<i>Preface</i> .....	(vii)
<i>Acknowledgements</i> .....	(ix)

## CHAPTER 1

### OVERVIEW OF GOOD LABORATORY

### PRACTICES IN PHARMACEUTICAL INDUSTRY

1.1 Fundamental of GLP .....	2
1.2 GLP Organization and Personnel Management.....	2
1.3 Organization Chart, Job Description and Specimen Signature in GLP .....	3
1.4 Personnel and Personnel Hygiene.....	3
1.5 Instruments and Equipment.....	3
1.6 Laboratory Glassware .....	4
1.7 Chemicals, Reagents and Analytical Standards .....	5
1.8 Laboratory Reference Standards and Culture Media in Good Laboratory Practice .....	5
1.9 Good Housekeeping and Safety .....	6
1.10 Sampling .....	6
1.11 Testing and Review .....	7
1.12 Documentation.....	8
1.13 Incident, OOS and OOT .....	8
1.14 Self-Inspection (Internal Audits) .....	9
1.15 Validation/Verification.....	9
1.16 Measures in Good Laboratory Practice.....	9
1.17 Technical Transfer of Testing Methods in Good Laboratory Practice.....	10
1.18 On-going Stability Programme in Good Laboratory Practice .....	10
1.19 Documentation in Good Laboratory Practice .....	11
1.20 Sampling in Good Laboratory Practice.....	11
1.21 Testing in Good Laboratory Practice .....	12
1.22 Annexure.....	13

## **CHAPTER 2**

### **OVERVIEW OF GOOD MICROBIOLOGY PRACTICES IN PHARMACEUTICAL INDUSTRY**

2.1 Premises, Layout and Zone .....	18
2.2 Laboratory Equipment .....	19
2.3 Personnel .....	19
2.4 Media and Preparation .....	20
2.5 Reference Culture .....	21
2.6 Sampling .....	22
2.7 Laboratory Testing .....	22
2.8 Disposal of Contaminated Waste .....	23
2.9 Laboratory Data Management .....	23

## **CHAPTER 3**

### **QUALITY ASSURANCE MANAGEMENT IN GLP ENVIRONMENT**

3.1 Requirement of Quality Assurance Management in GLP .....	25
3.2 Responsibilities of the Quality Assurance Personnel .....	26
3.3 Qualifications of QA Personnel .....	26
3.4 Quality Assurance Activity in GLP .....	26
3.5 QA and Non-Regulatory Test .....	27
3.6 The QA Statement .....	28
3.7 Regulatory Expectations in GLP .....	28

## **CHAPTER 4**

### **LABORATORY QUALITY MANUAL**

4.1 Contents of the Laboratory Quality Manual .....	29
4.2 Topics that should be Covered in the Final Section on Quality Policies for Specific Regulation Elements .....	31
4.3 Format for Laboratory Quality Manual .....	33

## **CHAPTER 5**

### **LABORATORY QUALITY POLICY**

5.1 Scope of GLP Quality Policy .....	35
5.2 GLP General Requirements .....	35

5.3 Risk Management .....	36
5.4 Documentation, Records, and Data Controls .....	36
5.5 Management Responsibility .....	36
5.6 Resource Management .....	37
5.7 Product Realization .....	39
5.8 Product Sourcing.....	40
5.9 Measurement, Analysis and Improvement.....	40

## **CHAPTER 6**

### **LABORATORY SITE MASTER FILES**

6.1 Content of Site Master File.....	42
6.2 Appendix .....	48
6.3 Specimen Copy of Laboratory Site Master File.....	48

## **CHAPTER 7**

### **VALIDATION MASTER PLAN**

7.1 Types of Methods.....	60
7.2 Method Validation Requirements .....	61
7.3 Content of Analytical Procedure .....	61
7.4 Validation Characteristics.....	62
7.5 Analytical Method Transfer .....	63
7.6 Analytical Revalidation.....	64
7.7 Analytical Procedure Life Cycle Management .....	65
7.8 Definition .....	66

## **CHAPTER 8**

### **LABORATORY COMPUTER-SOFTWARE VALIDATION AND QUALIFICATION**

8.1 GAMP 5: Good Automated Manufacturing Practice.....	69
8.2 Computer and Software Validation Master Plans .....	70
8.3 Computer Qualification .....	70
8.4 Software Validation .....	73
8.5 Validation Protocol/Report.....	75
8.6 Validation of Hardware and Software.....	75

