme	563
<i>References</i>	564