**(xiv) Contents**

---

8.7 Computer System and Software Life Cycle Management .....	76
8.8 Security Management.....	77
8.9 Electronic Records and Electronic Signature .....	77
8.10 Handling of Audit Trail .....	78
8.11 System Periodic Review .....	80
8.12 Data Back-up, Recovery, and Archiving .....	80
8.13 Electronic Data Integrity for Long Term in GLP .....	80
8.14 System Retirements Management .....	81
8.15 Business Continuity Plan (BCP) and Disaster Recovery Plan (DRP).....	82
8.16 Approach to Managing Regulatory Risks and Achieving in GPL Compliance.....	84

**CHAPTER 9**

**CONTROL OF SPREADSHEETS IN GLP**

9.1 Classification of Spreadsheet.....	85
9.2 Control of the Spreadsheet .....	85
9.3 Validation of the Spreadsheet .....	86
9.4 Live use of Spreadsheet.....	87
9.5 Spreadsheet Inventory Management .....	87
9.6 Data Storage and Security.....	88
9.7 Case Study for Master Spreadsheet Validation .....	88

**CHAPTER 10**

**ANALYTICAL INSTRUMENT AND  
EQUIPMENT QUALIFICATION**

10.1 GLP Qualification and Validation .....	92
10.2 Components of Data Quality in GLP .....	92
10.3 Analytical Instrument and Equipment Design.....	93
10.4 Analytical Instrument and Equipment Qualification Phase.....	93
10.5 Steps involved in Qualification.....	94
10.6 Requalification Frequency .....	97
10.7 Instrument and Equipment Operating Ranges .....	97

10.8	Categories of Analytical Instrument .....	98
10.9	Analytical Instrument and Equipment Standard Operating Procedure .....	99
10.10	Calibration Management .....	99
10.11	Planned Preventive Maintenance Program.....	100
10.12	Usage Log of Analytical Instrument and Equipment.....	100
10.13	Handling Defective and Nonqualified Instruments and Equipment.....	101
10.14	Analytical Instrument and Equipment Audits .....	101
10.15	Definition .....	101

## **CHAPTER 11**

### **ELECTRONIC AND PAPER-BASED DATA MANAGEMENT IN GLP**

11.1	ALCOA.....	104
11.2	Data Integrity GLP Regulatory Expectations.....	104
11.3	When does Electronic Data become a cGMP and GLP Record? .....	105
11.4	Confidentiality, Integrity and Availability Module (CIA).....	105
11.5	GLP Data Governance System .....	106
11.6	Designing GLP Systems to Assure Data Quality and Integrity.....	106
11.7	GLP Triggers of Data Integrity Loss .....	107
11.8	Data Integrity Metrics in GLP .....	107
11.9	Electronic Data Management in GLP as per USFDA Part 11 and EU GMP Annex 11 .....	108

## **CHAPTER 12**

### **LABORATORY TRAINING AND QUALIFICATION MANAGEMENT PROGRAM**

12.1	Training Program Management .....	113
12.2	Star Bugs of Training Program Management .....	114
12.3	Identification and Evaluation of Training Needs.....	115
12.4	Identification of Trainer .....	115
12.5	Training Program Material, Assets, Methods and Tools.....	116
12.6	Training Program Management Plan.....	116

**(xvi) Contents**

---

12.7	Evaluation of Effectiveness of Training.....	116
12.8	Documentation of Training Management.....	117
12.9	Automated Training Management.....	118
12.10	Analyst Trainee Training Qualification.....	118
12.11	Reviewer Qualification.....	120
12.12	Format used for Training Qualification Program Management.....	121
12.13	Format Used for Analyst Trainee Qualification Program Management.....	125
12.14	Format Used for Reviewer Qualification Program Management.....	130

**CHAPTER 13**

**REVIEWER QUALIFICATION MANAGEMENT**

13.1	Documentation Requirements for Reviewer Qualification.....	132
13.2	Qualification Procedure.....	133
13.3	Evaluation and Approval.....	134
13.4	Acceptance Criteria for Qualification.....	134
13.5	Requalification.....	135
13.6	Loss of Qualification.....	135
13.7	Planning, Reviewing and Documenting Qualification Activities.....	135
13.8	Reviewer Qualification Management.....	136
13.9	Definition.....	136

**CHAPTER 14**

**LABEL MANAGEMENT IN GLP ENVIRONMENT**

14.1	Master Specimen Label Copy.....	137
14.2	Procurement, Receipt, Storage, Issuance, Reconciliation and Destruction of Label.....	137
14.3	Format Used for Label Management.....	138

**CHAPTER 15****GLASSWARE MANAGEMENT IN GLP**

15.1 Classification of Glass as per United State of Pharmacopeia .....	146
15.2 Types of Glassware used in Laboratory Management .....	148
15.3 Common Glassware used in the Laboratory Management .....	148
15.4 Glassware Classification by Accuracy .....	149
15.5 Laboratory Glassware Procurement .....	149
15.6 Laboratory Glassware Verification.....	149
15.7 Glassware Calibration .....	150
15.8 Glassware Use and Cleaning.....	150
15.9 Glassware Care and Storage.....	153
15.10 Verification of Laboratory Glassware Procedure .....	154
15.11 Definitions.....	158
15.12 Pictorial Diagram of Glassware used in Laboratory Management .....	158

**CHAPTER 16****GLP COLUMN MANAGEMENT**

16.1 High Liquid Chromatographic Column.....	162
16.2 Gas Chromatography Column.....	164
16.3 Receipt, Issuance, Maintenance, Regeneration and Destruction of Column.....	165
16.4 Flow Chart of the Column Management.....	166
16.5 General Maintenance and Care.....	166
16.6 Records Maintained for Column Management .....	167

**CHAPTER 17****GLP STANDARD OPERATING PROCEDURE (SOP) MANAGEMENT**

17.1 SOP Process .....	170
17.2 Writing Styles .....	170
17.3 Format and Structure .....	170
17.4 SOP Review and Approval .....	172
17.5 Frequency of Revisions and Reviews.....	172
17.6 Checklists .....	173

## **(xviii) Contents**

---

17.7 Document Control .....	173
17.8 SOP Document Tracking and Archival .....	173
17.9 SOP General Format .....	174
17.10 Definitions.....	175

## **CHAPTER 18**

### **GLP SPECIFICATION MANAGEMENT**

18.1 Procedures and Requirements .....	179
18.2 Types of the Laboratory Specifications.....	179
18.3 Specification Template .....	181

## **CHAPTER 19**

### **GLP CERTIFICATE OF ANALYSIS (COA) MANAGEMENT**

19.1 Process of Certificate of Analysis (COA).....	184
19.2 Contents of COA .....	185
19.3 Control on COA .....	186
19.4 Format of COA .....	186

## **CHAPTER 20**

### **ANALYTICAL ROUNDING OF RESULTS**

20.1 Rules Involved in the Rounding of Results.....	187
20.2 Definitions.....	188

## **CHAPTER 21**

### **HANDLING OF RESIDUAL SOLVENT**

21.1 Classification of Residual Solvents by Risk Assessment.....	189
21.2 Analytical Procedures .....	190
21.3 Residual Solvent Level Reporting .....	190
21.4 Limits of Residual Solvents .....	190
21.5 Diagram Relating to the Identification of Residual Solvents and the Application of Limit Tests.....	193
21.6 Glossary.....	194

**CHAPTER 22****RESERVE SAMPLE MANAGEMENT**

22.1 Reserve Sample Collection Management .....	195
22.2 Reserve Sample Size and Retention Time .....	195
22.3 Storage Management for Reserve Sample .....	196
22.4 Periodic Visual Inspection of Reserve Sample.....	197
22.5 Reserve Sample Issuance and Retrieval Management .....	197
22.6 Destruction of Reserve Sample .....	197
22.7 Format Used in Reserve Sample Management.....	197

**CHAPTER 23****PHARMACEUTICAL PRODUCT STABILITY MANAGEMENT**

23.1 Stability Testing Condition and Testing Condition .....	201
23.2 Testing of Stability Sample .....	201
23.3 Selection of Batches for Stability Sample .....	203
23.4 Stability Sample Quantity .....	203
23.5 Stability Protocol and Report .....	204
23.6 Analysis of Stability Sample .....	204
23.7 Evaluation of Stability Data.....	204
23.8 Extrapolation of Stability Data.....	206
23.9 Significant Change at Accelerated Condition.....	206
23.10 Destruction of Stability Samples.....	207
23.11 Stability Storage Chamber Management.....	207
23.12 Mean Kinetic Temperatures .....	208
23.13 Format used for Stability Study Management.....	209
23.14 Definition .....	211

**CHAPTER 24****GOOD CHROMATOGRAPHIC INTEGRATION PRACTICE IN GLP**

24.1 Steps Involved Chromatographic Integration .....	215
24.2 Integration of Well Resolved Peaks and Properly Integrated Single Peak .....	215
24.3 Acceptable Practice of Peak Integration for a Single Peak during Assay Test.....	216
24.4 Chromatographic Integration of Unresolved Peaks .....	218

24.5	Noisy Baseline .....	223
24.6	Integration for Tests Involving Qualification of Minor Peaks in Combination with Principle Peak(s).....	224
24.7	Chromatographic Inhibit Integration.....	225
24.8	Chromatographic Manual Integrations .....	225
24.9	Flow Chart of Good Chromatographic Practice in GLP.....	227
24.10	Definition .....	228

## **CHAPTER 25**

### **MANAGEMENT OF UNKNOWN AND EXTRANEOUS PEAKS IN CHROMATOGRAPHIC TESTS**

25.1	Impurities as per ICH Q3A.....	230
25.2	Classification of Impurities.....	230
25.3	Unknown or Extraneous Peaks Observed during a Chromatographic Test .....	231
25.4	Reporting, Identification and Qualification Thresholds for Unknown Peaks.....	233
25.5	Investigation Trigger for Extraneous Peaks .....	238
25.6	Investigating “Unknown” or “Extraneous” Peaks.....	238
25.7	Definition .....	241
25.8	Annexure.....	241

## **CHAPTER 26**

### **QUALITY AGREEMENTS IN LABORATORY**

26.1	Elements of a Quality Agreement .....	244
26.2	Activities in Quality Agreements .....	245
26.3	Disqualification .....	246
26.4	Template used for Quality Agreement of Contract Laboratory.....	247

## **CHAPTER 27**

### **SAMPLING AND TESTING IN LABORATORY MANAGEMENT**

27.1	Sampling Responsibility .....	261
27.2	Different Types of Sampling in the Pharmaceutical Industry .....	262
27.3	Different Sampling Category .....	264

27.4	Sampling Process .....	265
27.5	Sampling Plan.....	265
27.6	Sampling Facility used in Pharmaceutical Industry .....	265
27.7	Sampling Tools.....	266
27.8	Sampling Container and Labeling.....	269
27.9	Storage for Sampled Material.....	269
27.10	Golden Rules of Sampling .....	269
27.11	Definition .....	273
27.12	Quality Control Sample Management Flow .....	275

## **CHAPTER 28**

### **LABORATORY STANDARD MANAGEMENT**

28.1	Source Material for Laboratory Standard.....	276
28.2	Traceability of Laboratory Standard .....	277
28.3	Reference Standards .....	277
28.4	Steps Followed in Reference Standard Project Design .....	278
28.5	Receipt and Storage Standard Reference Standard.....	278
28.6	Working Standard.....	279
28.7	Receipt and Storage Standard Working Standard .....	279
28.8	Chemical and Physical Methods used in Evaluating Substances .....	280
28.9	Definition .....	280

## **CHAPTER 29**

### **ANALYTICAL REAGENT, INDICATORS AND VOLUMETRIC SOLUTION MANAGEMENT**

29.1	Requirement of Reagent, Indicators and Volumetric Solution.....	283
29.2	Reagents Management .....	283
29.3	Indicators Management .....	284
29.4	Volumetric Standard Management .....	285
29.5	Batch Number System for Reagent, Indicators and Volumetric Solution .....	287
29.6	Label for Reagent, Indicators and Volumetric Solution .....	287

**CHAPTER 30**

**STATISTICAL TOOLS FOR PHARMACEUTICAL INDUSTRY**

30.1	Concept of Six Sigma and Lean Manufacturing .....	289
30.2	Common Statistical Tools Pharmaceutical Industry can use to meet Regulatory Requirements.....	289
30.3	Other Statistical Tools used in Pharmaceutical Industry .....	291
30.4	Qualitative and Quantitative Analysis .....	294
30.5	Patterns and Trends.....	294
30.6	Summary .....	295

**CHAPTER 31**

**FAILURE INVESTIGATION: TO PREVENT REOCCURRENCE**

31.1	Failure Investigation Regulatory Expectation .....	296
31.2	Failure Investigation Approach.....	297
31.3	Why do we need Investigation? .....	297
31.4	Why do we have Failures?.....	300
31.5	Failure Investigation Methodology: A Key to Success in a World Failure.....	300
31.6	Failure Investigation Data Review and Evaluation .....	305
31.7	What is Corrective & Preventive Actions? .....	306
31.8	Failure Investigation Report.....	307

**CHAPTER 32**

**LABORATORY FAILURE INVESTIGATION  
MANAGEMENT REPORT WRITING**

32.1	Investigation Management.....	312
32.2	Investigation Star Bugs .....	312
32.3	Challenges in Investigation .....	317

**CHAPTER 33**

**DEVIATION MANAGEMENT IN GOOD LABORATORY PRACTICES**

33.1	Deviation Categorization.....	318
33.2	Management of Deviation .....	319
33.3	Steps Involved in Deviation Investigation .....	320

33.4	Most Common Deviation in the Laboratory, but not Limited to.....	320
33.5	Deviation Trend Analysis .....	320
33.6	Deviation Case Study .....	320

## **CHAPTER 34**

### **HANDLING OF OUT OF TREND (OOT) RESULT IN LABORATORY MANAGEMENT**

34.1	Reporting and Login of the OOT.....	327
34.2	Laboratory Investigation Phase I.....	328
34.3	Phase II: Full Scale Investigation .....	330
34.4	OOT Trend Analysis.....	331
34.5	OOT Methodology Calculation.....	332
34.6	Challenges in Implementation of OOT .....	332
34.7	Definition .....	333
34.8	Annexes .....	334

## **CHAPTER 35**

### **HANDLING OF OUT OF SPECIFICATION LABORATORY RESULTS**

35.1	Reporting and Login of the OOS .....	345
35.2	Phase I: Laboratory Investigation.....	345
35.3	Phase II: Full Scale Investigation .....	348
35.4	OOS Trend Analysis .....	350
35.5	Field Alter Report (FAR).....	350
35.6	Definition .....	350
35.7	Annexes .....	353

## **CHAPTER 36**

### **PHARMACEUTICAL CHANGE CONTROL MANAGEMENT**

36.1	Regulatory Expectation in Change Control Managements .....	365
36.2	Steps Involved in Change Control System.....	365
36.3	ICH Q8, Q9 and Q10 Change Management and Application of Changes.....	367
36.4	E-Change Control System.....	368
36.5	Format Used in Change Control.....	368
36.6	Definition .....	369

**CHAPTER 37**

**DATA INTEGRITY IN PHARMACEUTICAL  
QUALITY CONTROL LABORATORIES**

37.1	Procedural versus Technical Controls .....	371
37.2	Certificates of Software Validation or Capability: Do they Provide Value? .....	372
37.3	Your Responsibilities: Audit, Assess, and Validate .....	372
37.4	Assessing the Software's (and the Vendor's) Compliance Support.....	373
37.5	Laboratory Audit Trail.....	373
37.6	Audit Trails and Design.....	373
37.7	Audit Trail Beginning.....	374
37.8	System Audit Trail Features.....	374
37.9	Audit Trail Content .....	375
37.10	Audit Strategies.....	375
37.11	Regulatory Main Elements of Data Integrity and Audit Trail Reviews.....	376
37.12	Audit Trail Review .....	376
37.13	Beyond the Audit Trail.....	377
37.14	Data Integrity from a Regulators' Point of View .....	377

**CHAPTER 38**

**ALARM MANAGEMENT IN GOOD LABORATORY PRACTICES**

38.1	Key Aspects of Alarm Management Program.....	380
38.2	Regulators Expectation of Alarm Management System.....	380
38.3	Element of a Good Alarm on Risk Assessment in Pharmaceutical Industry .....	382
38.4	Categorization of Alarm .....	383
38.5	Principle of Alarm Management System.....	383

**CHAPTER 39**

**HANDLING OF OBJECTIONABLE ORGANISMS -  
THE REGULATORY PERSPECTIVE**

39.1	Regulatory Expectations .....	385
39.2	Objectionable Microorganism Needs.....	385
39.3	Microbiological Requirements .....	385

39.4	Detection of Objectionable Organism .....	386
39.5	What the Laboratories Can Do on Identification of Objectionable Organism? .....	386
39.6	Risk Assessment.....	387
39.7	Resources for Assessing the Potential Harm .....	389
39.8	FDA Product Recalls due to Objectionable Microorganism given in the Table below .....	390
39.9	Summary .....	390

## **CHAPTER 40**

### **QUALITY BY DESIGN (QBD) APPROACH IN THE PRODUCT LIFE CYCLE**

40.1	Elements of QbD .....	391
40.2	Steps Involved in QbD Development Process .....	392
40.3	The Principle Steps in QbD are .....	392
40.4	QbD Documents.....	393
40.5	Process Analytical Technology (PAT) Frame Work .....	394
40.6	Use of PAT Tools in Continuous Manufacturing Process.....	394
40.7	PAT Regulatory Approach.....	395
40.8	Product Life Cycle.....	395
40.9	Definition .....	397

## **CHAPTER 41**

### **VALIDATION MASTER PLAN (VMP)**

41.1	Relation between Validation and Qualification .....	398
41.2	Validation Master Plan.....	399
41.3	Validation Protocol/Report.....	401
41.4	Time Plans of Each Validation Project and Sub-Project .....	402
41.5	Validation, Sampling Schedule.....	402
41.6	Definitions.....	402

## **CHAPTER 42**

### **AUDIT IN LABORATORY MANAGEMENT**

42.1	Traditional Approach to IA .....	409
42.2	Forecasting Approach to IA .....	410
42.3	Benefits of QRM to IA Program.....	411

**(xxvi) Contents**

---

42.4 IA Approach to Organization .....	411
42.5 Planning .....	415
42.6 Audit Sampling .....	417
42.7 Audit Tools .....	418
42.8 Audit Evidence and Analysis Phase .....	418
42.9 Audit CLOSE-OUT and FOLLOW-UP .....	418
42.10 Good Laboratory Checklist for Internal Audit .....	419

**CHAPTER 43**

**LABORATORY ENVIRONMENT CONDITION AND MONITORING**

43.1 Laboratory Environmental Conditions.....	442
43.2 Laboratory Temperature and Humidity Recording Program.....	442
43.3 Monitoring of Differential Pressure in Different Areas.....	443
43.4 Microbiological Environmental Monitoring .....	443
43.5 Air and Surface Environment Monitoring .....	445
43.6 Difference between Viable Particle and Non-Viable Particle .....	446

**CHAPTER 44**

**LABORATORY QUALITY STANDARDS MANAGEMENT**

44.1 International Laboratory Management Quality Standards .....	448
44.2 Steps Involved in Laboratory Quality Management System.....	449
44.3 ISO 15189 Laboratory Standards .....	450
44.4 Steps Involved in Implementing the Quality Standard in Laboratory.....	450
44.5 Laboratory Management Error .....	451
44.6 Laboratory Management Phases .....	451
44.7 Checklist for Laboratory Quality Standards Management.....	454

**CHAPTER 45**

**LABORATORY INSTRUMENT CALIBRATION PROGRAM**

45.1 Laboratory Instrument Calibration Authorized Agencies.....	464
45.2 Method used for the Laboratory Instrument Calibration .....	465
45.3 Setting of Laboratory Instrument Calibration Limits .....	466
45.4 Calibration Certification Requirement.....	466

45.5 Instrument Calibration Procedure.....	466
45.6 Instrument Calibration Responsibility.....	467
45.7 Calibration Frequency Determination .....	467
45.8 Laboratory Calibration Schedules .....	468
45.9 Instrument Labelling and Documentation.....	468
45.10 Relocation of Laboratory Instruments .....	469
45.11 External Calibration Contractors .....	469
45.12 Definitions.....	469

## **CHAPTER 46**

### **LABORATORY SAFETY MANAGEMENT PROGRAM**

46.1 Laboratory Safety Standard - Roles and Responsibilities .....	472
46.2 Requirement of Safety Department.....	473
46.3 Safety Rules for Laboratories .....	474
46.4 Laboratory Personnel Information and Training .....	475
46.5 Material Safety Data Sheets (MSDSs).....	477
46.6 Safety Hazards .....	478

## **CHAPTER 47**

### **ROLL BACK GOOD ANALYTICAL PRACTICES**

47.1 Analytical Technique Procedure.....	479
47.2 Laboratory Instrument Qualification.....	480
47.3 Statistical Concepts .....	481
47.4 Analysis Platinum Rules.....	481
47.5 Laboratory Data Integrity .....	481
47.6 Laboratory Management Practice.....	482
47.7 Risk-Based Approach.....	483
47.8 Important Element in Quality Control.....	483
47.9 Laboratories Contents and its Verification.....	485

## **CHAPTER 48**

### **LABORATORY ENTRY-EXIT PROCEDURE**

48.1 Entry Procedure in Pharmaceutical Laboratory .....	500
48.2 Exit Procedure in Pharmaceutical Laboratory .....	501
<i>References</i> .....	503
